New Mastodon STRAWBERRIES

Produces Heavily the First Season

Mastodon, the great strawberry found in Indiana a few years ago, has stood the test in every section of the United States this season. It is now widely distributed and favorable reports come in from everyone who has grown it.

Here is a new giant everbearing that will start to produce an abundance of good fruit within three months after planting and continue to bear fruit until frost. The Mastodon has proven itself far superior to other everbearing varieties in many ways.

1. Fruit is almost double the size of the common everbearers.

2. Produces a heavy crop in the spring and another in late summer and early fall. Other everbearers yield only a fair crop in the spring.

3. Plants are more thrifty.

ORDER NOW AND ENJOY THEM NEXT FALL

A New Shrub From China

KOLKWITZIA AMABILIS OR BEAUTY BUSH

Following is a description of this new shrub, taken from a bulletin of the Arnold Arboretum Harvard University, of June 14, 1927, in which they say:

Kolkwitzia Amabilis is now in blossom on Bussey Hill, where a young and vigorous plant is flowering. Every succeeding year emphasizes the garden value of this plant for which the descriptive title of Beauty-Bush has been aptly coined.

It is a twiggy shrub, growing from 6 to 8 feet tall, with the inner stems erect or ascending and the outer ones arching to the ground, the whole plant forming a dome-shaped mass. The flowers are produced along the whole length of the branches in clusters at the ends of short, leafy shoots. They are tubular with a gaping mouth, deep pink without, stained with yellow-brown on the lower throat and lip.

The graceful habit of the plant, its free-flowering qualities, pleasing color, combined with perfect hardiness, make this one of the most beautiful, as well as most useful shrubs that China has given to the gardens of this country. Related to the Weigelas or Diervillas, it is far more beautiful than any of them, and is destined to become one of the most familiar plants in our gardens.

WRITE YOUR LETTERS ON A SEPARATE SHEET.

IN THE YEAR 1849

In the year 1849 Peter Bohlender, the founder of SPRING HILL NURSERIES, began working in a nursery. There were few schools at that time and little opportunity to attend, so his education was the result of his own efforts.

His intimate and life long association with trees and plants, together with his interest and accurate and correct knowledge, made him a leader in the growing of nursery stock.

He gave up the active management of the business he founded in 1904, twenty-four years ago and deferred this part of the work to his son, W. F. BOHLENDER, and his son-in-law, H. N. KYLE.

Our office and packing sheds in the year 1889

YESTERDAY

It seems only yesterday that the SPRING HILL NURSERIES, a small struggling nursery compared to the present day standards, occupied only a few acres of ground. Our buildings were small and our market restricted to fruit trees and a few ornamental plants.

We attribute our growth to the fact that a vast army of home owners have seen the essential part that trees and plants occupy in the home life. They have realized that home grounds are incomplete without them, just as a room is not complete without furnishings. They saw that money invested in plants increased the appearance and value of their property.

And because nursery stock filled a real need in the home life, people bought and we have been blessed with a fair share of this business. By keeping abreast of the times, by constantly trying new and improved methods of growing, digging, handling and packing our goods, so as to give our customers the best value for their money, they have turned to us each year in every increasing numbers.

We hope to continue to improve, to be constantly able to serve you to your best advantage, and our motto will always be

Every Customer Must Be Satisfied

An aerial of our nurseries, showing our packing sheds, offices, seed rooms, and part of our trial grounds. Each year, many millions of plants and trees are packed in these buildings, and shipped all over the United States and foreign countries.

TODAY

Today we feel that no one in the nursery business is in position to offer you better stock, better service, or better value for your money.

The packing sheds shown above contain about seventy-five thousand square feet of floor space, nearly two acres. If your order is for one plant, or a car load, the stock is all taken under roof out of the wind and sun, so as to reach you in good growing condition.

In these buildings each winter we graft many hundreds of thousands of fruit trees, shrubs and evergreens. They also house our seed rooms

where we send flower and vegetable seeds to customers all over the United States and many foreign countries.

In the trial grounds shown in the picture we test out all new varieties thoroughly before offering them in our catalogue.

Everything possible is done to protect the customer, and when better nursery stock can be grown, we intend to be among the first to grow it.

No matter whether your wants are large or small, we solicit your business, and we will do whatever we can to satisfy each customer.

OVER 70 YEARS IN THE NURSERY BUSINESS

GENERAL INFORMATION

PLEASE READ BEFORE PLACING ORDER.

WE GUARANTEE all stock shipped from our nurseries to be true to name and label, of size specified, best quality, good, clean and healthy, first class stock. We also guarantee our stock to reach you in good condition. If at any time found not to conform to the above guarantee we will gladly replace the stock, free of charge, or refund the purchase price. It is mutually agreed and understood, however, between the purchaser and ourselves, that we cannot be held responsible for a greater amount than the original purchase price of the stock.

ADJUSTMENTS—It is our chief aim to deliver to our customers a full measure of satisfaction. We exercise the utmost care in filling your orders, but in the rush of the season errors will sometimes occur. Please advise us at once of any such error and we will promptly and cheerfully correct it.

PRICES—The prices quoted in our catalog this year cancel all previous price lists. All stock except where noted is quoted F. O. B. our nurseries at Tipppecanoe City, Ohio. Only the very best quality stock will be furnished you at the prices quoted herein. Buy direct from us and save money.

REMITTANCES—Charge accounts increase operating expense and this in turn increases the cost of the stock, so remittances should accompany the order. If you cannot send the full remittance with your order, send part of it and we will send the stock to you in the proper season, the balance of your bill C. O. D. Remittances should be made to us by draft, money order or check. If remittance is made in any other form it is best to register the letter to guard against its being lost in the mail.

LOCATION—Our nursery grounds are located in the heart of the Miami Valley, and we have excellent shipping facilities. The Baltimore and Ohio Railroad and The Dayton and Troy Electric Ry. connect with our nurseries and we are only 14 miles north of Dayton and one mile east of the Dixie Highway. Call and see us, we are glad to have you at any time.

ROCK PLANTS

Of late years much interest has developed in Pools and Rockeries. We find that many of our customers are at a loss as to what varieties to plant for this purpose. We believe also that a great many people would build and plant Rockeries if the information were available as to suitable varieties. We are grouping on this page a list of plants suitable for this purpose. They are all hardy and of easy culture and we can recommend them for general use.

ANEMONE—WINDFLOWER

ANEMONE JAPONICA (Japanese Anemone)—Valuable plants suitable for massing or single specimens. They grow rapidly and are profuse in bloom, gaining strength and beauty each year. The blooming period extends from August till mid-November, the large, open flowers furnishing abundant cut flowers and a brilliant field display. Cover plants in Winter. Price 20c each; 3 for 50c.

COTONEASTER HORIZONTALIS

(Rock Cotoneaster).—A low, spreading, horizontal, evergreen shrub, growing to a height of 18 inches, and spreading to about 3 feet, glossy evergreen leaves, with numerous pink flowers that cover the shrub. The leaves turn a brilliant scarlet in autumn, which with the red berries it produces annually, makes it one of the finest shrubs grown.

DIANTHUS

DELTOIDES (Maiden Pink)—A beautiful little plant with narrow leaves and bearing a profusion of small, crimson flowers during June and July. Easily grown on rockery. 15c each; 3 for 40c.

EUONYMUS VARIEGATA

EUONYMUS RADICANS VARIEGATA (Variegated Winter Creeper).—An attractive dark green leaved plant, with creamy white and pink variegated edges. Of slow growing habit and very hardy. For covering walls or house foundations it has no equal. Makes a good undergrowth and ground cover for evergreens, or an attractive edging or border. Price, 2 yr. field-grown plants, 50c each; 3 for \$1.25.

ARABIS

(Rock Cress) (Alpina).—Pure white flowers produced in dense masses, splendid for border and rockery work; lasts quite some time when cut. Price 25c each; 3 for 60c.

ASTILBE GLORIA

A beautiful new variety of Astilbe recently imported from Holland. It is a relative of the Astilbe you get from your florist at Easter time, but it is more beautiful than any variety forced in a greenhouse. Individual plants bear from twenty to fifty spikes of beautiful, large, rose-pink, feathery flowers on stems eighteen inches long, in June and July. They are of very easy culture and make a moist location in any ordinary garden soil. A greatly admired flower that puts the desired touch to your garden. Price, 50c each; 3 for \$1.25.

ALYSSUM

(Saxatile Compactum).—Broad masses of bright yellow flowers in early Spring. An excellent plant for the rockery or front of borders. 1 foot. Price, 20c each; 3 for 50c.

CERASTIUM—SNOW IN SUMMER

TOMENTOSUM.—A low-growing plant having silvery white foliage and producing an abundance of snow-white flowers. Especially suitable for rock or border purposes. Price 25c each; 3 for 60c.

LILY OF THE VALLEY

Very small and sweet and dainty, the creamy white scalloped bells pendant along slender stems. They make up (with their broad shiny leaves) into dainty bouquets of fragrance. They spread actively from the roots and soon reclaim shaded cold ground which otherwise would be cheerless and barren. 15c each; 3 for 40c.

HEUCHERA

SANGUINEA.—12 to 18 inches. June to Sept. Flowers bright crimson; very free-flowering. Nice for cutting. Excellent for rock garden. 40c each; 3 for \$1.00.

CREeping PHLOX

SUBULATA.—Moss or Mountain Pink and an early spring flowering type with evergreen foliage. Valuable for covering ground or graves. Price 15c each; 3 for 40c.

PERIWINKLE

HARDY MYRTLE.—For covering bare ground under trees where grass will not grow, or trailing rock work. It is indispensable. In spring it is covered with blue flowers. Perfectly hardy in all localities. It makes a handsome plant. 10c each; 6 for 50c; per 100, \$5.00.

Gypsophilla Paniculata

IBERIS

SEMPERVIRENS.—Very dwarf and covered with a sheet of white, a particularly fine rock plant. 15c each; 3 for 40c.

LINARIA—TOAD FLAX

CYMBALARIA (Kenilworth Ivy, or Mother of Thousands).—Lavender and purple. A charming, neat, hardy perennial trailing plant, suitable for rock work and wall gardens. 25c each; 3 for 60c.

GYP SOPHILLA—BABYS BREATH

REPENS.—A beautiful trailing plant for the rockery with clouds of small, white and pink flowers in July and August. 25c each; 3 for 60c.

LYCHNIS

VISCARIA SPLENDENS ALBA.—Flowering profusely in June and July; it is one of the best white flowers at that time of the year. 8 to 10 inches high; fine border plant. 20c each; 3 for 50c.

Astilbe Gloria

Lily Of The Valley

Price: 12 to 15 inch plants, 75c each; 3 for \$2.00.

Phlox Subulata or Creeping Phlox

NEW AND RARE PLANTS

NEW RED-LEAVED JAPANESE BARBERRY

SEE FRONT COVER

It is only once in a lifetime that a really worth while, outstanding novelty in hardy shrubs is introduced, and in this new Barberry we have such a plant.

It is similar in all respects to the green-leaved Japanese Barberry which is so popular for mixing in the shrubbery border, as single specimens, or for planting in clumps on the lawn, as well as for foundation plantings and for hedges, but the foliage of this new variety is of a rich, lustrous, bronzy red, similar to the richest red-leaved Japanese Maples. However, unlike these and other colored shrubs in which the coloring fades or disappears entirely as the season advances, this new Barberry becomes more brilliant and gorgeous throughout the summer, and in the fall its foliage changes to vivid scarlet, and red shades, more brilliant and more effective than in the ordinary Japanese Barberry. In this coloring it is unequalled by any other shrub and is followed by the same brilliant scarlet berries common to the type, which remain on the plant the entire winter.

All that is required to develop its brilliant coloring at all seasons is that it be planted in full exposure of the sun. Plant 1 foot apart for hedges. Price: 12 to 18 inch plants, 25c each; 25 for \$6.00; 50 for \$11.50; 100 for \$20.00.

BERBERIS WILSONAE

WILSON BARBERRY—A comparatively scarce dwarf, very hardy species with bright green leaves and many long spines; in the fall the foliage takes on the most brilliant autumn tints. Price: 10 to 12 inch plants, \$1.00 each; 3 for \$2.75.

COTONEASTER MICROPHYLLA

QUINCE BERRY—An attractive evergreen shrub, growing very compact about 3 ft. tall. Leaves are very small, dark, glossy green. Flowers appear in June and are half hidden by the leaves. Beautiful creamy white, and are followed by a scarlet berry, resembling our American Holly. Berries on bush throughout the winter. Price: 8 to 10 inch plants, \$1.00 each; 2 for \$1.75.

A NEW BUTTERFLY BUSH

BUDDLEIA ALTERNIFOLIA—A recent introduction from Holland. A beautiful fine leaved shrub of compact habit with branches of a semi-weeping habit. It grows to a height of about 4 feet, and is covered with long lilac colored flowers in July and August with some flowers up till frost. 18 to 24 inch plants 75c each; 3 for \$2.00.

Tree Strawberry

Cotoneaster Horizontalis (See page 3)

Barberry Wilsonae

TWO NEW SNOWBALLS

VIBURNUM OPULUS NANA—A dwarf form of High Bush Cranberry and a member of the Snowball family. It grows very dense, globular in form. Has large glossy green leaves turning to a brilliant bronze in the autumn. Grows from 18 to 24 inches high. Needs no trimming. Price: 8 to 12 inch, 75c each; 3 for \$2.00.

VIBURNUM CARLSII (Pink Flowering Snowball)—Another of the dwarf Snowballs growing to about 4 feet tall, silver green foliage, very compact and dense. Its beautiful light pink flowers are borne in clusters, covering the entire bush. They are very fragrant, with a heliotrope odor that is very pleasing. Price: 12 to 18 inch, \$1.00; 3 for \$2.50.

BLOOD RED JAPANESE MAPLE

ACER PALMATUM ATROPURPUREUM—A small tree or shrub, valued for its blood red leaves and bright red branches, of dense growing habits. The delicate leaves are very showy and are fine as specimens, or can be used with evergreen plantings to good advantage. Dug with ball of earth and burlapped. Price: 2½ to 3 feet plants, \$6.00 each; 3 to 3½ ft., \$8.00 each.

TREE STRAWBERRY

The Tree Strawberry or Strawberry-Raspberry as it is sometimes called, is one of the largest and most beautiful of all berries.

A new plant in habit and growth and form of fruit. It puts up numerous strong branching shoots about 2 feet high, wonderfully beautiful, both foliage and blossom.

Bears beautiful large ruby red fruit, the bright red berries showing a striking contrast to the large white blossoms. This bush with its glossy green leaves makes a very ornamental plant, besides giving you a crop of the finest berries for jelly and jam. The canes soon shoot up in the spring, blossoming and bearing in early summer. They endure cold climate getting larger and better every year, giving many extra plants. Order now, as the stock is limited.

Prices: 3 for 50c; 8 for \$1.00; 25 for \$2.50. Extra large plants 30c each, 4 for \$1.00; 10 for \$2.00.

White Japanese Flowering Cherry

FLOWERING HAWTHORNS

Handsome Dwarf Trees with shiny leaves. Very attractive in shape and color, they bloom in profusion late in spring time with compact clusters of double rose-like flowers. These are followed by large red fruits and autumnal colorings.

PAUL'S SCARLET THORN (*Crataegus Oxycantha Splendens*)—Flowers deep crimson scarlet, very double. This is one of the most attractive trees for specimen planting or groups, as showy in fruit as when in flower. 3 or 4 ft. size \$1.50; 3 for \$3.50.

DOWNY HAWTHORNE (*Crataegus Mollis*)—Bright green leaves with very showy creamy white flowers and scarlet edible fruit; fine for mass planting. 2 to 3 ft., 50c, 3 for \$1.25.

WHITE FLG. ENGLISH HAWTHORNE (*Crataegus Oxycantha Alba*)—Pure white, very attractive double flowers. Beautiful in foliage and fruit in the Autumn. 2 to 3 ft., 50c, 3 for \$1.25.

PINK FLG. ENGLISH HAWTHORNE (*Crataegus Oxycantha Rosea*)—Flowers deep rose, double, very attractive in flower and also when in fruit. Very fine for those who desire a light shade of color. 3 to 4 ft., \$1.00; 3 for \$2.50.

FLOWERING PEACH

To those who have had the first view of a well developed tree of this kind in full bloom, it appears

that nothing more beautiful could possibly be found. We are indebted to Persia for this tree, from which country it was introduced into the United States a number of years ago.

WHITE FLOWERING PEACH (*Persica Vulgaris Alba*)—The white is particularly charming, as it is the purest white seen in any flower. The rose-like flowers cover every branch and twig in great profusion. Price: 3 to 4 ft., \$2.00 each; 3 for \$5.00.

PINK FLOWERING PEACH (*Persica Vulgaris Rosea*)—This variety has habits exactly like the white flowering, only the flowers are of a deep rose color. Price: 3 to 4 ft., \$2.50 each, 3 for \$5.00.

FLOWERING PLUM

(*PRUNUS TRILOBA*)

This is a small tree, a miniature flowering peach, smaller in growth and bloom. The foliage is quite different, the flowers smaller, but beautiful, very double and a lovely pink, blooming slightly in advance of the Flowering Peach. Price: 3 to 4 ft., \$1.00 each, 3 for \$2.50.

NEW and RARE PLANTS

JAPANESE FLOWERING CHERRY

Also called the Rose Flowering Cherry. The most notable trees of this group in the United States are at Washington D. C. This collection of trees was presented to our nation by the City of Tokio, Japan. They were planted along the Potomac River Drive, and now since they have come into bloom, are visited by everybody in Washington during the blooming season. The fame of these Cherries has spread all over the United States, and as they are hardy everywhere they should be largely planted.

WHITE FLOWERING CHERRY (*Cerasus Avium Alba*)—Beautiful small trees absolutely covered with flowers in the springtime. They are of very easy culture and will do well in any location where the soil is fertile and well drained. Flowers of this variety are pure white and are found in clusters on every twig. Price: 3 to 4 ft., \$2.00 each, 3 for \$5.00.

PINK FLOWERING CHERRY (*Cerasus Avium Rosea*)—These trees are covered with flowers of a deep rose color, in clusters all over the trees. Has the same habit otherwise as the White Flowering. Price: 3 to 4 ft. trees, \$2.00; 3 for \$5.00.

Pauls Scarlet Thorn

Flowering Plum

A PAGE OF FLOWERING CRABS (MALUS)

The Chinese Flowering Crabs are not as well known as the Flowering Cherries, but a lot of them are decidedly the most gorgeous and brilliant subjects for our gardens. The flowers are produced before the foliage, coming in multitudes and almost obliterating the branches. The effect is of a tree clothed in transparent silk gauze, shimmering and changing in color value with the elevation of the sun. The effect is beautiful in single trees or clumps, but is wonderful in hedges. They grow in any soil, and these wonderful trees are deserving of a spot on every homeground.

ELEYII—This is a purple-leaved, vigorous-growing Crab of recent introduction from England. The flowers are single, of a deep pink or red color. This is a distinctly valuable Flowering Crab and has purplish red foliage, as well as the attractive red flowers. 2 to 3 ft., \$1.50 each, 3 for \$4.00.

ALDENHAMENSIS—The Aldenhamensis is a new Flowering Crab, originating as a chance hybrid on the place of Hon. Vicary Gibbs at Aldenham, England. This is considered the finest of all the red-flowered Crab Apples flowering after most of the other Crabs have finished. Double red. 2 to 3 feet, \$1.50 each, 3 for \$4.00.

ATROSANGUINEA—Beautiful rose-pink flowers during the blooming season. Tree grows into a spreading form that is attractive. 3-4 ft., \$1.00, 3 for \$2.50.

FLORIBUNDA—Bright pink flowers upon opening turning to pure white. Small yellow fruit in the autumn. 3 to 4 feet, \$1.25 each, 3 for \$3.00.

NIEDSWETZKYANA—Red or purple branches, leaves, stems, bark, buds and fruit; upright. Vigorous and healthy plant. 3 to 4 ft., \$1.50 each, 3 for \$4.00.

PARKMANI—A broad spreading form with very bright rose-colored flowers of a semi-double form. 3 to 4 ft., \$1.00 each, 3 for \$2.50.

SCHEIDECKERI—Upright habit of growth with abundance of small pink flowers, very fragrant and double. Leaves dark green and lustrous. A strikingly beautiful tree when in bloom. 3 to 4 ft. \$1.50 ea., 3 for \$4.00.

SPECTABILIS ROSEA fl. pl.—Pyramidal in form with large pink, semi-double flowers in early spring. 3 to 4 feet, \$1.50 each, 3 for \$4.00.

SARGENTI—Clusters of saucer-shaped flowers of pure white; low, broad and densely branched; fine for banks. 2 to 3 ft., \$1.50, 3 for \$4.00.

SEIBOLDI—Clusters of white flowers unfolding with the leaves; fruit most beautiful of all crabs. 3 to 4 ft., \$1.50 each, 3 for \$4.00.

BECHTELS—Pale pink double flowering; sweet scented flowers; upright habit; can be used as specimen plants; very attractive in groups. 3-4 ft., \$1; 3 for \$2.50.

ORNAMENTAL SHADE TREES

ASH (FRAXINUS)

American Ash

AMERICAN WHITE (Americana)—A handsome, hardy, broad headed, quick growing shade tree, sometimes reaching 120 feet in height. Very valuable in landscape work, for park and street planting, 6 to 8 feet, \$1.25.

EUROPEAN MOUNTAIN (Sorbus Aucuparia) — An ornamental deciduous tree with beautiful foliage which turns orange-red in fall; fruits showy, often remaining all winter. 6-8 ft., \$1.60.

ELM (ULMUS)

A NEW VARIETY OF ELM

MOLINE ELM—The outstanding characteristic of this tree is a decidedly conical or pyramidal growth, with heavy branches twice the caliper of the common Elm and leaves twice the size of the ordinary, of a deep shining green color and deeply veined. The bark is smooth, greenish gray in the young growth, and extremely clean and healthy looking. As the tree grows older its lower branches become more and more horizontal without any tendency to droop or overhang, showing its yearly growth like the Abies or Picea, and therefore more desirable as a specimen for street planting or wherever a majestically upright background is desirable.

Milwaukee has over 1000 of these Elms on its beautiful boulevards. You cannot go wrong to order a good supply from our extremely fine stock. Price: 6-8 ft., 95c ea., 3 for \$2.75; 8-10 ft., \$1.45 ea., 3 for \$4.00; 10-12 ft., \$1.85 ea., 3 for \$5.00.

ENGLISH (Campestris)—Planted as avenue tree. Foliage remains green several weeks later than American Elm. 10 to 12 ft., \$3.00.

Red Bud

AILANTHUS

TREE OF HEAVEN—An attractive tree for the garden and for planting close to the house; makes a deep tap root that will not interfere with foundations. The foliage is much like the sumac, but on a larger scale, has flowers in large panicles followed by fruit clusters that are often highly colored. Very ornamental. 4 to 6 ft., 80c; 6 to 8 ft., \$1.10; 8 to 10 ft., \$1.25.

LINDEN (TILIA)

AMERICAN LINDEN (Basswood)—A beautiful, rapid-growing tree with large, broad leaves and fragrant flowers. The bloom furnishes the best of bee pasture. The linden should be extensively used as a lawn tree; it is also very valuable for park and street planting. It thrives in moist, rich soil, but does well in any good soil. 6 to 8 feet \$1.75.

RED BUD

CERCIS CANDENSIS—A handsome ornamental tree growing twenty or thirty feet high. It has broad irregular head and perfect, heart-shaped glossy leaves. Beautifully attractive in early spring when the leafless branches and twigs are covered with rosy, pink blossoms. Very beautiful and attractive planted as single specimens or in groups. 3 to 4 ft., 50c each; 4 to 5 ft., 80c each.

AMERICAN PLANE

SYCAMORE or BUTTONWOOD (P. Americanus)—Widely planted tree. The bark is picturesquely shaded with gray and white. 6 to 8 ft., \$1.00; 8 to 10 ft., \$1.25; 10 to 12 ft., \$1.60.

American Elm

American Plane

ORNAMENTAL SHADE TREES--CONTINUED

DOGWOOD—CORNUS

FLORIDA (White Dogwood)—Handsome tree of medium size, flowering after red buds when most other trees are still bare. Great white flowers are three inches across, lasting in favorable weather for several weeks. The bright red bark on its young branches makes it cheery in winter.

Blooms when small. 2 to 3 feet, 70c each; 3 to 4 feet, \$1.00 each.

FLORIDA (Var. Rubra)—A very beautiful form of the dogwoods with blossoms that are pink on the outside of the petals. 2 to 3 feet, \$3.00.

FLOWERING CRABS

See page 6

CATALPA SPECIOSA

Very fast growing, 30 to 40 feet, with immense heart-shaped leaves, beautiful trumpet-shaped flowers, white large clusters May and June, followed by long, narrow, cylindrical seed pods. Timber does not rot, good for posts. 8 to 10 ft., \$1.00.

BIRCH—BETULA

WHITE BIRCH

Of wonderful grace and beauty. Tall, vigorous with slender branches; foliage colors brilliant in fall, and its bare white trunk and branches are very beautiful in winter. 4 to 6 feet, \$1.50.

CUT LEAF WEEPING

(Betula alba pendula laciniata). Upright, slender tree, with delicate drooping branches and small leaves. Bark white, branches black, leaves glossy, dark green; grows 25 to 40 feet. 6 to 8 ft., \$3.00 each.

For Japanese Maple See page 4

NOTE—See our offer to help you pay express charges on order blank.

Silver Maple

MAPLE—ACER

BOX ELDER (Negundo)—Large, spreading tree of rapid growth; very hardy, and a good drought resister. Largely planted for wind breaks and timber. Leaves resemble those of the ash. 8 to 10 feet, \$1.00 each.

NORWAY (Platanoides)

—Large, handsome tree with a compact rounded head of spreading branches, attaining a height of 75 feet. The broad, deep green leaves cast a dense, refreshing shade. One of the best and most beautiful trees for the street, the park, cemetery or lawn planting. 6 to 8 ft., \$2.00; 8 to 10 ft., \$3.00.

SILVER (Saccharinum)—This is one of the best known of all maples. It is an ornamental tree with wide, slender spreading branches. Thrives almost anywhere, but grows very rapidly in moist, rich soil. 6 to 8 feet, 75c each; 8 to 10 feet, \$1.00 each.

SUGAR or ROCK (Saccharum)

—Large trees to 120 feet with gray bark. Long lived. Grows well except in damp, soggy soils. An excellent street and shade tree of upright, dense growth, turning bright yellow and scarlet in autumn. 6 to 8 feet, \$1.50 each; 8 to 10 feet, \$1.75 each.

Bechtels Flowering Crab
See page 6

Weeping Birch

Norway Maple

SCHWEDLERII (Purple-leaved Norway Maple)—One of the most beautiful of the shade trees. In early spring the young leaves are bright red, changing to purplish green as they grow older. In autumn they are golden yellow. The tree has a round, compact head and large leaves which cast a dense shade. 6 to 8 feet, \$2.00 each.

SIBERIAN MAPLE (Acer Ginalla)—A low growing, very hardy tree. Beautifully colored foliage in the spring and fall of the year. Leaves somewhat similar in shape to the Japanese Maple. Hardier than any other maple. Used very often in shrubbery planting, windbreaks and screens. Price 3 to 4 ft. plants \$1.00 each; 3 for \$2.50.

Sugar or Rock Maple

ORNAMENTAL SHADE TREES--CONTINUED

POPLAR—POPULUS

CHINESE (*Chinensis*)—A rapid growing tree, with a habit similar to the Lombardy Poplar. Branches are longer however and leaves are smaller. Very picturesque tree and it is said to live to a great age. Will grow in any location. Price 10 to 12 ft. trees, \$1.35 each; 3 for \$3.75.

LOMBARDY (*Nigra*, var. *Italica*)—One of the characteristic trees of Italy. With age, the Lombardy poplar becomes one of the most striking and picturesque trees, particularly when some of the sprouts are allowed to grow about the old stock. Excellent for landmarks. 6 to 8 ft., 50c; 8 to 10 ft., \$1.00; 10 to 12 ft., \$1.25.

GOLDEN POPLAR (*Alba Richardii*)—The original plant of this novelty was obtained over twenty years ago, with a shipment of plants from Holland, which were intended for experimental purposes and possible introduction. This Poplar proved itself very handsome, particularly if grown as a spreading shrub. The foliage resembles the well known Silver Poplar (*Populus Alba*) in shape. It is heavily covered with a fine white down or tomentum on the young branches and the underside of the leaf giving the plant a very striking appearance. The general color is a combination of yellow with green, gray green, white, and sometimes purplish undertones, each leaf shows different combinations of these colors and the whole plant growing between ordinary green leaved plants immediately attracts the eye by its bright and luminous appearance. Our stock is still limited, and it will be necessary for you to place your orders early if you wish to secure this highly desirable novelty. Grows 6 to 8 feet high. Price: 4 to 5 ft., \$1.50 each; 2 for \$2.50.

OAK—QUERCUS

Price on all kinds of oak trees, 6 to 8 ft., \$2.00.

SCARLET OAK (*Coccinea*)—A noble tree, attaining a height of eighty feet. Has gradually spreading branches, which form a rather open head. Grows and thrives in dry locations. Especially beautiful in fall, when the leaves turn to a beautiful scarlet.

PIN (*Palustris*)—Handsome tree, especially when young. Often used for avenues; grows rapidly, prefers a somewhat moist soil. The foliage turns bright red in fall.

RED (*Rubra*)—Beautiful oak, of rapid growth.

MAGNOLIA

Some varieties are not on the market, but the varieties we offer below are the best that can be had at the present time. Transplant in Spring only.

SWEET or WHITE BAY (*M. Clauca*)—Slender tree or large shrub. \$3.00 each.

UMBRELLA TREE (*Magnolia Tripetela*)—Grows to 40 feet, \$2.50.

SWEET GUM

GUM, SWEET (*Liquidambar Styraciflua*)—Another native tree not appreciated. It is not of rapid growth nor especially easy to transplant, but the glossy foliage in summer, the brilliant color in the fall and the unusual appearance in the winter of the young branches with their corky bark are considerations that make it especially valuable. Prices, 3 to 4 ft., \$1.00; 4 to 5 ft., \$1.25; 5 to 6 ft., \$1.60.

WILLOW—SALIX

GOLDEN BARK, VITELLINA

AUREA—A most graceful tree of large size. Its long, wavy branches of highly colored gold bark are very attractive. Very conspicuous during the winter months. Showy at any time. Price, 6 to 8 feet, \$1.25 each. For Weeping Willow See Page 10.

Pin Oak

tion of yellow with green, gray green, white, and sometimes purplish undertones, each leaf shows different combinations of these colors and the whole plant growing between ordinary green leaved plants immediately attracts the eye by its bright and luminous appearance. Our stock is still limited, and it will be necessary for you to place your orders early if you wish to secure this highly desirable novelty. Grows 6 to 8 feet high. Price: 4 to 5 ft., \$1.50 each; 2 for \$2.50.

Lombardy Poplar

TULIP TREE

LIRIODENDRON

YELLOW WOOD (*Tulipifera*)—Tall, handsome, hardy, ornamental, pyramidal habit, rapid growth. Has clean foliage, light bluish green; rarely attacked by insects, fragrant yellow and orange flowers in June. 6 to 8 feet, \$1.50 each.

Wisconsin Weeping Willow
(See page 10)

Tulip Tree

NUT TREES

Almost every farm contains land that should be planted to nut trees adapted to the soil. Nuts in many cases pay better than farm crops or fruits, while most kinds are making a growth of valuable timber that will of itself pay a large percent on the investment.

PECAN

Pecan growing is becoming a favorite industry in the Southern and Western States and is quite profitable. The trees are long lived, quite hardy and productive. A species of hickory which may well rank first among our native nuts. They are large, thin shelled, full kernels and of rich flavor. We offer grafted varieties only. 2 to 3 feet, 75c each.

ENGLISH WALNUT

A fine ornamental tree that grows well in the climate of the Middle States and bears freely. Large profits are realized from the orchards of California and the South and still large quantities of these nuts are imported. The nut is about the size of a black walnut; it has a thin shell and contains a large kernel which has a very delicate flavor. 2 to 3 feet, \$1.00 each.

WHITE WALNUT OR BUTTERNUT

This tree is chiefly esteemed for its abundant crops of fruit, which abounds in oil, and is sweet and rich. The form of the nut is oblong, oval, and narrowed to a point at the extremity. The husk is covered with a sticky gum, and the surface of the nut is much rougher than any other of the walnuts. The tree is considered valuable as a park tree. 2 to 3 feet, 40c; 3 to 4 feet, 75c.

BLACK WALNUT

This is one of the largest, grandest, and most massive of our forest trees. It is a favorite of the landscape gardener. A very good tree for public planting on account of its rapid growth and handsome foliage. The timber of this tree is very valuable. The nuts are large, round, covered with a thick husk, and the kernel has a fine flavor, much liked by many people. 3 to 4 feet, 75c each.

JAPAN WALNUT

Large, spreading top of this tree makes it very ornamental. Trees very hardy, having stood a temperature of twenty degrees below zero without injury, begins to bear when three years old. The nuts are larger than the common hickory nut and borne in clusters of from ten to twenty. The shells are moderately thick, the kernels are sweet. Should be extensively planted. 2 to 3 feet, 75c each.

NEW AND RARE PLANTS
ON PAGES 3, 4, 5 and 6.

WEeping TREES

The weeping trees are very interesting as well as beautiful and effective when rightly placed upon the lawn, or in the park. The charm of these trees is not their stateliness and grandeur so much as it is the odd and fantastic shapes which they so often assume. The best and most satisfactory are offered below.

WEIR'S CUT LEAF WEeping MAPLE

This variety of the maple has very pendulous branches and the leaves are deeply cleft, giving them almost a fern-like appearance. 6 to 8 feet, \$2.00.

WEeping MULBERRY

(Alba, var. Tartarica Pendula)—We recommend this as one of the thriftiest, hardiest and most beautiful of the weeping trees, with slender, willowy branches that sweep the ground, forming a beautiful tent of green. 2 year heads, \$3.50 each.

WEeping WILLOW

GOLDEN WEeping (Elegantissima)—A strong and the most vigorous grower of all the weeping willows. Used for planting in low places or on the banks of streams, springs, lakes or ponds, making a very beautiful effect. 6 to 8 feet, \$1.00 each.

WISCONSIN WEeping (Dolorosa)—A weeping tree of rarely more than 40 feet in height. The branches are long, slender and pendulous. Trees are quite hardy and will stand planting in the northern states. 6 to 8 feet, \$1.00 each.

BABYLONIAN—A beautiful weeping tree with long drooping branches, sometimes 30 ft. long. Sways gently with the wind and is most desirable, price 6 to 8 ft. \$1.00; 8 to 10 ft. \$1.60 each.

WEeping CUT LEAF BIRCH

Birches not only form an interesting class of trees, but they are also beautiful and ornamental. They are especially desirable for park and other ornamental planting. The bark usually separates into thin, papery leaves. The foliage is rarely attacked by insects. Their graceful habit, slender and often pendulous branches, and their picturesque white trunks, make them conspicuous marks on any landscape. Price 6 to 8 ft., \$3.00 each.

CATALPA BUNGEII

UMBRELLA TREE—Just the tree to be used for formal effects. Propagated on a stem of the Catalpa Speciosa. It makes a very unique ornamental tree. Has a broad, dome-shaped head at the top of a long, straight stem. When the tree attains its full growth, the top is often 15 feet in diameter and not over 3 to 4 feet tall on top of a strong stem from 5 to 7 feet in height. An exceptionally hardy variety. 5 to 7 feet, 1 year heads, \$1.50 each; 2 year heads, \$2.60.

Catalpa Bungei

HARDY PLANTS ESPECIALLY DESIRABLE FOR CEMETERY PLANTING

For the past few years we have had a great many inquiries from our customers asking about suitable plants for Cemetery planting.

We feel that we would like to encourage this class of planting as much as possible, because we believe that a suitable shrub or plant will express more sentiment than the costliest of stone. We know that ordinary monuments seem rather cold and uninviting unless they are relieved with the soft colors of nature.

In order to assist those who are interested, we are devoting an entire page to various classes of plants most suitable for Cemetery planting, and want to assure our customers that we will take special interest in orders from this department.

REGALS LILY

One of the most beautiful of all known lilies. It is a new introduction from Northern China, and once it becomes generally known it will be used exclusively as an Easter lily.

It is very hardy and will bloom out doors in June or early July. Mature bulbs produce from 5 to 15 flowers on a single stem which retain their freshness over quite a long period. Price, 3 year old bulbs, 60c each; 2 for \$1.00; 12 for \$5.50.

NEW ROSE CLAUDIUS PERNET

This rose is a recent introduction and has been awarded 3 medals in Europe.

It is the only perfectly hardy ever-blooming yellow rose in existence. The buds are long and pointed and the flowers when they open are a very bright yellow with a dark center. Blooms all summer. Price, strong plants, \$1.50 each; 3 for 4.00.

SPIREA VAN HOUTTEI

Spirea Van Houtteii is especially desirable for cemetery planting. It is very hardy and easily grown, has nice clean foliage all season and is not attacked by any disease. When in bloom, the white drooping flowers are very attractive, and appropriate for cemeteries. Hardy everywhere in United States.

Our Price for extra fine specimen plant, 3 to 4 feet high, 50c each, 3 for \$1.40.

FLOWERING ALMOND

A very hardy, dwarf shrub, covered with small, double flowers about 1/2 inch in diameter in the early Spring. It is very attractive and dainty. Price, 2 to 3 feet, 75c each; 3 for \$2.00.

EUONYMUS RADICANS

A hardy evergreen vine, or will form a low spreading shrub where it can not climb. Valuable for covering graves, especially desirable for shady locations. Price 2 yr old plants, 60c each; 3 for \$1.50.

Philadelphus Virginal

PHILADELPHUS VIRGINAL

One of the most beautiful shrubs of recent introduction. It blooms very freely, the extremely white flowers produce on wood of the same year's growth. It grows about 3 1/2 to 4 feet high, and plants on our own ground last year produced flowers all Summer. Price, 2 to 3 ft. plants, \$1.00 each; 3 for \$2.75.

FRENCH PUSSY WILLOW (SALIX CAPRAE)

Not the wild pussy willow but a cultivated variety that has made a sensation wherever it has been shown. Branches of this variety have been selling at retail during the winter months in cities at from 1.00 to \$2.00 per dozen.

You Can Grow Them on Your Own Lawn. Enjoy these dainty silvery flowers every winter. A beautiful round shrub in summer. Wherever you have room for a Lilac or Snowball, you have room for a Pussy Willow. Use them for tall screens or backgrounds.

Plant one or more of them this fall. Cut the ends of the branches in January or February. Place them indoors in a vase of water. Watch them unfold their large catkins of silvery pink, from 1 to 2 inches long. They will repay you many times their cost in pleasure. PRICES—60c each, 3 for \$1.25, 6 for \$2.00. Size of plants 3 to 4 feet.

BIOTA NANA AUREA

This new evergreen is commonly known as the Golden Chinese Arborvitae. It is a beautiful, compact, little evergreen of a dwarf nature. It has a clear yellow color in the spring which gradually gives way to yellow-green during the winter months. Its size, color, compact habit of growth and foliage make it especially desirable for Cemetery planting. Price, 15-18 inch plants, \$3.25.

French Pussy Willow

EVERGREENS CREEPERS FOR COVERING GRAVES

PACHYSANDRA JAPANESE SPURGE

This is a new evergreen trailing plant 6 to 18 inches high and forms broad mats of bright, shiny, green foliage. A good ground cover which will grow in all shady locations, and the only plant that will thrive under pine trees. Price, strong field grown plants, 20c each; \$2.00 per dozen.

(PERIWINKLE OR TRAILING MYRTLE)

MINOR—A trailing, evergreen plant, used extensively for carpeting the ground under shrubs or trees or on graves, where it is too shady for grass or other plants to thrive. Strong, nursery-grown clumps. Price: 10c each, 6 for 50c, 100 for \$5.00.

NOTE—100 plants will cover two graves.

CREEPING PHLOX

This is also called Moss Phlox or Mountain Pink. It has a beautiful evergreen foliage and the plants are literally covered with beautiful bright pink flowers early in the spring. The foliage is very attractive and the plants will stand a lot of abuse when once established. They do not get over three inches high and will grow very dense. Price, 15c each; \$1.50 dozen; \$10.00 per 100.

ENGLISH IVY

A hardy evergreen climbing vine with dark green leaves. It is a true evergreen and retains its bright, green leaves all winter and much used for cemetery work. Price, 50c each; \$5.00 per dozen.

LOW PRICED EVERGREENS

Plant Evergreens for all year round beauty. Use them for foundation plantings, windbreaks, or in the open as specimen ornamental trees.

Our Evergreens are properly grown, dug with a ball of earth and burlapped, and as they have been several times transplanted, they have a perfect root system, thereby assuring success to the planter.

ARBOR VITAE—THUYA

AMERICAN (*Occidentalis*)—The foliage is of a light green color. This is a very good tree for grouping, for tubs and vases, and for formal uses they are unsurpassed. They are very quick growers and may be trimmed to any desired height. Fine for hedges. 18 to 24 inches, \$1.00 each; 2 to 3 feet, \$2.00, each.

CHINESE (*Biota Orientalis*)—A pyramidal tree finally attaining a height of 25 feet, very compact form. Foliage is bright green. 18 to 24 inches, \$1.50; 2 to 3 feet, \$2.00.

PYRAMIDAL (Var. *Pyramidalis*)—Forms a tall, slender column of densely branched, dark green foliage. Very graceful tree, having a number of uses. 2 to 3 feet, \$2.50; 3 to 4 feet, \$4.00.

GLOBE (Var. *Globosa*)—A dense, dark green form of the arbor vitae, growing naturally in globe form. Of dwarf habit. 12 to 15 in. \$1.50.

TOM THUMB—A low growing arbor vitae good for edging evergreen plantings. Foliage similar to *Retinospora*. Very fine. Price, 12 to 15 in, \$1.00 each.

Pyramidal Arbor Vitae

BOXWOOD

The most popular Evergreen for planting in tubs or boxes. These beautiful Evergreens, with their tiny leaves and compact habit of growth, are well adapted to formal planting and we are offering them at a low price for the first time in years. Our stock is American grown, bushy, of pyramidal form, and are matched to make pairs on all orders of two plants.

Prices of Boxwood	Each	Per Pair
12 to 15 inches	\$1.50	\$2.75
15 to 18 inches	2.00	3.75
18 to 21 inches	2.50	4.75
21 to 24 inches	3.00	5.75

Globe Arbor Vitae

Boxwood

FIR—ABIES

BALSAM (*Balsamea*)—An ornamental Evergreen that is very hardy. The fragrant leaves are dark green above and pale beneath. For ornamental purposes it is unexcelled. Grows rather rapidly when young. Requires good drainage. 2 to 3 feet, \$2.50.

CONCOLOR (*White Fir*)—A picturesque Colorado species; long, leathery leaves, with glaucous tinge when young, becoming pale green with age. Branches arranged in horizontal whorls. Price, 2 to 3 ft., \$5.00.

SPECIAL OFFER

Many of our customers would like to plant Evergreens but do not know how to arrange them. We are making a special offer of the arrangement shown in plat to left, which is a good corner planting or for side of steps.

EVERGREENS—CONTINUED

SPRUCE—PICEA

COLORADO BLUE (Pungens)—A handsome and very hardy tree of symmetrical habit, with light, sometimes almost silvery white foliage. Good in landscape work. 18 to 24 in., \$9.00.

COMPACT (Var. Excelsa Compacta)—A dwarf, compact form; originated in the Arnold Arboretum. Light green foliage. 12 to 18 in., \$3.00 each.

NORWAY (Excelsa)—This tree is extensively planted in many of the states. Is one of the best conifers to plant for shelter and windbreaks. 18 to 24 inches, \$1.25; 2 to 3 ft., \$2.00.

ORIENTAL (Orientalis)—An exceedingly graceful spruce with dark, glossy foliage. It is of slow growth, therefore valuable for small gardens. It holds its lower limbs for many years. 18 to 24 inches, \$2.90.

WHITE (Alba)—A very ornamental tree similar to the Norway Spruce. One of the best for cold climates. Is an upright, compact grower, and retains its branches to the ground. It can be distinguished by its grayish blue color and quick growth.

It matures while comparatively young and lives to a good old age and is altogether very desirable. 12 to 18 inch \$1.50. 18 to 24 inches, \$2.00.

DOUGLAS SPRUCE—PSEUDOTSUGA

FALSE TSUGA (Taxifolia)—This is the tallest and one of the important forest trees of western North America. It would be difficult to overrate its beauty. It probably grows faster than any other conifer. Very desirable for grouping. 2 to 3 feet, \$4.00.

HEMLOCK SPRUCE—TSUGA

HEMLOCK SPRUCE (Canadensis)—This is one of the most graceful and handsome of the evergreens and is especially valuable for hedgings of evergreens, windbreaks and for specimen planting. The lumber of this tree is much used for frames of buildings. 2 to 3 ft., \$4.00.

JUNIPERS—JUNIPERUS

PFITZERI (Chinesis var. Pfitzeriana)—A tree forming a broad pyramid with horizontally spreading branches. 18 to 24 inches, \$4.00 each.

IRISH JUNIPER (Communis, var. Hibernica)—A narrow, columnar form, with upright branches, deep bluish green tips of branches erect. 2 to 3 feet, \$3.00 each.

RED CEDAR (Virginiana)—This evergreen attains a height of 100 feet, with conical head and spreading or upright branches. Leaves are spiny pointed. 2 to 3 ft., \$3.00.

SAVIN (Sabina)—A low, wide-spreading, thickly branched evergreen shrub rarely 5 ft. high. 15 to 18 ins. \$2.50.

BLUE JUNIPER (Juniperus Virginiana Glauca)—A beautiful, graceful evergreen of a distinctly blue color. Very hardy. Will do well in most any location. One of the very best evergreens. Price, 2 to 3 ft., \$4.00 each.

YEW—TAXUS

JAPANESE (Cuspidata)—A most desirable dark green foliage plant, suited for single specimens or for grouping. 18 to 24 inches, \$3.00

Norway Spruce

Colorado Blue Spruce

Hemlock Spruce

LOW PRICED EVERGREENS—CONTINUED

Mugho Pine

AUSTRIAN PINE—This species is very popular for grouping or as specimens. A very tall, massive tree, with heavy, plumed, spreading branches and rather stiff, dark green needles. Most of these species make a vigorous growth when young and when older are very picturesque. Should be planted when young from nursery row. Prices 18 to 24 inch, \$1.75; 2 to 3 feet, \$2.50.

SCOTCH PINE—This grows to be a large tree, seventy to one hundred and twenty feet in height, with spreading, somewhat pendulous branches pyramidal when young, with broad and round top, often picturesque head in old age. Quite hardy. 2 to 3 ft., \$2.50 each; 18 to 25 inch, \$1.75.

NOTE—Austrian and Scotch Pines cannot be shipped west of the Mississippi River.

MUGHO PINE (Dwarf Mountain Pine)—This Pine is very valuable in habit, with dark brown branches, bright green leaves, stout and acutish. The cones are ovate, a light gray in color, surrounded by a blackish ring. The tree is broader than it is high, forming a dark, dome-shaped bush. Very effective for rocky places. 8 to 12 inch, \$1.50 each; 12 to 15 inch, \$2.00.

Juniper Savin

**WE HELP PAY EXPRESS CHARGES
SEE ORDER BLANK**

Price, 60c each, 3 for \$1.50.

EUONYMOUS JAPONICA—Broad evergreen ornamental tree or shrub. Not hardy north of the Ohio River. Price, 18 to 24 inch., \$1.00 each.

MAHONIA AQUIFOLIA (Holly Leaved Barberry) (Oregon Grape)—A hardy evergreen shrub having holly-like leaves. Can be used in evergreen and shrubbery planting and will do well in partial shade. Price 15 to 18 inch, \$1.00 each; 3 for \$2.50.

ENGLISH IVY—A hardy evergreen climbing vine with dark green leaves. It is a true evergreen and retains its bright green leaves all winter and much used for cemetery work. Price, 50c each; \$5.00 per dozen.

ILEX OPACA (American Holly)—Evergreen ornamental tree which produces red berries in the fall. Hardy as far north as Central Ohio. The kind of holly we get for the Christmas Holidays. 3 to 4 feet. \$2.50 each.

PACHYSANDRA (Japanese Spurge)—This is a new evergreen trailing plant 6 to 18 inches high and forms broad mats of bright, shiny green foliage. A good ground cover which will grow in all shady locations, and the only plant that will thrive under pine trees. Price, strong field grown plants, 20c each; \$2.00 per dozen.

EVERGREEN SHRUBS AND VINES

EUONYMOUS RADICANS — An evergreen climbing vine, or can be grown as low shrub.

Makes a beautiful evergreen covering for a foundation wall, back of a shrubbery planting. Grows in either sun or shade. Price 50c each, 3 for \$1.25.

EUONYMOUS VEGETUS (Evergreen Bitter Sweet)

— Bears beautiful berries like the common Bitter Sweet. Holds its large glossy green leaves throughout the year. Hardy, dense shrub.

English Ivy

Mahonia Aquifolia

Rock Gardens And Walls Add Interest To Your Grounds

LANDSCAPE YOUR GROUNDS

IT WILL
GIVE YOU
BOTH
PLEASURE
AND
PROFIT

NOW IS THE TIME TO AVAIL YOURSELF OF OUR LANDSCAPE SERVICE

Your love of the out-of-doors, your appreciation of the things that grow in the earth to gladden the eyes of all beholders, these teach you the importance of timing your planting efforts to conform to the laws of Nature. Do not wait until the sap is flowing through root and stem and branch—do not delay until the buds are breaking their winter shells and opening their faces to the spring sun. Plan and plant now, during the season of germination, now while the vital processes are at rest.

Send us a sketch of your grounds today, together with a statement of your planting problems. Or, if your place is large and your landscape scheme is complex, write us about it and let us help you work out the happy solution.

Whatever may be your particular landscape problem, we will show you the solution; whatever the unique possibilities of your grounds, great or small, we will discover them and so develop them as to realize for you the fullest measure of enjoyment.

There is no charge and no obligation for preliminary advice. All we ask is an opportunity to lay our service ideas before you in definite and specific terms.

HARDY SHRUBS

A walk with nature in her undisturbed retreats will soon reveal to her student and lover that she has been most lavish with certain species of shrubs in the various localities. These varieties are frequently good to be used when beautifying the home surroundings, but aside from these, many other varieties are always needed to add variety and many times to aid in making up the succession of bloom. In many ways nature may be followed. It has been noted among other things that isolated specimens are seldom if ever to be found. Here we learn to plant in masses or groups for best results. Do not delay another season in planting at least some shrubs, for they add materially to the beauty and attractiveness of any home or public place. Shrubs provide material of a permanent character for the adornment of property at less cost and more effectively than anything else.

COLLECTION OFFER

To the left is shown a very effective planting of Flowering Shrubs. Will cover a space around a corner of about 15 ft. This planting is listed especially low. Illustration shows you how to plant them.

No. 1—3 Japanese Barberry 12-18 inch.

No. 2—2 Spirea A. Waterer 12-18 inch.

No. 3—2 Bush Honeysuckle 2-3 ft.

No. 4—3 Spirea Van Houttei, 18-24 inch.

Priced at \$2.30 for the collection.

Althea Bicolor

FLOWERING ALMOND

PRUNUS

DOUBLE FLOWERING ALMOND (*Amygdalus*, var. *Plena*)—Pink and white varieties. Hardy as far north as Ontario. Flowers very double and appear in early spring. 2 to 3 feet, 75c each; 2 for \$1.40.

PURPLE LEAVED PLUM (*Cerasifera*, var. *Pissardi*)—One of the best of all purple-leaved trees, holding much of its color in the American summers. It seems to be hardy wherever the common plum is grown. 3 to 4 ft., \$1.00 each.

ALTHEA

ROSE OF SHARON

HIBISCUS SYRIACUS — One of the commonest of the ornamental shrubs, and hardy as far north as Ontario. The shrub is valuable for specimen planting, and its bright green leaves and great abundance of variously colored flowers make it very effective when planted as a hedge. The color ranges from blue-purple to violet-red, flesh color and white. There are also double forms. The plants we offer are strong, field grown, two and three year.

Flowering Almond

Page 25 for prices on hedge size plants. Price 2 to 3 ft., 35c each, 3 for \$1.00.

JEANNE D'ARC—Double white.

RUBIS—Single red.

TOTUS ALBUS—Single white.

AMPLISSIMA—Purple. Shrub form.

BOULE DE FEU—Double red. Shrub form.

MONSTROUS—Double red.

ARDENS—Light pink.

BICOLOR—White and red.

PAEONYFLORA—Rose color.

AMERICAN BANNER—Mauve.

ARALIA

AEALIA (*Pentaphyllum*)—Five leaved Aralia, 6-8 ft. Yellow. June. An unusually hardy shrub, thriving in very adverse soil and city conditions. Will grow under the shade of trees where all else fails. Flowers are inconspicuous but the foliage is very attractive. The canes are prickly and comparatively upright in their habit of growth. Prices 2 to 3 ft., 50c each; 3 for \$1.25.

SPINOSA (*Hercules Club*, *Angelica Tree*, *Devil's Walking Stick*)—A shrub, sometimes growing to 15 feet in height. Stout, prickly stems, large leaves, enormous clusters of flowers. 50c each; 3 for \$1.40.

ABELIA GRANDIFLORA

ABELIA—2-4 ft. Pink and White. July to Sept. This is a comparatively new shrub. It is one of the most attractive of the newer plants. There is hardly a plant that blooms over quite as long a period. The leaves are especially attractive, being very glossy dark green. It is classed as a semi-broad-leaved evergreen and in mild winters will hold its foliage throughout that season. Price 2 yr., 75c each; 2 for \$1.25.

BASTARD INDIGO

An interesting ornamental shrub of spreading habit with fine, feathery foliage, remarkable for the unusual color of its dark violet-purplish flowers. 35c each; 3 for \$1.00.

Abelia Grandiflora

HARDY SHRUBS—CONTINUED

DOGWOOD

CORNUS

CORNELIA C HERRY (Mascula) — Ornamental shrub or small tree of dense growth, glossy leaves; attractive in early spring with its yellow flowers. 2 to 3 ft., \$1.00 each.

ELEGANTISSIMA — This is a beautiful plant. The leaves marked with white. 18 to 24 in., 50c; 2 to 3 feet, 75c each; 2 for \$1.40.

RED TWIGGED (Sanguinea) — Grows 10 to 12 feet high, purple or dark blood-red branches. Flowers greenish-white. Fruit is black. 18 to 24 inches, 30c; 2 to 3 feet, 40c each.

WHITE (Florida) — Handsome foliage, often assuming a brilliant fall coloring; large, white, snowy flowers appearing in May. 18 to 24 in., 35c; 2 to 3 ft., 70c; 3 to 4 feet, \$1.00; 3 for \$2.50

Deutzia Gracilis

BARBERRY

BERBERRIS

These beautiful shrubs are very valuable for planting in the shrubbery border or for hedges. They readily adapt themselves to almost any location.

JAPANESE (Thunbergii) — Of all the barberries in cultivation this one is probably the best known, the most planted, and the most effective. It is one of the valuable introductions we have received from Japan and is especially to be desired because of its low, dense, horizontal growth, the bright fall coloring leaves, and the brilliant red berries that remain fresh and attractive until the following spring. It is quite hardy and will thrive equally well in shade or in sunny locations. Especially valuable for planting along walks and drives and for massing in the border. 12 to 18 inches for hedges \$15.00 per 100; 12 to 18 inches bushy plants 25c each; 3 for 65c; 18 to 24 inches, 40c each; 3 for \$1.10.

NOTE—For the New Red Leaved Barberry. See Front cover.

BLUE SPIREA

(CAEYOPTERIS)

MASTACANTHUS—Ornamental, woody plants growing their lavender-blue flowers profusely in late summer and autumn. Not altogether hardy, as the tops frequently winter kill almost to the ground, but will throw up numerous shoots that will flower the same season. Not strictly a spiraea, 50c each; 3 for \$1.25.

BUTTERFLY BUSH

BUDDLEIA SUMMER LILAC

(Varibilis Magnifica) — This shrub of comparative recent introduction has grown into favor almost immediately. It is a semi-herbaceous plant, by which we mean in some latitudes it will die down to the ground and while perfectly hardy, we recommend covering the roots with manure, leaves or other material as winter approaches, as it will help to produce a heavy growth the next season. It is very hardy; blooms the first season, usually from June until frost; the blossoms are borne on long, graceful stems, which terminate in tapering panicles of lilac-colored flowers that are of miniature size, the flower head is frequently ten inches long. 35c each; 3 for 90c.

Summer Lilac

NOTE—For a new Butterfly Bush See Page 3

DEUTZIA

An elegant species of strong, erect-growing shrubs. Especially prized for the beautiful clusters of blossoms in May.

PRIDE OF ROCHESTER—Showy, early, large-flowering sort; blossoms in May before others. Grows 6 to 8 feet high. White flowers, large and double. One of the best of the Deutzias. 2 to 3 feet, 40c each; 3 for \$1.00.

LEMOINEI—Spreading shrub to three feet in height. Its pure white flowers appear in broad panicles. A very desirable shrub, more vigorous and with more showy flowers than some of the other forms. Excellent for forcing. Very hardy. 18 to 24 in., 50c; 3 for \$1.40.

GRACILIS—A handsome, dwarf and bushy little shrub with slender, often arching branches. A neat shrub that blooms in May, clothing its branches in pure white flowers. Valuable for shrubberies or for forcing. 12 to 18 inches, 50c; 3 for \$1.50.

Cornus Sanguinea

CYDONIA FIRE BUSH

JAPAN (Japonica) — Common garden form, growing from 3 to 6 feet with spreading, spiny branches. The scarlet-red flowers appear before the leaves and are followed by globular fruits from one and one-half to two inches high. 18 to 24 in., 50c each; 3 for \$1.40.

Cydonia, or Fire Bush

FLOWERING LOCUST

ACACIA

HISPIDA—This shrub is valued for its elegant clusters of rose colored flowers, which expand toward the last of May and continues for some time. The branches resemble the Moss Rose. Beautiful for planting in masses. 18 to 24 inches, 50c each; 3 for \$1.40.

CREPE MYRTLE

LAGERSTROEMIA—The most gorgeous of all blooming shrubs for the South. Blooms throughout the summer, withstands drought wonderfully. It is very effective for hedge and is at its best when pruned every winter and not allowed to grow in tree form. A strong grower and will grow 15 to 20 ft. high, making immense heads of crepe-like pink flowers. Not hardy in the northern states. Price, strong plants, each, 35c; 3 for \$1.00.

Deutzia, Pride of Rochester

SHRUBS—CONTINUED

ELDER—SAMBUCUS

AMERICAN (*Canadensis*)—A valuable addition to the shrubby family. It grows from five to twelve feet in height. Its flowers are white in flat cymes, the fruit is black and ripens in August. 2 to 3 feet, 60c each; 3 for \$1.70.

GOLDEN (*Var. Aurea*)—A variety of the American with foliage of a beautiful golden color. 2 to 3 feet, 50c each; 3 for \$1.40.

GOLDEN BELL—FORSYTHIA

FORTUNEII (*Var. Fortunei*)—Grows with upright or arching branches. 2 to 3 ft., 30c each; 3 to 4 ft., 40c each; 3 for \$1.10.

WEeping (*Suspensa*)—Highly ornamental, free flowering shrub, growing to 5 feet; the branches often drooping on the ground and taking root. They grow in almost any garden soil and are hardy north. The golden yellow flowers appear in early spring. Excellent for margins or groups. 2 to 3 ft., 35c each; 3 to 4 ft., 40c each; 3 for \$1.10.

HYPERICUM ST. JOHN'S WORT

Shrubs and herbs, with mostly yellow flowers. The form is compact and rounded, with somewhat persistent leaves.

H. MOSERIANUM—A novelty of decided merit on account of its large, glistening golden yellow flowers, produced freely from mid-summer until hard frost. It is quite dwarf in habit. 12 to 18 in., 50c.

H. PROLIFICUM—Shrubby St. John's Wort. This excellent shrub blooms profusely from the middle of summer until autumn, and its bright yellow flowers are especially attractive at this season. It is sub-evergreen in character. 12 to 18 inches, 50c.

Golden Elder

CEPHALANTHUS

BUTTON BUSH—(*Cephalanthus occidentalis*)—Medium. Forms a dense, rounded bush, with large fragrant greenish-white ball-shaped flowers. Particularly at home in moist locations and partial shade. 1½ to 2 feet, 45c each; 2 to 3 feet, 60c each.

KERRIA OR GLOBE FLOWER

JAPANESE ROSE (*Japonica*)—One of the first shrubs brought from Japan. It grows from four to eight feet high and as broad as high. Very attractive throughout the year; in winter the light green branches, in early June when the yellow flowers appear in great abundance; and again in autumn when the leaves have changed to a clear yellow. Not quite hardy in the northern states. 2 to 3 feet, 50c; 3 for \$1.40.

Golden Bell Forsythia

RHODOTYPHUS KERROIDES

Sometimes called the White Kerria. A very ornamental, deciduous much-branched shrub, usually from three to seven feet, handsome and distinct, and is hardy as far north as Massachusetts. Has bright green foliage. Made very conspicuous by its white flowers in May or June and black fruits in the fall. 2 to 3 feet, 50c each; 3 for \$1.40.

Kerria, Japonica

EXOCHORDA

PEARL BUSH (*E. Grandiflora*)—8 to 10 ft. White, April. This is a plant that is not as well known as it should be. It is one of the most pleasing of the early Spring flowers, being a mass of blossom during April. The leaves are light green, of unusual construction and in mass planting should be used extensively. Prune severely at planting time for best results. Prices—3 to 4 ft., 60c each; 5 for \$2.50, 2 to 3 feet, 50c each; 5 for \$2.00.

HONEYSUCKLE

LONICERA

FRAGRANT BUSH (*Fragrantissima*)—Not quite hardy north of Detroit. It has handsome half evergreen foliage and blooms very early. Sweet-scented though the flowers are not very showy. 18 to 24 inches, 30c; 2 to 3 ft., 40c each; 3 for \$1.00.

MORROWI—A very decorative shrub that reaches six feet in height. The beautiful, pure white flowers appear in May or June and are followed by red fruits, which remain until late autumn. 18 to 24 inches, 30c; 2 to 3 ft., 40c; 3 to 4 ft., 50c each; 3 for \$1.40.

TARTARIAN (*Tartarica*)—This is one of the old-time favorite shrubs. It attains about ten feet in height and is extremely easy to cultivate. The upper lip is deeply divided and spreading. 18 to 24 in., 30c; 2 to 3 ft., 40c; 3 to 4 ft., 50c each; 3 for \$1.40.

Fragrant Bush Honeysuckle

A PAGE OF BEAUTIFUL SPIREAS

Spirea Van Houttei

Spirea Sorbifolia

Spirea, Anthony Waterer

SPIREA, ANTHONY WATERER (F)—2 ft. Bright pink, June and July. A compact low-growing shrub with dense foliage usually deep green with occasional variegated leaves of pink and white on young growth. Flowers are borne in full flat clusters on erect stems. If these are cut away when they fade the shrub will usually bloom intermittently during the summer. Very valuable for edging in front of shrubbery or sometimes used as a dwarf hedge. Prices 12 to 18 in., 60c; 3 for \$1.40.

SPIREA ARGUTA—Garland Spirea. The unusual mass of tiny white flowers crowd the pendant branches making it one of the showiest of spring shrubs. Foliage bright green, leaves very narrow and attractive. Prices—2-3 ft., 40c each; 3 for \$1.10.

SPIREA BILLARDI—An erect-growing shrub with dense spikes of rose-pink flowers in July and August and again in the fall. Grows 4 to 6 feet high. Does well in moist places. Prices of strong bushes, 2 to 3 ft. high, 40c each, 3 for \$1.10.

SPIREA CALLOSA ROSEA—A free-blooming variety, producing large panicles of deep, rosy blossoms nearly all summer. Grows 4 to 6 feet high. Prices of strong bushes, 2 to 3 ft. high, 40c each, 3 for \$1.00.

GOLDEN SPIREA—A rapid-growing variety with masses of snowy white flowers in June. Young foliage bright yellow, changing to golden brown in autumn. Very desirable for group planting. Grows 8 to 10 feet high. Prices of strong bushes, 2 to 3 ft. high, 50c each; 3 for \$1.25.

SPIREA PRUNIFOLIA (Plum-leaved Spirea). (F). 5-6 ft. White. April-May. This is an old-fashioned variety, flowers borne close to the slender erect branches in the spring before foliage appears. The individual flowers resemble miniature roses and usually borne in great profusion. The foliage is shiny dark green and in the fall turns bright red. Prices 3-4 ft., 50c each; 3 for \$1.25.

SPIREA REEVESIANA, Reeves Spirea. (F)—4-5 ft. White. May. This is one of the best of the Spirea group. White flowers borne along the stem just as the foliage appears makes a most attractive bush wherever used. The foliage appears early and remains exceptionally late in the fall. In habit it is very graceful and can be used in foundations where plants of this height are desired. Prices, 2 to 3 ft., 40c each; 3 for \$1.10.

SPIREA SORBIFOLIA—A fern leaved spirea, producing large, white plume like flowers in great abundance. A beautiful shrub both in foliage and in bloom. Can be used in group plantings or as single specimens. Price 2 to 3 ft., 65c each; 3 for \$1.75.

SPIREA THUNBERGI (Snow Garland). (F)—2½ to 3½ ft. White. April. The extra early flowering species is the pride of the Southland. It is spreading in growth with arching slender branches that are a perfect mass of minute flowers followed with exceptionally delicate green foliage. For edging purposes it has few equals and we recommend it highly. 18 to 24 in., 65c each; 3 for \$1.50.

SPIREA VAN HOUTTEI (Bridal Bower or Bridal Wreath). (F)—4-6 ft. White. May. This is the most useful of the hardy shrubs. It has grown so popular that we sell more of it than any other variety we grow. The flowers are in flat clusters usually an inch

or more across produced on spreading, pendulous branches often drooping to the ground. In full bloom they are a mass of white and never fail to attract attention. The foliage is an attractive green which it retains to attract attention. The foliage is an attractive green which it retains late in the year. This variety can be used in any location for hedging, grouping and mass effect. There is nothing superior in the catalog. When in doubt what to use, plant Spirea Van Houttei. Prices 18 to 24 in., 25c; 2 to 3 ft., 40c; 3 to 4 ft., 50c; 3 for \$1.40.

Spirea Billardi

HARDY SHRUBS—CONTINUED

Common Snowball

spreading branches, usually fragrant. Rapid grower and most hardy. 18 to 24 in., 30c; 2 to 3 ft., 40c each; 3 for \$1.10.

LEMOINEII—Graceful shrub with slender, arching branches. The blossoms appear in three to seven inch short racemes, very sweet scented. 18 to 24 in., 40c; 3 feet, 50c each.

CORONARIUS (Mock Orange)—This is not quite as showy as some of the other species and of somewhat stiff habit, but deliciously fragrant. 18 to 24 in., 30c; 2 to 3 ft., 40c each; 3 for \$1.10.

VAR. AUREA—Similar to the above variety except that the foliage is a beautiful golden color. 12 to 18 ins., 50c; 18 to 24 ins., 60c each.

BOUQUET BLANC—A real white bouquet of immense size. We can only urge you to include it with your order; we know you will not be disappointed, because it has no equal anywhere. The time, experience and patience to produce such wonderful plants as these can only be realized by those who have worked with them. 18 to 24 in., 55c; 2 to 3 ft., 75c each; 2 for \$1.40.

PHILADELPHUS VIRGINAL BLOOMS THRUOUT THE SEASON

This is a new and wonderful addition to the Mock Orange family but is far beyond anything in this line that has been brought out in the past. It is without question one of the most beautiful shrubs grown and once it becomes known will be planted on every home ground. Because of its being new the supply of this variety is scarce and high priced, but we are going to offer these at the following low prices as long as our supply of this shrub lasts. Price, 18 to 24 in. 60c each; 10 for \$5.00. Large, 2 to 3 ft. plants, \$1.00 each; 10 for \$9.00.

MOCK ORANGE

PHILADELPHUS, SYRINGA GRANDIFLORA

Large, flowering shrub growing to about eight feet, with upright and vigorous, flowers slightly

most hardy. 18 to 24 in., 30c; 2 to

Philadelphus Virginal

Philadelphus Grandiflora

SNOWBALL

VIBURNUM

ARROW WOOD (Dentatum)—A gorgeous upright, native shrub, thriving best in moist soil. It is especially hardy, doing well from New Brunswick to Minnesota. It blooms in May or June, followed by black fruit. 2 to 3 feet, 50c each; 3 for \$1.40.

COMMON (Var. Sterilis)—This is the well known, common snowball of the old fashioned gardens. Besides the snow-white flowers in May, the foliage is decorative and assumes a bright color in fall. 2 to 3 feet, 50c each; 3 for \$1.40.

HIGH BUSH CRANBERRY (Opulus)—Handsome native shrub attaining twelve feet with rather smooth, light branches and stems.

The pure white flowers appear in May and June, followed by decorative fruits, which begin to color by the end of July and remain on the branches and keep their bright scarlet color until the following spring. The berries are not eaten by birds. 18 to 24 in., 40c; 2 to 3 feet, 60c each; 3 for \$1.70.

JAPANESE (Tomentosum, var. Plicatum)—One of the choicest shrubs. Foliage is abundant during the summer and fall, and its balls of pure white are borne in great profusion. Fine for specimen planting. 18 to 24 in., 60c; 2 to 3 ft., \$1.00.

Japanese Snowball

HARDY SHRUBS—CONTINUED

SNOWBALLS—Continued

LANTANA—This is a hardy shrub, especially for dry situations and limestone soil. The large, white flower clusters open in May and June, and are followed by red fruits. The foliage is particularly soft and heavy. 2 to 3 ft., 50c each; 3 for \$1.40.

TAMARIX

These plants are very beautiful all the year, in winter for their coloring of the bark and in summer for the light green, feathery foliage and large loose panicles of purplish flowers.

AFRICANA—Is an upright grower. Blooms in May, 2 to 3 ft., 35c each; 3 for \$1.00.

HISPIDA—A graceful shrub, upright branches, flowers pink, appearing in August. 2 to 3 feet, 50c each; 3 for \$1.40.

HYDRANGEAS

ARBORESCENS (Var. Sterilis) (Hills of Snow)—Almost all of the flowers are sterile. Very showy variety, excellent for borders. 18 to 24 in., 50c; 2 to 3 ft., 75c each; 2 for \$1.40.

TREE HYDRANGEA—Flowers similar to the Hydrangea Paniculata Grandiflora, only they are grafted to form a tree, 3 to 4 feet \$1.50; 2 for \$2.75.

PANICULATA GRANDIFLORA—This is the best known form of the hydrangea. A hardy, ornamental shrub, attains 15 ft. with dense, globose head. The large, white flowers appear in August and September. The sterile flowers changing later to purplish. 18 to 24 inches, 50c each; 2 to 3 feet, 75c each; 2 for \$1.40.

SUMAC

RHUS

CUT LEAF (Typhina) (var. Laciniata)—This variety with its deeply and finely cut leaves is very handsome, not quite so hardy as some of the other forms and not so tall growing. 2 to 3 feet, 60c each.

STAGHORN (Typhina) —This variety grows in the driest soils and is a very desirable plant on account of its brilliant fall coloring which in dry locations, begins to show in August. The crimson fruits remain on all winter. 2 to 3 feet, 60c each; 3 for \$1.70.

Hydrangea Paniculata Grandiflora

Tamarix Africana

LILAC

All plants 2-3 ft.

SYRINGA OR LILAC, COMMON PURPLE (Syringa Vulgaris)—The old favorite, and one of the best. 60c each.

COMMON WHITE (S. Vulgaris Alba)—Flowers white, fragrant, beautiful. 60c each.

CHARLES X—A strong, rapid growing variety, with large, shining leaves. Trusses rather loose; large, reddish purple, \$1.00 each.

JAPONICA—An elegant Japanese species, eventually forming a good sized tree, flowers creamy-white in great panicles a month later than other sorts. \$1.00 each.

JOSIKAEA (Hungarian Lilac)—A distinct species of stout erect growth with dark shining leaves and purple flowers which are produced late in June. \$1.00 each.

MME. MARIE LEMOINE—The finest double white Lilac yet introduced. The individual flowers, which resemble miniature Tuberoses, as well as the truss, are of immense size, deliciously scented; fine for cutting. \$1.00 each.

PRESIDENT GREY—Magnificent panicles of large double blue flowers. \$1.00 each.

SPINDLE TREE

EUONYMUS

BURNING BUSH (Corky Bark) (Alatus)—An attractive, ornamental shrub to eight feet. The flowers appear in May and June. In autumn the foliage changes to a fine rose color. 2 to 3 feet, \$1.00 each.

EUROPEA—A large shrub to fifteen feet. Covered in the spring with bright yellow leaves, color a beautiful crimson scarlet in fall; stems almost a dark green. 4 to 5 feet, 75c each; 2 for \$1.40.

STRAWBERRY BUSH (Americana)—An ornamental, upright shrub to eight feet. The flowers appear in June, are yellowish or reddish green, followed by pink fruits which are very attractive. 4 to 5 feet, 75c each; 2 for \$1.40.

SWEET PEPPER BUSH

CLETHRA

ALNIFOLIA—A native shrub, to four feet, bearing profusely spikes of yellowish-white, scented flowers in August. 18 to 24 in., 50c each; 3 for \$1.40.

RIBES ALPINUS

ALPINA—Five to six feet high with upright branches; foliage lustrous green; blossoms in early spring with large and showy flowers. 2 to 3 feet, 50c each, 3 for \$1.35.

Lilac, Common Purple

HARDY SHRUBS—CONTINUED

LIGUSTRUM REGELIANUM

REGELS PRIVET—A low, dense shrub with horizontal spreading branches. The leaves are oblong and a beautiful glossy green. In the fall of the year they are covered with attractive berries. Very useful as a low shrub in foundation plantings. Price, 12 to 18 inches, 25c each; 18 to 24 inches, 50c each; 3 for \$1.40.

SMOKE TREE—RHUS COTINUS

PURPLE FRINGE—A bush 10 feet high with simple obvate leaves and brown bark; flowers purple in loose panicles and on long pedicles, which become profusely plumose, giving the plant a smoky appearance from which it derives its common name. Early summer. There is nothing quite like it and should be planted on every lawn. Price, 2 to 3 feet, \$1.00 each.

SNOWBERRY—SYMPHORICARPUS

WHITE SNOWBERRY—A perfectly hardy shrub from two to three feet high, excellent for massing in the lower parts of a bed or border. The rose-colored flowers appear in loose, often leafy racemes in July and August. The white waxy-like berries remain on until late in the autumn. 18 to 24 in., 30c; 2 to 3 ft., 50c each; 3 for \$1.40.

RED SNOWBERRY (Coral Berry) (Vulgaris) — A rather compact bush valuable because of its abundant and persistent fruit and foliage. 2 to 3 feet, 35c each; 3 for \$1.00.

WEIGELAS DIERVILLA

ROSEA—A choice vigorous sort, which yields an immense crop of deep pink trumpet-like flowers in June, and bears a scattering of blossoms through the rest of the season.

Snowberry, White

each; 2 to 3 ft., 50c each; 3 for \$1.40.

NANA VARIEGATA—Leaves of this sort are variegated with white; flowers are nearly white. Dwarf, 18 to 24 inch, 35c each; 2 to 3 ft., 50c each; 3 for \$1.40.

EVA RATHKE—The flowers are a deep carmine red, erect growing. A most profuse bloomer in spring and again in autumn. 2 to 3 ft., 75c each; 18 to 24 inch, 50c each.

WITCH HAZEL

HAMAMELIS

VIRGINIANA—Hardy ornamental shrub or small tree with deciduous alternate leaves. Petals of flowers are bright yellow, appearing from September to November. Thrives best in moist locations. Valuable on account of blooming at a time when hardly any other shrub outdoors is in flower. 2 to 3 feet, 50c each; 3 for \$1.40.

Weigela Eva Rathke

Foundation Planting of Shrubs

Untrimmed Japanese Barberry

ALTHEA

ROSE OF SHARON—These free flowing shrubs make wonderful hedges and once known will be planted more often. They can be kept trimmed quite low, or can be allowed to grow tall as a screen. A hedge of them in bloom, with all colors of flowers is a wonderful sight. Price, 18 to 24 inch plants, 25 for \$3.00; \$10.00 per 100.

SPIREA

Eminently suitable for forming fine hedges. A more graceful object than a Spiraea hedge in full bloom is difficult to find. A splendid hedge is shown on page 20, 12 to 18 in., dozen \$2.00; 100, \$15.00; 18 to 24 in., dozen \$3.00; 100, \$20.00.

Althea Hedge

NORWAY SPRUCE

This spruce is a rapid grower and is often used as a hedge fence. It can be planted most effectively in groups on the lawn, but far enough apart to give each tree an opportunity to expand itself in its beauty. For hedge purposes plant 15 inches apart. Price, thrifty trees, 12 to 18 in., shipped without ball of earth \$25.00 per 100.

NOTE: Sold only in lots of 10 or more.

RUSSIAN OLIVE

For any one desiring a hedge plant of great merit the Russian Olive will be worth considering. It makes a very dense bushy hedge and can be trimmed to any shape. The beautiful silvery white leaves make it very attractive. Plant about 18 in. apart. Price 18 inch, 100 for \$10.00.

A Russian Olive Hedge

**HYDRANGEA PANICULATA
GRANDIFLORA**

This variety of Hydrangea makes one of the most beautiful hedges imaginable. For anyone wanting a flowering hedge that will not require trimming, we recommend this plant very highly. Hardy, with glossy green leaves, will grow almost anywhere and make a very desirable hedge. Plant 12 inches apart in single row. Price, strong 2-yr. plants, Hedge size, 50 for \$13.50; 100 for \$25.00.

IBOLIUM PRIVET

IBOLIUM PRIVET

Do you want to enclose your home grounds with a fence that will add beauty and attractiveness to the surroundings, and will never freeze or rot down or rust out; but will become more beautiful and substantial each year?

Many plants or shrubs may be used with happy results and pleasing effects in making a hedge fence.

One hundred plants set eight inches apart, the proper distance for planting, will make a fence 66 feet long. Using our 12 to 18 inch size would cost only \$10.00. This is much less than any other fence would cost.

In addition to costing less than any other fence you could buy, it is superior to any fence you could build. If they are given fairly good soil they will grow dense and compact right down to the ground. It is free from insects or injurious diseases of any kinds and may be pruned to any desired form or shape. Our plants are extra fine this year, are well branched, especially for hedge purposes and the price is very low. We will guarantee the quality of our plants to be equal to the best than can be purchased anywhere.

Plant in either Spring or Fall. If planted in single row, space the plants 8 inches apart. If

planted in double rows, space the plants 8 inches zig zag from one row to the other.

2-Yr. Plants, 12-18 inches, per 100	\$ 8.00
2-Yr. Plants, 18-24 inches, per 100	10.00
2-Yr. Plants, 2-3 feet, per 100	12.50

CALIFORNIA PRIVET

50 FEET OF HEDGE \$6.00

Set plants 6 inches apart if planted in a straight row, or 12 inches apart if planted in a double row. Of all hedge plants this is the most popular, and more of it is planted than all others combined. It is of free growth and succeeds under the most adverse conditions, such as under dense shade of trees, where other plants would not exist. Its foliage is a rich, dark green, nearly evergreen, remaining on the plant until mid-winter. Nice plants, 85c per dozen, \$6.00 per 100. Large two-year plants, \$1.20 per dozen; \$8.00 per 100. Selected plants, \$1.50 per dozen.

AMOR RIVER PRIVET

Hardest of all hedge plants. Beautiful upright growth and makes a very compact beautiful hedge. Holds its foliage till middle of October or later. 18 to 24 inches, \$8.00 per 100; 2 to 3 feet, \$12.50 per 100.

Hedge of Amor River Privet

HARDY CLIMBING ROSES

AMERICAN PILLAR (H. M.)—A single flowering variety of great beauty. The flowers are of enormous size, three to four inches across, of a lovely shade of apple-blossom pink, with a clear white eye and clusters of yellow stamens. These flowers are borne in immense bunches, and a large plant in full bloom is a sight not easily forgotten.

CLIMBING ORLEANS. Cl. Poly. (Levavasseur & Sons, 1913.)—Bright, light red with light center; blooms in gigantic clusters, on vigorous climbing canes. Practically ever-blooming.

CHRISTINE WRIGHT (H. W.)—The flowers are double, from three and one-half to four inches in diameter, borne singly and in clusters, of perfect form, beautiful in the bud, and in the fully expanded flower; in color a most refreshing bright wild-rose pink.

CRIMSON RAMBLER—Will attain a height of 10 to 20 feet in a season; produces a marvelous profusion of rich and glowing crimson clusters during June and July. It is the supreme novelty among climbers and the forerunner of the splendid array of "Ramblers" now embraced in this class.

CLIMBING AMERICAN BEAUTY—The famous American Beauty Rose in climbing form. Has all the characteristics of its relative, including form and fragrance. Healthy foliage and has strong climbing habit of growth; the abundant bloom being in prime before the June show of the bush type. The demand for this type has increased so rapidly it is hard to keep up in its propagation.

DOCTOR VAN FLEET—One of the newest type of climbers and very hardy. Flowers when open run four inches or more in diameter in which it compares with the Tea class. Center built high, petals undulated and cupped. Color is a remarkably delicate shade of flesh-pink. Admirable cutting variety with stems 12 to 18 inches long.

DOROTHY PERKINS—A most beautiful shell pink. The flowers are borne in large clusters of small double bloom and very sweet scented. Foliage smoother and darker than the Crimson Rambler. This is undoubtedly the thriftiest, showiest and most practical of the older pink ramblers, and trails its riotous clusters over more verandas, windows and trellises than any other variety.

EXCELSA

A sensational new hardy climbing Rose, sometimes called "Red Dorothy Perkins." Best described as an improved Crimson Rambler with heavy glossy, varnish like foliage, without any of the defects of the Crimson Rambler, which is very unsightly at times because of mildew on the foliage. This great new Rose is nearly evergreen and is absolutely hardy. The flowers are very double, produced in immense trusses of thirty to forty flowers to each truss. Color intense crimson—new and distinct. One of the great hardy climbing Roses. Hardy as an oak. Lasts a lifetime. A gorgeous sight when in bloom.

EUGENE JACQUET—New, the earliest and most profuse flowering of all climbing Roses. A wonderful grower producing its immense trusses of fragrant, cherry-red flowers in the greatest profusion. Unlike most climbing Roses the color improves with age. Handsome dark green, mildew-resisting foliage. A most remarkable climbing Rose.

FLOWER OF FAIRFIELD (The New Everblooming Scarlet Rambler)—Flower of Fairfield commences flowering in the spring or early summer and produces repeatedly crops of bloom until late in the autumn. It blooms very profusely on young wood the first year after planting. Very effective for covering walls, trellises or arches, and is equally attractive for table decoration or other uses as cut flowers.

GARDENIA (H. W.)—Bright yellow, cream color when open; very fragrant and free; early flowering. This is the hardy Marechal Niel; double yellow flowering.

MARY WALLACE

A GREAT BREEDER'S LEGACY

This is Dr. Van Fleet's masterpiece. The trade is slow in taking hold of this charming pillar rose. Hardy as far north as Central Ohio. Blooms two or three times during the summer months. A pillar rose supporting itself in a bushy growth 6 to 8 feet high. Bright clear rose-pink with salmon at base of petals. The largest Hybrid Wichuraiana in existence.

PAUL'S SCARLET CLIMBER—A wonderful Rose for trellis or pergola. Winner of Gold Medal as best new climbing rose at National Rose Society's Exhibition. Flowers are scarlet, shaded crimson. Corresponds to the Climbing American Beauty and Dr. Van Fleet as to size, shape and habit. Blooms very long, holding flower after many June bloomers have dropped their petals.

YELLOW RAMBLER—Flowers deep golden yellow. Very fragrant.

White Cochet

Killarney

ANTOINE RIVOIRE—A handsome new Rose of vigorous habit of growth, with large, full Camellia-shaped flowers. Color rosy-flesh, on a yellow ground, shaded with a border of carmine; flowers five inches in diameter.

ETOILE DE FRANCE—The gold medal Rose of France—flowers very large and borne on good, long, stiff stems; color a lovely shade of clear red, crimson-velvet very fragrant and keeps well. In England where it has been tried extensively, it has caused quite a sensation.

ETOILE DE LYON—This magnificent Tea Rose, south of the Ohio river, has proved to be perfectly hardy. Blooms in the greatest profusion and each bud is a gem. Flowers are very large, double, full and deliciously fragrant. The color is a beautiful chrome-yellow, deepening at center to pure golden-yellow.

EUGENE E. MARLITT—Rich bright carmine with scarlet tones. It is a strong, upright grower and a constant and profuse bloomer with extra large flowers; full, deep and double, and deliciously tea-scented. Bright, deep, shining rose.

FRANCIS SCOTT KEY—The flowers are from large to very large, opening to a high center. The color is a magnificent deep red rose. Wherever it has been staged this Rose has swept all competitors from the boards and secured every prize it has entered for. Grand for the garden.

HELEN GOULD—This is a better Rose for general planting than American Beauty, the dream and hope of every Rose grower for years past. The flowers are full and perfectly double, the buds beautifully made and pointed. The color is warm rosy-crimson, like the color of a ripe-red watermelon.

KAISERIN AUGUSTA VICTORIA—The best white Rose in the world. This beautiful Rose has not only a royal name, but it is a royal Rose as well. It is a continuous bloomer, producing successive crops of buds, and formed with large petals of best substance; shows no center when fully open; color pure creamy-white.

KILLARNEY—This, the original introduction, is a beautiful Hybrid Tea Bush Rose; strong, sturdy and upright, with fine, heavy, insect-proof foliage, bearing flowers that are simply exquisite in form and color, the bud is exceedingly long and the flowers immense in size; color deep, brilliant, sparkling shell-pink; hardy everywhere. The bush is magnificent in growth, good size and bears its beautiful burden of flowers all summer.

MAMAN COCHET—The Queen of all garden roses. Such beauty and exquisite form as is possessed by this variety is well-nigh marvelous. The buds are beautiful, large, full and firm, and elegantly pointed; as they expand they show great depth and richness, sometimes measuring two and a half inches from base to tip.

MRS. AARON WARD—One of the most delightful Roses of recent years in a color that catches the eye at once. Coppery-orange in the open bud, golden-orange when partly developed, pinkish-fawn of lovely shade when fully open, when it looks like a full fluffy silk rosette.

RED COCHET—A fine garden variety of even shade of deep rose or red, round and full, the form of a good Hybrid Perpetual. A very free grower, in fact it is one of the strongest growing Roses we have. It flowers as continuously and freely as a China Rose and is especially fine in autumn. This Rose is bound to take rank with the best Roses grown.

WHITE COCHET—A grand Rose. Identical with its parent, Maman Cochet, the queen of all pink garden Roses, except in color of flowers, which is snowy-white, sometimes faintly tinged with the faintest suggestion of pale blush.

FIVE EXTRA FINE ROSES FOR THE GARDEN FROM 2½ INCH POTS

25c each; set of five for \$1.00.

CRUSADER—Color rich velvety crimson. Buds and blooms immense and of great substance, very full and double and the largest Rose of its color we have yet seen. A big, strong grower soon produces a rugged bush loaded with the finest blooms that can be grown. Foliage heavy and free from disease. Hardy and a profuse bloomer.

COMMONWEALTH—This splendid new Hybrid Tea is very impressive. The buds are large, long and pointed and the open flower very double, extra large in size, is of fine substance; solid deep pink color, very fragrant; long, strong stems; has fine, large, leathery foliage, free from disease. A strong vigorous grower and continuous bloomer. Especially desirable in the garden.

EDEL (H.T.)—Bud very large; flower very large, double, sweet fragrance. Color white, with the faintest ivory shading toward base, passing to pure white; free bloomer.

GOLDEN OPHELIA—It is a sturdy, stiff-stemmed grower, with beautiful foliage, quite closely set, and glossy. The flower is of medium size, from a beautifully formed bud of bright, golden yellow. Has excellent texture; profuse in bloom; makes a marvelous "bush." We are very enthusiastic over this beautiful, true yellow novelty, which will rank high in its class. Fine when used in corsage work.

MADAME BUTTERFLY—Fancy colored Rose. It averages more petals to the bloom; it produces more blooms to the plant, because it makes more branches, every one carrying a bud. The buds are a lovely shade of Indian red, yellow at the base; they are unique for corsages and for low table decorations; the opening flowers are perfect in form and texture, clear and brilliant in color, and of delicious fragrance.

HYBRID PERPETUAL ROSES

LARGE TWO YEAR OLD FIELD GROWN BLOOMS FIRST YEAR

Roses are the most popular flowering plants grown, as either plants or flowers. They may be properly and effectively used for a great many purposes. Everyone should plant roses. There is no home, worthy of the name, where space could not be found for from ten to fifty rose bushes and there is no improvement that can be made at so small expense that will so quickly enhance the beauty, desirability and value of the property as a good rose planting.

AMERICAN BEAUTY—The well-known red forcing Rose.

ANNA DE DIESBACH—The famous "Glory of Paris." Bright, deep clear pink, of largest size, fine bud.

BLACK PRINCE—Deep blackish-crimson; large, full and globular; very free flowering.

CAPTAIN CHRISTY—Delicate peach-blow pink, center richer in color; large and full.

CLIO—Flesh color, shaded in the center to rosy peach. Large, fine globular form; free bloomer.

EUGENE FUERST—Color deep red shaded crimson. Profuse bloomer. A most charming superb grand Rose.

FRAU KARL DRUSCHKI, or **WHITE AMERICAN BEAUTY** or **SNOW QUEEN**—The very highest type of its class and the best snow-white Rose ever introduced. It is an extraordinary strong grower, and has the vigor and hardiness of an oak. Flowers are immense in size and produced with great freedom. The color is a true paper white, the standard by which all white Roses are judged.

GENERAL JACQUEMINOT—Crimson-scarlet; large, full. Very fragrant. Excellent

HUGH DICKSON—Color brilliant crimson shaded scarlet; large and fine form, opening well in all weathers. Very sweetly scented.

J. B. CLARK—The color is unique among Roses, being deep scarlet shaded blackish-crimson; flowers are large and beautifully-formed.

MADAME MASSON—This is a glorious Rose. The flower is of the largest size. Color bright brilliant red. Blooms all summer.

MADAME PLANTIER—This is the iron-clad white cemetery Rose.

MAGNA CHARTA—Bright rose, very large and double, good form and fragrant, extra.

MARSHALL P. WILDER—A great many persons will not give up the contention that this is the ne plus ultra in red Roses. Deep, rich glowing red.

MRS. JOHN LAING—Color clear bright, shining pink; exquisitely shaded. Awarded gold medal, N. R. S.

PAUL NEYRON—Deep rose; flowers of immense size; indeed many claim this to be the largest Rose grown.

PRINCE CAMILLE DE ROHAN—Deep velvety crimson-maroon, full and of good form and perhaps the best of all the hardy dark Roses. The Black Rose.

ULRICH BRUNNER—Cherry-red, of immense size fine form and most effective in the garden.

RUGOSA AND OTHER ROSES

RUGOSA CONRAD FERDINAND MEYER—Flowers large, double cup-shaped. Color deep, bright, vivid, intense pink, with the penetrating fragrance of the old June Roses.

RUGOSA F. J. GROOTENDORST (H. Rug.)—Bud small, flower open, double, borne in clusters on average length stems; very lasting; slight fragrance. Color bright red, edges of petals serrated like a carnation; disease resistant. Vigorous grower of bushy habit, bearing a profusion of bloom from June to October. Very hardy.

RUGOSA SIR THOMAS LIPTON (R)—The best pure white Rugosa Rose. Strong and vigorous; grows four feet high. Flowers perfectly double, pure snow-white. Fragrant. Blooms more than once through season.

WICHURAIANA, or **MEMORIAL ROSE** (W)—It is difficult to conceive anything more appropriate for covering graves and plots in cemeteries than the Hardy Memorial Rose. It creeps along the ground as closely as an Ivy. They are single, pure white, with a golden yellow disc, five to six inches in circumference.

PRICE ANY ABOVE 4 VARIETIES—45c each; 3 for \$1.25.

ROSA HUGONIS

A NEW BUSH ROSE FROM CHINA

ROSA HUGONIS—Like many other rare floral gems from the Orient, this variety is spectacular in its exotic beauty. Imagine a many branched shrub, 6 to 8 feet tall, rearing slender sprays in all directions, gracefully arching beneath loads of bright yellow, single flowers, an inch and a half in diameter—and you have Rosa Hugonis at its best. The flowers are borne on the previous season's growth and appear very early in the spring, before the foliage. Later in the season it throws up many new branches (next season's flowering wood) and these branches are of a beautiful deep red color, which makes the shrub a garden attraction almost throughout the growing season. Strong field-grown plants, each 75c; 3 for \$2.00

HYBRID TEA ROSES

STRONG 2-YEAR-OLD FIELD GROWN PLANTS 55¢ EACH, 3 FOR \$1.50

If you want lots of roses this summer, get a dozen of our Hybrid Tea Roses this Spring. These roses are extra choice, heavy, field grown plants, full of vitality and they cannot fail, if handled properly, to furnish you with a wealth of blooms the first year.

ALEXANDER HILL GRAY—Pale lemon-yellow, deepening in the center of its perfectly formed fragrant flowers. Moderate growth and bloom. One of the hardiest and most beautiful Tea Roses; best in autumn.

COLUMBIA (H. T.)—It is a big Rose. The color is a true pink, about the shade of a perfect Shawyer, deepening as it opens to glowing pink.

ETOILE DE LYON—Bright sulphur-yellow; fine form, large size; a fine yellow Rose.

ETOILE DE FRANCE (H. T.)—Color a lovely shade of clear, red-crimson velvet.

LADY HILLINGDON—Buds of remarkable quality and elegance, of good size opening into handsome flowers of clear apricot-yellow. Plant relatively hardy, of much vigor, and with an autumn-blooming habit.

OPHELIA—Salmon-flesh, shaded with rose, large, and of perfect shape; of excellent habit, the flowers standing up well on long, stiff stems and produced in great profusion. Excellent for forcing and a fine decorative variety.

PINK KILLARNEY—This, the original introduction, is a beautiful Hybrid Tea Bush Rose; strong, sturdy and upright, with fine, heavy, insect-proof foliage, bearing flowers that are simply exquisite in form and color, the bud is exceedingly long and the flowers immense in size; color deep, brilliant, sparkling shell-pink; hardy everywhere. The bush is magnificent in growth, good size and bears its beautiful burden of flowers all summer.

Columbia

Pink Killarney

Lady Hillington

Radiance

GRUSS AN TEPLITZ—The sweetest, richest crimson hybrid Tea Rose. Called by some growers Virginia R. Cox. The intense, dazzling color of this rose is found in no other variety. Fiery crimson, shaded with a dark, velvety sheen, totally unlike any other color in the world. Large, handsome, moderately double flowers. Produced in wonderful profusion throughout the whole growing season; in fact, it is always in bloom. The flowers are produced singly, sometimes in clusters, producing a gorgeous effect on the lawn or in the garden all summer through. Vigorous grower, actually attaining a height of 4 to 5 feet, perfectly hardy everywhere. Incomparable for fragrance.

RADIANCE—The color is a splendid even shade of clear red, without a trace of any other color, retaining its vividness for an unusually long time after being cut. It is a remarkable bloomer, being constantly in flower from early spring until freezing weather. Strong, vigorous branching, grower, each branch terminating in a large, bold, double bloom. One of the best hardy outdoor garden roses known. Originated by John Coon, the famous American Rosarian.

RED RADIANCE (H. T.)—An even better Rose than its parent, Radiance, in habit, bearing big, globular flowers of deep rose-red on strong, individual canes which are freely produced all summer until frost.

RED COLUMBIA (H. T.)—A brilliant scarlet-crimson of exquisite shade, a sport from Columbia; semi-double, one of the freest bloomers in existence; produces beautiful foliage in profusion.

RICHMOND—Pure rich scarlet; very free and continuous flowering; splendid forcer.

SUNBURST—The color is orange-copper or golden-orange and golden yellow; edge of petals lighter; all intense shades, extremely brilliant in effect. Some call the color cadmium-yellow. It is the yellowest of all Roses in the everblooming class.

THE BRIDE—Pure white, with tinge of pink when planted in garden; large, full and of most perfect form.

WHITE KILLARNEY—Branches of it during the winter give the appearance of a bank of snow. It is pure white in color, long in bud, of fine form.

WILLIAM R. SMITH—The soft blending of the salmon-pinks and the rose pinks and the beautiful flesh tints in this Rose give it a singular resemblance to the entrancing flush on a maiden's cheek.

BABY RAMBLERS

Price 2-year-old, 55¢ each; 3 for \$1.50.

BABY RAMBLER, or **MADAME N. LEVASSEUR**—This is the original Baby Rambler daddy of them all. In bloom all the time. Flowers in large clusters of brightest red.

CATHERINE ZEIMET, or **WHITE BABY RAMBLER**—Grows to a height of 20 inches, produces double pure white flowers in abundance.

ERNA TESCHENDORFF—The flowers are of a deep crimson color, flushed with carmine, resembling the dazzling color of "Gruss an Teplitz." It is much sought after in America to bloom in pots during winter and for Easter time.

Gruss an Teplitz

Richmond

Sunburst

HARDY VINES

AMPELOPSIS QUINQUIFOLIA

(AMERICAN IVY)

Use them for covering unsightly buildings, stumps, walls, fences, trees, etc. Grow quickly and easily, make a dense mat of leaves which hang in clusters of three. We are quoting these at a special price as follows: Two-year-old plants, 40c each; 10 for \$3.50.

BOSTON IVY (Veitchii)—This vine undoubtedly stands higher in the estimation of the people than any other. Once it is established it grows rapidly and will stay indefinitely, needing only an occasional trimming to keep it within bounds. It is not attacked by disease or insects and the foliage is not injured by the smoke and dirt of cities. The glossy leaves turn to a brilliant orange-scarlet in the fall. 2-year-old, 50c each; 3 for \$1.45.

MADERIA VINE

BASELLOIDES—A beautiful rapid-growing vine with dense foliage. The small white flowers are borne in great profusion and are very fragrant. It is excellent for summer screens and shade for porches. Succeeds best in a sunny position. 5 for 25c; 10 for 40c.

FALSE BITTER SWEET

SCANDENS CELASTRUS—Hardy ornamental vine. Very effective by their bright-colored fruit remaining usually throughout the winter. They are valuable for covering trellis-work, trees or rocks and walls. They grow in almost any soil and situation. Fruit is about one-half inch in diameter, orange-yellow, with crimson seed. 35c each; 3 for \$1.00.

DUTCHMAN'S PIPE

ARISTOLOCHIA SIPHO—A very vigorous growing vine with large deep green leaves and green twigs, producing in abundance a purplish blossom much resembling a pipe. Grows very dense. Price 2 year old plants, 75c each; 2 for \$1.35.

CLEMATIS

PANICULATA—This Clematis is by far the most popular of all the species in the American gardens. It is extremely showy when covered with the small white fragrant flowers, which appear late in the season. Beautiful, shiny, green foliage. Price: 2 year old No. 1 plants, 50c each; 3 for \$1.30.

JACKMANII—One of the best known of all the clematises. The velvety-purple flowers, when expanded, are four to six inches across, very velvety and distinctively veined. 2 year, \$1.00 each.

MAD. ED. ANDRE—This is the nearest approach to a bright red Clematis. It is a very free bloomer and very satisfactory. 2 year old \$1.00 each.

HENRYII—Large flowering white Clematis. A strong grower and free bloomer. 2 yr. old \$1.00 each.

HONEYSUCKLE

IONICERA

JAPONICA, VAR. HALLIANA (Hall's Japan Evergreen Honeysuckle)—Honeysuckles are well adapted for the covering of walls, arbors, etc., are very ornamental as the leaves remain on during the winter. The flowers are white, turning to yellow and are very fragrant. 30c each; 6 for \$1.50.

KUDZU VINE

PUERARIA—A hardy vine with large, tuberous starchy roots, making a most remarkable, vigorous growth of slender, hairy stems, leaves are variously lobed, vines will grow to 60 feet in a season, producing a profusion of large leaves. 30c each.

WISTARIA

CHINESE WISTARIA (Chinensis)—This is one of the best and commonest of hardy climbers. Has pale green pinnate leaves and bears profusely dense, drooping clusters of purplish, pea-shaped flowers. Blooms in May. 3-year-old, large, 75c each.

TRUMPET CREEPER

BIGNONIA RADICANS (Trumpet Flower)—A robust, woody vine, twining tightly, with numerous roots along its stems. Its orange scarlet trumpet-shaped flowers cluster at tip of the branches. Leaves light green. Used for covering unsightly places, such as stumps, rock work, etc. Strong plants, 45c each; 3 for \$1.25.

EVERGREEN VINES

ENGLISH IVY—A hardy evergreen climbing vine with dark green leaves. It is a true evergreen and retains its bright green leaves all winter. Price: 50c each; 12 for \$5.00.

EUONYMUS RADICANS—A hardy evergreen vine, or will form a spreading shrub where it can not climb. Valuable for covering graves, especially desirable for shady locations. Price: 3 year old plants, 50c each; 3 for \$1.35.

Honeysuckle

Clematis Paniculata

Clematis Henryii

Dutchman's Pipe

Wistaria

HARDY PERENNIALS Old-Fashioned Flowers

Achillea Ptarmica

JAPANESE BELL FLOWER

PLATYCODON—A valuable perennial forming a dense branching bush of upright habit. One to two feet with neat foliage. It blooms from July until frost. Large bell shaped, deep blue flowers. 10c each; \$1.00 per dozen.

ANEMONE WINDFLOWER

WHIRLWIND—One of the most gorgeous of the hardy perennials, as well as one most desirable and useful. Bears large, showy white flowers supported by large dark green leafy branches. Fall. 20c each; \$2.00 per doz.

PERENNIAL FLAX

**LINUM PER-
ENNE**—A very desirable plant for the border; grows about 2 ft. high and filled with flowers all summer. We can furnish either White or Blue. 15c each; \$1.50 per doz.

Anemone, Whirlwind

LUPINUS OR LUPINES

The Lupinus produces beautiful long spikes of pear-shaped flowers a foot long on stems 3 feet high. They are perfectly hardy and very showy. We can supply them in the following colors: White, Blue, Rose, Mixed. 15c each; \$1.50 per dozen.

Lupines

Japanese Bell Flower

**WE HELP YOU PAY
EXPRESS CHARGES
SEE ORDER BLANK**

Hardy perennials, or as they are often called, "Old Fashioned Flowers" should be planted in every garden.

They add grace to the hardy border and furnish cut flowers all through the summer. The varieties listed are all perfectly hardy, and do not have to be replaced each year as is the case with annuals.

ACHILLEA

**MILLEFOLIUM CERISE ROSE-
UM**—Beautiful cut-leaved foliage. Flowers deep rose, colored and good for cutting. Eighteen inches. April to October, 15 cents each; \$1.50 per dozen.

PTARMICA (The Pearl)—White flowers larger than above variety. It blooms all Summer. Slightly more dwarf. 15 ins. 15c each; \$1.50 doz.

Asters, St. Egwin

ASTER

ST. EGWIN—Dense and bushy and blooms from the ground up to the top of the plant. Delicate pink color. 15c each; \$1.50 per dozen.

STOKESIA—12 to 18 ins. high. Flowers large blue and quite showy. Blooms from August till late frost. 15c each; \$1.50 per doz.

COLUMBINE

**AQUILEGIA ENGLISH
LONG SPUR**—A fine strain, producing distinct strains of Purple, Blue, Red and Yellow flowers. 15c each; \$1.50 per dozen.

CHRYSANTHA (Yellow-Flowered Columbine)—Flowers are primrose yellow, long spurs. Three to four feet. April to September. 15c each; \$1.50 per dozen.

JAPANESE IRIS

Of all Iris, the Japanese has, without question the most wonderful bloom. The flowers are borne on long graceful stems, and for foliage effect, or cut flowers this species is far superior to the common kinds. We are offering only two varieties which are noted for their free blooming habit.

PURPLE GOLD BANDED—A beautiful deep shade of purple with a gold band across the petals. An attraction to any garden. Price, 25c each; \$2.50 per dozen.

BLUE—A bright blue flower, which holds its color and remains fresh a long time after it is cut. Price, 25c each; \$2.50 per dozen.

LILY OF THE VALLEY

Very small and sweet and dainty, the creamy white scalloped bells pendant along slender stems. They make up (with their broad shiny leaves) into dainty bouquets of fragrance. They spread actively from the roots and soon reclaim shaded cold ground which otherwise would be cheerless and barren. 15c each; \$1.50 per dozen.

Lily of the Valley

HARDY PERENNIALS—CONTINUED

Canterbury Bells

CANTERBURY BELLS

Large open bell-shaped flowers in a variety of colors. 15c each; \$1.50 per dozen.

HAREBELL (*Campanula Carpatica*) — A pretty, compact species; flowers 1 inch in diameter. Blue and white. 15c each; \$1.50 per dozen.

COREOPSIS

LANCEOLATA—Valuable border plant, because of their profusion of showy yellow, hardy and of the easiest culture. One to two feet. June to September. 15c each; \$1.50 per dozen.

DAISY PERSIAN

PYRETHRUM

The pretty, fern-like foliage in the Spring, followed by a profusion of handsome blooms in summer, makes the plant very desirable. Unequaled as cut flowers. Hardy under any conditions. 15c each; \$1.50 per dozen.

Coreopsis

DAISY SHASTA

ALASKA — A splendid form of the Shasta Daisy. The whole plant is gigantic, but compact and graceful; flowers white, four and five inches across. Very free flowering; small yellow discs. Good for cut flowers. 15c each; \$1.50 doz.

Shasta Daisy

Chrysanthemum

CHRYSAN- THEMUM HARDY VARI- TIES

Well known perennial, esteemed for its lavish bloom and exceeding decorative value in late fall. Red, white, pink, yellow. 15c each; \$1.50 doz.

DELPHINIUM OR LARKSPUR

Another old time favorite of the easiest culture. Hardy, and prefers sunny, well-drained position. Spikes are superb for cutting. The three varieties below, 15c each; \$1.50 per dozen.

BELLADONNA—A sky-blue variety. June to October.

FORMOSUM—The old favorite dark blue with white center; 3 to 4 feet high. Very vigorous, free-flowering, one of the best.

CHINESE (Chinese Larkspur)—A very pretty variety with fine feathery foliage and intense blue flowers.

NEW ENGLISH HYBRIDS—Imported Strains. Superb new varieties in all shades of blue, lavender, violet and purple. We offer these in a mixed lot containing all the above colors. Large blooming size clumps 50c; 3 for \$1.40; 6 for \$2.50.

Delphinium
Belladonna

BLAZING STAR

LIATRIS (Blazing Star)—*Pycnostachya*—choice and bold specie from 3 to 5 ft. tall. Grow and produce flowers in poorer soil, than most garden plants but prefer a rich garden soil, and require no special attention. Nothing can be planted that will attract more attention on account of its unusual appearance; beautiful as well as odd. Blooms in mid summer and throws up long spikes of rich rose purple flowers which last a long time and very attractive to butterflies. 15c each; \$1.50 per dozen.

Blazing
Star

BLEEDING HEART

DICENTRA SPECTABILIS (Bleeding-heart)—The Bleeding-heart is one of the choicest memories of the old fashioned garden. Easily cultivated in borders or the wild garden. One of the best of flowering perennials. Its long racemes of graceful heart-shaped pink flowers are always attractive. Valuable for planting in shade. 50c each.

BABY'S BREATH

Very branching or spreading slender perennials of very easy culture, and very desirable where a mass of delicate misty white bloom will fill a bare place. 15c each; \$1.50 per dozen.

Bleeding Heart

PERENNIALS—CONTINUED

RUDBECKIA

LACINATA GOLDEN GLOW (T)—Aug. and Sept. Large, double golden, yellow, Dahlia-like flowers. 15c each \$1.50 per doz.

PURPUREA—An entirely distinct variety. The flowers are a peculiar formation as well as color, which is reddish purple with large cone-shaped center in brown. 15c each; \$1.50 doz.

GAILLARDIA

BLANKET FLOWER

GRANDIFLORA—Probably one of the most universal flowers planted among the hardy perennials. Conspicuous for their profusion of bloom. Flowers intense, blood-crimson, margined with golden yellow. Eighteen to twenty-four inches. 15c each; \$1.50 per dozen.

SEDUM

STONECROP—A very pretty erect growing perennial attaining a height of 18 inches. It has broad light green foliage with immense heads of handsome showy rose colored flowers. Indispensable as a fall blooming plant. Price, 15c each; \$1.50 per dozen.

OSWEGO TEA

MONARDA DIDYMA—A bushy plant growing about 2 feet high, covered with round heads of deep red flowers. Its petals are similar to the Cactus Dahlias, also known as Bergamot and Mint on account of the delicious fragrance of their leaves when crushed. 15c each; \$1.50 per dozen.

FOX GLOVE

DIGITALIS GLOXINAEFLORA—A stately picturesque plant with spikes of bloom 3 to 4 inches in height. Color ranges from rose to deep purple. 15c each; \$1.50 per dozen.

HARDY PANSIES

VIOLA CORNITA—A truly beautiful new plant that will come up each year in your garden. Starts to bloom almost as soon as the snow is off the ground in the spring, and continues to bloom profusely till December. One of the best perennials. We have them in yellow, blue and mixed, all colors at 15c each, \$1.50 per doz.

HARDY HIBISCUS

Tall growing, especially adapted to backgrounds and shrubbery borders. Of easiest culture, and bloom the entire season. Plants grow 4 to 5 feet tall. 15c each; \$1.50 per dozen.

MALLOW MARVEL—A beautiful deep red color. Very effective.

WHITE CRIMSON EYE—This is probably the best known and the most planted of the Hibiscus.

TRITOMA

The Tritoma is sometimes called Red Hot Poker or Torch Flower. It will bloom the first season from seed, sending up tall flower stems on which are borne the great blossoms of a bright red or flame color. Single plants produce from five to a dozen of these great flowers, stalks, presenting a brilliant appearance. The plants are hardy in open ground and bloom early. 15c each; \$1.50 per doz.

PHYSOSTEGIA

VIRGINICA—A unique and attractive American plant that stands apart from all other hardy plants. For massing or planting with appropriate varieties in the hardy border. It is perfectly hardy and possesses a constitution equal to that of Golden Glow. Begins to bloom about the first of July and if kept cut, will flower more or less for about three months. Can be supplied in pink or white. 15c each, \$1.50 per doz.

PYRETHRUM HYBRIDUM

PAINTED DAISIES—Pyrethrums are of low, compact growth with lace-cut foliage of beautiful green and are excellent for edging or for general planting and in solid beds. The flowers resemble that of a Daisy in shape, are of large size, and the color ranges from pure white and the various shades of pink and red to deep purple. 15c each; \$1.50 per doz.

PENTSTEMON

BARBATUS TORREYI (B)—June to Sept. A very valuable late flowering variety with beautiful bright flowers; thrives also in partly shaded places. Price 15c each; \$1.50 per doz.

VERONICA

SPICATA—Blue flowers are always sought after among perennial plants and there are comparatively few of them. It forms a compact bush about 2 feet high, which is studded with spikes of flowers about a foot long from July to October. A clump of Veronica in the border is always effective. 15c each; \$1.50 per doz.

Oriental Poppies

POPPIES

ORIENTAL (Assorted) — These are the regal representatives of this popular genus growing 3 to 3½ feet high, and far surpassing in splendor of bloom all the annual and biennial kinds. Flowers in May and June. 15c each; \$1.50 doz.

ICELAND (Assorted) — The plant is of neat habit, forming a tuft of bright green, fern-like foliage from which spring, throughout the entire season, a profusion of slender leafless stems 1 foot high, each graced with charming cup-shaped flowers. 15c each; \$1.50 per dozen.

LOBELIA

CARDINAL FLOWER—Rich fiery red flowers; strong plants often producing 10 to 18 spikes in August and September. 15c each; \$1.50 per dozen.

MOURNING BRIDE

SCABIOSA JAPONICA—Handsome border plants and should be planted in every garden. Lavender blue flowers from July to September that last a long time when cut and put in water. 15c each; \$1.50 per dozen.

HARDY SWEET PEAS

This beautiful perennial blooms continuously all summer long. The flowers are larger than the tender Sweet Peas and will continue to bloom even in hot dry weather. Ours are a mixture of white, pink and red that will produce bouquets for you every year. Price, 15c each; \$1.50 per dozen.

PHLOX

FINE NEW VARIETIES

KARL FOERSTNER—A lovely orange scarlet, 25c each, \$2.50 doz.

MURIEL ROGERS—Deep shiny pink. 25c each, \$2.50 doz.

NEWBIRD—A delicate amaranth red, 25c each, \$2.50 doz.

DR. KONIGSHAFFER—Brilliant orange scarlet, 25c each, \$2.50 doz.

ETHEL FRITCHARD—Beautiful mauve lilac, 25c each, \$2.50 doz.

VON HEEKEREN—Salmon Rose color, 25c each; \$2.50 doz.

RHINELANDER—Beautiful salmon-pink; immense size. Price, 15c each; \$1.50 per dozen.

RYNSTROOM—Big trusses, rosy-pink flowers. Price, 20c each; \$2.00 per dozen.

SUBULATA—Moss or Mountain Pink, and an early spring flowering type with evergreen foliage. Valuable for covering ground or graves. Price, 15c each; \$1.50 per dozen.

BRIDESMAID—White, crimson eye. Price, 15c each; \$1.50 per dozen.

MISS LINGARD—The best phlox in cultivation. Immense heads of pure white flowers in June, September and October. 15c each. Prices, \$1.50 per dozen.

Phlox Newbird

Hardy Sweet Peas

Hardy Carnation Sgl. Mixed

HARDY CARNATION

GARDEN PINKS

A fine collection in various colors. The good old fashioned "Pinks" so frequently found in Grandmother's garden. Of dwarf habit. The foliage is attractive throughout the year and they are especially useful for edging perennial borders.

DEL. MIXED—15c ea., \$1.50 doz.

DEL. PINK—20c ea., \$2.00 doz.

DEL. WHITE—15c ea., \$1.50 doz.

SGL. MIXED—12c ea., \$1.20 doz.

HOLLYHOCKS

DOUBLE—Immense double and semi-double flowers; all shades and colors mixed. 15c each; \$1.50 doz.

LYCHNIS

CHALCEDONICA (Maltese Cross)

—Heart-lobed stars of brightest vermilion, arranged in large flat panicles. 2 yr., 15c each; \$1.50 doz.

Dianthus or Sweet William

DIANTHUS OR SWEET WILLIAM

DIANTHUS BARBATUS—The old-fashioned favorite. A fine plant, producing great masses of bloom of extremely rich and varied colors. Flowers lasting and fine for cutting. 15c each; \$1.50 per dozen.

DIANTHUS. Pink Beauty 15c each; \$1.50 doz.

DIANTHUS. Scarlet Beauty. 15c each, \$1.50 doz.

DIANTHUS. Velvet Black. 15c each, \$1.50 doz.

DIANTHUS. Holborn Glory. 15c each, 1.50 doz.

DIANTHUS. White. 15c each, \$1.50 doz.

DIANTHUS. Newport pink, 15c each, \$1.50 doz.

HARDY GRASSES

ERIANTHUS RAVENNA (Plume or Pampas Grass)—Beautiful plumes 8 to 10 feet tall in the Fall. Fine for winter ornament. 15c each; \$1.50 per dozen.

EULALIA ZEBRINA (Zebra Grass)—The long blades of this variety are marked with broad yellow bands across the leaf. Fine for lawns. 15c each; \$1.50 per dozen.

NEW VARIETIES OF GERMAN IRIS

The Iris is one of the easiest to grow of all the floral family. They will thrive year after year with perfect abandon and neglect. They are perfectly hardy anywhere and can be planted at almost any season of the year. Spring and fall, however, is the best season for planting. They bloom during May and June.

AMBASSADEUR—One of the very best Irises in the world, and probably the greatest seller. Reddish violet. Each 75c;

LORD OF JUNE—One of the very best. Blue Lavender. Price: 75c each, 3 for \$2.00.

German Iris Shekinah

PROSPERO—This is one of the very best Irises in cultivation. It is healthy, tall, vigorous, of good growing habit and very beautiful. Standards pale lavender flushed yellow at base, falls red-purple with light shading at margin. Price; \$1.00 each, 3 for \$2.00.

QUEEN CATERIANA—This is one of the very best Irises from Miss Sturtevant's garden. Grows satisfactorily everywhere. Soft pink lavender. Price, 75c each, 3 for \$2.00.

SHEKINAH—This is probably the most appreciated pale yellow Iris in the United States. The color deepens around its orange beard. Price: 75c each, 3 for \$2.00.

GERMAN IRIS

FINE NAMED SORTS 25c EACH \$2.50 DOZ.

Atropurpurea, deep purple.
Azurea, blue.
Canary Bird, yellow.
Her Majesty, pink
Mrs. Darwin, white with lavender center.
Mont Blanc, white
Pallida Dalmatica, solid blue.
Queen Emma, white.

Meissonier Peonia

NEW AND FINE PEONIES

No other flower is so universally grown with such few disappointments as the Peony. It is a very ancient flower. Its history dates back to the days of the old Greek civilization and on down through history to our times. Late years have seen many improvements in the size, shape, color and free-flowering habit of this wonderful plant, and below we offer three choice double varieties in three colors.

EDULUS SUPERBA—Bright pink, very early and large bloom. One of the best early. 50c each; 3 for \$1.35.

JEANNE D'ARC—Crown type midseason. Soft pink, intermingled with sulphur-white and rose. Center spotted carmine. Extra 50c each, 3 for \$1.35.

LOUIS VAN HOUTTE—Late midseason, bright red, very fine shapely flower, medium to large 75c each; 3 for \$2.00.

MEISSONIER — Bomb shape flowers of brilliant crimson, which can hardly be surpassed for beauty when used as specimens or planted in groups. Very attractive and when cut make excellent bouquets for all occasions. 50c each; 3 for \$1.25.

THE EARLIEST PEONY OF THE SEASON

OFFICINALIS RUBRA — A brilliant crimson rose-type Peony, blooming three weeks before the earliest of the other varieties. An old favorite of our grandmother's gardens, and no new Peony has appeared to take its place as to early blooming qualities. It is a sure bloomer, blooming every year, and a wonderful addition to your garden, \$1.00 each.

Triomphe De Lille Peonia

Louis Van Houtte Peonia

TRIOMPHE DE L'EXPOSITION DE LILLE—A beautiful rose type Peony of hydrangea-pink tinted violet-rose. The blooms are large and compact, making a very showy plant when in full bloom. We sold many of this variety last year, and all of our customers who planted them were enthusiastic in their praise of this beautiful flower, 50c each; 3 for \$1.25.

Jeanne D'Arc Peonia

SPECIAL OFFER

Below we offer three choice double varieties in three colors.

1st PRIZE WHITE—A good sized double white flower and free bloomer. 50c each; 3 for \$1.35.

1st PRIZE PINK—Beautiful shade of pink, double flower, beautiful foliage. 50c each; 3 for \$1.35.

1st PRIZE RED—Very vivid coloring, massive flowers and very spicy. 50c each, 3 for \$1.35.

SPECIAL

ONE EACH OF THE THREE ABOVE \$1.00

Black Beauty Geranium

RESURRECTION PLANT (Rose of Jerico)—Plant apparently dried and dead, but placed in water becomes an expanded rosette of fine fern-like leaves. Very odd and beautiful. 20c each.

Weeping Lantana

WEEPING LANTANA—A semi-trailing plant, especially adapted for hanging baskets. Flowers are lilac or rosy-pink in clusters. Each 26c, 3 for 74c.

**WE HELP YOU PAY

ORDER BLANK**

Giant Single Petunias

LEMON VERBENA—The most delightfully fragrant foliated plant grown. One plant is sufficient to scent an entire room with its wonderful lemon odor. Rapid grower, white flowers. Will winter in the cellar. Each 26c, 3 for 74c, 12 for \$2.50, ppd.

UMBRELLA PLANT—A large specimen is as handsome as a Palm. Throws up stems about two feet high, surmounted with a whorl of leaves, diverging horizontally. Indispensable for aquariums, fountains, etc. 22c each.

Asparagus Sprengerii

ASPARAGUS SPRENGERII—Foliage is dense, glossy and gracefully drooping. Sprays 4 to 5 feet long. Each 24c; 3 for 68c; larger sizes 45c and 68c.

PETUNIAS—Single. Plants in mixed colors from an exceptionally fine strain. Fine colors and constant bloomers. Each 16c, 3 for 46c.

WATER HYACINTH—Flowers lilac-rose; leaves a rich, smooth green. Excellent for shallow water planting or bowls. Ea. 30c; 3, 85c.

PORCH BOX PLANTS

COLLECTION NO. 1—Twelve, plants all different—our selection from the following list: Salvias, Geraniums, Wandering Jew, Ostrich Fern, Boston Fern, Vincas, Coleus, Petunias, Begonias, Verbenas, Hibiscus, etc. Price, collection, 12 plants, \$2.40.

DOUBLE BEDDING GERANIUMS

The richly colored Double Geranium is unquestionably the most popular of all plants as it may be used effectively either as a bedder or pot plant.

S. A. NUTT—This is the darkest and richest double Geranium grown. It is very bright, dark, deep, rich velvety maroon, an excellent bedder and a perfect pot plant. Each 24c, 3 for 68c.

RADIO RED—Double; bright scarlet. Each 30c; 3 for 85c.

PEACH BLOSSOM—Silvery pink. Each 30c; 3 for 85c.

BUCHNER—Pure white. Each 26c; 3 for 74c.

ALUHONSE RICARD—Brilliant orange red. Each 26c; 3 for 74c.

BEAUTE POITEVINE—Apricot shading to copper, white eye. Each 22c, 3 for 63c.

BLACK BEAUTY—Dark crimson maroon. Without equal. Each 32c; 3 for 85c.

JEAN OBERLE—Peach-pink shading to almost pure white at outer edge. Each 22c, 3 for 63c.

DUCHESS DE MONTMORT—Purple, nearest blue Geranium. Each 26c; 3 for 74c.

Watermelon Begonia

WATERMELON BEGONIA—Variegated foliage white and green, waxy like frosted silver. Excellent house plant. Each 32c, 3 for 90c.

SKY-BLUE PLUMBA-GO—An unusual pot plant or bedding plant that causes much comment wherever grown. Flowers freely at all times of the year, and is easily cultivated. Decidedly popular as a house plant. Each 29c, 3 for 83c; 12 for \$2.78, ppd.

Pink Wax Plant

PINK WAX PLANT—Bushy growth producing a wax-like appearance. Flowers lustrous rich pink. Free flowering. Each 26c, 3 for 74c.

ROYAL PURPLE PLANT (Strobilanthes Dyeranus)—Of brilliant and exquisite coloring. An attractive pot plant grown for its beautiful, glistening reddish purple iridescent leaves. 28c each.

Water Hyacinth

THE POPULAR BOSTON FERN

BOSTON FERN—This variety is the most popular of all ferns. The graceful rich green fronds often measure from six to eight feet in length. Each 22c, 3 for 63c; larger sizes 38c and 88c each.

Asparagus Plumosus
Lace Fern

COMPACTA—Fronds often 8 in. wide. Each 38c, 3 for \$1.08; larger sizes 75c and \$1.00.

ROOSEVELT—Dense, massive fronds. Each 34c, 3 for 97c; larger sizes 75c and \$1.00.

MOONFLOWER, GIANT WHITE (*Ipomea Maxima*)—Glistening white blooms produced in wonderful profusion. Rapid grower; unequalled for porch and lattice shading. 26c each, 3 for 74c.

Boston Fern

ASPARAGUS PLUMOSUS—(Lace Fern)—Fronds are bright green, gracefully arched and as finely woven as the finest silken mesh. Their lasting quality when cut is remarkable, as they often retain their freshness for weeks. Each 30c, 3 for 85c. Larger size 50c each.

Giant Flowering Pansies

PANSIES—Giant Flowering Pansies comprised of new varieties and improved types. Richest coloring. 6 for 35c; 65c per dozen.

EVERBLOOMING FUCHSIAS

MONSTROSA—Pure white. Extra large. Each 28; 3 for 80c.

PURPLE PRINCE—Double; sepals bright scarlet, corolla blue. Each 25c, 3 for 72c.

MONS THIBAUT—Rose vermilion; single flowers. Each 30c, 3 for 85c.

SPECIOSA—Tube and sepals carmine. Each 26c, 3 for 74c.

Fuchsia, Monstrosa

FLOWERING BEGONIAS

BEEFSTEAK—Circular leaves, red beneath. Dainty coral-red flowers. Each 28c; 3 for 80c.

CHRISTMAS RED—Flowers are bright cherry red; foliage glossy green shaded bronze. Each 30c, 3 for 85c.

VENUS—Deeply cut leaves, distinctly different. Free flowering. 40c, 3 for \$1.14.

THURSTONIL—Flowers rosy-pink in clusters. Leaves large, emerald green, dull blood red underneath. Each 36c, 3 for \$1.03.

CHATELAIN SUPREME—Color rose, shading darker. Ornamental foliage. Each 38c, 3 for \$1.08.

ARGENTEA GUTTATA—3 to 4 ft. tall. Purple-bronze leaves, silver markings. White flowers. Each 33c, 3 for 94c.

GRACILIS LUMINOSA—Foliage glossy green, shaded bronze. Flowers cherry changing to coral red. Each 34c, 3 for 97c.

Beefsteak Begonia

LANTANAS

The unexcelled everblooming bedding or border plant; also used as pot plant, in hanging baskets, porch boxes and vases. Almost constant blooming.

MICHAEL SCHMIDT—Brilliant yellow passing to pure vermillion. 25c each, 3 for 72.

AURORA—Clear pink. 28c each, 3 for 80c.

ALBA PERFECTA—Pure white, compact habit. 24c each, 3 for 64c.

TETHYS—New beautiful lemon yellow. 30c each, 3 for 85c.

RADIATION—Crimson changing to yellow at center. 25c each, 3 for 72c.

Coleus, Trailing Queen

COLEUS TRAILING QUEEN—Trailing foliage plant for hanging baskets, porch or window boxes, vases, etc. Center of leaves fiery crimson surrounded with deep maroon; deeply serrated edges of bright olive-green. Each 24, 3 for 63.

ORANGE, DWARF FRUITING—Dwarf, free flowering variety, suitable for pot culture. Easy to grow. Produces pure white, waxy blossoms which emit a delicate yet powerful fragrance. Fruits freely. 30c, 50c, 75c and \$1.00 each.

PINK OLEANDER—A handsome specimen for tub, pot or house culture. Flowers rich pink. Each 32c, 3 for 90c.

Rich Pink Oleander

DECORATIVE FERNS

THE OSTRICH PLUME FERN—One of the few feathery foliage ferns which everyone can successfully grow. One of the best. Each 38c, 3 for \$1.08. Larger sizes, 75c and \$1.00.

VERONA—Will thrive under all ordinary conditions. Fronds are very fine and filmy. Nothing is daintier. Price, 30c each; 3 for 85c. Larger plants, 50c and 80c ea.

TEDDY, JR.—Produces many new fronds which are broad, beautifully tapered from base to tip. Symmetrical spread. Price 28c each, 3 for 80c. Larger plants, 50 and 90c.

FLUFFY RUFFLES (*Nephrolepis Superbissima*). Dark feathery foliage. Dense, compact growth gives the appearance of a fern within a fern. Price, 35c each; 3 for \$1.00. Larger plants, 60c and \$1.00 each.

SWORD FERN—Graceful fronds are of medium length and resemble the Boston Fern in leaf construction. Price 29c each; 3 for 83c; Larger plants 55c and 85c each.

Ostrich Plume Fern

SALVIAS—Of all red-flowering bedding plants, the *Salvia* is the most brilliant and showy; a mass of this popular annual when in full bloom is hard to describe. They grow in bush form, 2 to 2½ feet high; the foliage is dense, forming a mound of vivid green, surmounted by spikes of blazing red flowers which continue in bloom until killed by hard frosts. 20c each, 3 for 57c; \$1.92 per dozen.

Trailing Vinca

PORCH BOX PLANTS

COLLECTION NO. 2—For box 8 inches wide by 3 feet long, 16 plants, our selection, from such as listed above. Price, collection, 16 plants, \$3.20.

Rubber Plant (*Ficus*)

VINCA, TRAILING—(Variegated Periwinkle) A beautiful variegated trailing vine, admirably adapted for hanging baskets and vases. Leaves glossy green, broadly margined a creamy white; flowers blue. 22c, 45c and 60c each.

CHRISTMAS CACTUS—An early flowering crimson-scarlet variety with long drooping flowers borne in great profusion. Easy to grow. 45c each.

Christmas Cactus

RUBBER PLANT (*Ficus Elastica*). Dark green, shiny foliage. One of the most satisfactory house plants obtainable. Being of tropical nature, the plant is at its best under moist conditions and high temperature. Price \$1.00 and \$1.50 each.

HARDY BEGONIA EVANSIANA—Here is one of our best house and garden plants; a rapid, healthy grower, very profuse bloomer with beautiful foliage and clusters of pink flowers. The plant reestablishes itself in the spring from root tubers. 40c each.

Hardy Garden Begonia

PALM, GIANT FAN LEAVED (*Latania Borbonica*)—Beautiful in all stages of growth. Leaves large, fan-shaped and of a cheerful green color. Plant of hardy constitution and adapted to all decorative purposes indoor or outdoors. 50c each.

READ THIS

Seneca Falls, N. Y., April 16.
Spring Hill Nurseries, Tippecanoe City, O.
Dear Sirs:—The Poplar Trees ordered from you came safely and in good condition. Have them planted, and am much pleased with their looks. The other two ordered from you a year ago are doing wonderfully well; are just ready to leaf; am afraid they are a little precocious and will get nipped by frosts. Respectfully, Miss Ethyl Frye.

Giant Flowering Cannas

Mammoth Leaved Rex Begonia

MAMMOTH REX BEGONIA

—The broad leaves, high coloring and exquisite markings of Rex Begonias make them invaluable as decorative plants for house culture. Give them a soil composed of warm, moist atmosphere and shady situation. Do not allow the sun to strike the leaves while wet. Price 38c, 3 for 80c.

IVY (PARLOR)—Strong growing, climbing vine with bright green foliage. Especially suitable for indoor hanging baskets, boxes, trellis work, etc. Price, 20c.

HIBISCUS

GRANDIFLORUS—Rich, glossy foliage, blooms profusely through the summer; literally covering the plants with scarlet-crimson single flowers. 26c each.

PEACHBLOW—One of the finest plant novelties offered in recent years; flowers double, from 4 to 5 inches in diameter; charming, rich, inches in diameter; charming, rich, crimson center; entirely new and most beautiful shade. 30c each.

MINIATUS SEMPLENUS—Semi-double flowers; light vermilion scarlet; petals waved and recurved; flowers noticeable for the absence of formality, but very handsome. 28c each.

Hibiscus, Peachblow

DWARF FRUITS

The dwarf fruits are not merely so common or well known as they are in Europe or as they should be here. The fruits are just the same as on the standard varieties. The only difference is, the trees or plants do not take so much room as many of them may be trained on the fence, or even along the side of a building if necessary. They also come into bearing much earlier than the standard sorts. It is possible to plant three to five hundred dwarf trees on a quarter of an acre of ground, where less than a dozen standard varieties would flourish. The dwarf fruit trees also work more readily into a scheme of more or less ornamental gardening, where fruits are combined with flowers, especially if some sort of formal gardening is attempted. The cordon, espalier and pyramids exactly suit these demands.

DWARF APPLES

Dwarf Apples are produced by grafting the variety desired onto the dwarf parasite stock, raised for this purpose. Plant one-year-old trees. They will develop into any shaped tree you wish to train them and will produce the fruit in a very few years. In fact, one-year-old trees often produce fruit in the nursery rows the second year.

DWARF APPLE TREES—2 year old, 3 to 4 feet, 50c each; 5 for \$2.00.

VARIETIES—Jonathan, Wealthy, Wolf River, Red Astrachan, Baldwin, Fallawater, Early Harvest. Plant in spring or late fall, 6 to 8 feet apart.

DWARF CHERRIES

We are able this year to furnish the Dwarf Cherry, which is a very welcome addition to our list. The Dwarf Cherry makes a beautiful compact small tree that is very ornamental. They bear very early in life and their fruit is of an exceptional high quality. All dwarf fruits are becoming more popular each year because they are so well adapted to the small city lot. Dwarf Cherries can be planted about ten feet apart and they make a beautiful hedge.

DWARF CHERRY TREES—Two-year-old, 3 to 4 feet, 75c each; 5 for \$3.25; 25 for \$18.75.

VARIETIES—Montmorency and Early Richmond.

DWARF PEARS

The Pear is very profitably grown as a "dwarf." These pears differ from the standards inasmuch as they are propagated on a quince root, which makes it slow growing and dwarfish. The fruit is the same in either case. The quality and appearance of the fruit will convince anyone that they are excellent to plant.

DWARF PEARS—Select trees, 2 and 3 years old, 3 to 4 feet, 50c each; 5 for \$2.00.

VARIETIES—Duchess, Kieffer, Flemish Beauty, Clapp's Favorite, White Star. Plant spring and fall, 8 to 10 feet apart.

DWARF PEACHES

For quick bearing fruits we have nothing that will equal a Dwarf Peach Tree. They are very beautiful when in bloom and give the appearance of a tall shrub rather than a tree. They are very good bearers of a high quality fruit. Just the thing for tall screens or for backgrounds in your shrubbery planting.

DWARF PEACHES—One-year-old trees, 3 to 4 feet, 60c each; 5 for \$2.50.

VARIETIES—Elberta and Rochester.

HARDY FERNS

The most beautiful and natural effects can be produced by planting hardy ferns. They should be planted to be protected from the prevailing winds. They are perfectly hardy and can stand planting either in shady or sunny positions.

The hardy ferns are most satisfactory for planting on shady banks and around porches where the sun does not reach. They are valuable in that they do well in any good well drained soil and require practically no care. No home should be without them. We can furnish either of the following varieties. Price: 30c each; 12 for \$3.00.

OSTRICH FERN—The large leaf, tall growing variety.

ROYAL FERN—One of the large growing varieties.

CINNAMON FERN—Medium grower in height.

SPECIAL OFFER

To get you acquainted with our fine hardy Ferns we will make you the following special offer: 1 each of the three varieties above, 75c; 2 each, \$1.25.

APPLES

MOST PROFITABLE FRUIT GROWN

It is a recognized fact that of all fruits the apple is the most important, as it may be had fresh the year round, which is not the case with any other fruit. Apples are no longer considered a luxury, but have become a staple article of food and the demand for them is increasing faster than the supply. Farmers and fruit growers have found that orchards well cared for have given larger net returns per acre, during a series of years, than any other crops they have grown. There never has been a time when an orchard could be planted with a greater assurance of profit than now. The varieties listed are those which have stood the test. You may make your selection from this list with the assurance that you are getting the benefit of years of experience of others in this line. How many of us know, and can realize, that there has been an alarming decrease in apple trees during the last decade? Yet, U. S. reports show that today there are more than 23% fewer bearing apple trees than there were in 1910. Are we going to allow ourselves to come to the time when it will be almost impossible to get them at any price?

BALDWIN

The apple of general popularity. It bears most abundantly. The Baldwin is a staple on the market everywhere. It is well known to every fruit grower and housewife in the northwestern United States. A bright red winter apple, rich, sub-acid, excellent because of its dessert and cooking qualities.

BANANA

This apple is not as generally planted as its merits would warrant, and we recommend it both for home and market. Fruit large, clear pale yellow with beautifully contrasting pinkish-red blush; attractive in appearance, of good dessert quality.

DUCHESS OF OLDENBURG

The most profitable mid-summer apple. Downing has the following to say of the Duchess: "This handsome Russian apple proves one of the most hardy and profitable varieties in cultivation, especially in our northwestern sections."

DELICIOUS

Large, with surface almost covered with a most brilliant beautiful dark red; in quality it is unsurpassed; in flavor

Delicious Apples

ed with acid, but only enough to make it all the more pleasing; flesh is fine grained crisp, juicy, delicious; in keeping qualities it ranks with the best.

FALL RAMBO

One of the most popular Fall or Early Winter apples. Highly valuable for kitchen or table use. Fruit medium in size, flat, smooth, yellowish-white in shade streaked with pale red in the sun. October to December.

GRIMES GOLDEN

The BEST and most widely planted yellow apple. The tree is hardy and productive. It can be used to an advantage as a filler as it comes into bearing rather early. Few apples have proven more profitable in the commercial orchard. The fruit is of medium size, tender, rich, aromatic, sub-acid, good to very good, for eating raw or cooking.

ENSEE THE BEST OF ALL

The growth of this tree is upright while young, but becomes more spreading and drooping with advancing age and fruit bearing. The fruit is about the size of the Rome Beauty, with the quality of the Jonathan or Grimes Golden, but more juicy than either of them, and never gets dry even after being in storage for a year. The flesh is yellowish, crisp, rich and delightful.

EARLY HARVEST

Much prized by the housewife. The Early Harvest has been in cultivation for more than one hundred years and this is a proof of its excellence. It is a very early variety, ripens in July and August. It is desirable for the home orchard because of its earliness and its excellence for dessert and culinary purposes.

Jonathan

Apples are the most profitable of fruit

APPLES--CONTINUED

JONATHAN

A general favorite everywhere. The Jonathan originated in New York state and belongs to the Spitzenburg class. It is a medium sized apple, brilliant red; very highly flavored, juicy, fine-grained, tender, mild, sub-acid. Quality is fine for home use and for marketing.

MAIDEN BLUSH

This oldtime tested apple is one of the most beautiful and productive of the Fall apples. It is of good uniform size. The color is a bright lemon yellow, with a deep crimson blush spreading over one cheek. The flesh is white, crisp, tender, very juicy.

Maiden Blush

NORTHERN SPY

Large, striped crimson in the sun, juicy, rich and aromatic, retaining these qualities until late spring or summer. The tree grows rapidly, bears well as it blooms later than most varieties. Valuable as an aphid-resisting sort.

Ensee

WEALTHY

The best money maker of its season. This is by far the most valuable of all the Fall apples. Tree has proven hardy, vigorous and healthy. The fruit is a brilliant red, distinctly marked with narrow stripes and splashes of deeper red. The quality of the fruit is superb. Those who prefer an apple that is tart and juicy regard the Wealthy as the finest apple that is grown. The flesh is well. Tree a free grower, very hardy with stout branches. well. Tree a free grower, very hardy with stout branches. Bears fourth to fifth year.

WOLF RIVER

A large, handsome apple, and originated on the banks of the Wolf River at Fremont, Wis. Very hardy variety, strong, vigorous grower with spreading habit. Produces full crops of very large fruit; white flesh, tender, juicy and pleasant to taste. It has a mild sub-acid, with a peculiar spicy, slight quince-like flavor.

YELLOW TRANSPARENT

The earliest summer apple. The greatest home or market apple, the money-maker of summer apples, known to net over \$750.00 per acre annually. By many this is considered the best of all extra-early apples and comes into market when the demand for summer apples is extra strong; consequently it always brings the best prices.

RAMBO

The Rambo is too well known to need much description, as it is one of the old favorites that has its place in the farm as well as the commercial orchard. The fruit is of medium size, greenish yellow, partly covered with red in the sun.

ROME BEAUTY

The great profit maker. An old apple, but one that steadily grows in popularity, and is a money maker for growers all over the country. It has an established place in the markets and no orchard should be without this apple. It is large, mottled and striped in different shades of red. The flavor and quality are way above the average; appearance and size are its valuable points and it always brings a good price.

STAYMAN'S WINESAP

Champion of all Winesaps. Here we have an extraordinary market and family apple. Succeeds wonderfully anywhere. The fruit is medium to large; attractive green and yellow, almost hidden by dark red stripes. Flesh yellow, juicy, quality the best, ranking with the Yellow Newton and the Grimes Golden. The tree is a quick and strong grower. The Stayman tree somewhat resembles the ordinary Winesap but is a stronger grower and is much hardier, and because of its heavy bearing habits and late keeping it is a great source of revenue to the growers everywhere.

APPLES ALWAYS IN DEMAND

An orchard will pay bigger dividends today than ever before. Plant some this year.

Yellow Transparent

APPLES—CONTINUED

WINESAP

One of the old standbys. It is one of the very best keepers. Medium size, smooth and a fine dark red; flesh yellow, crisp, tender, very juicy, aromatic, firm and very good. Popular with fruit stores because it always holds up, and is one of the leading export apples. The tree is a strong grower the root growth being exceptionally strong. It comes into bearing early and is remarkable for its regular and abundant crops.

YORK IMPERIAL

An important commercial apple. Can be kept till new crop comes. Medium sized, round, irregular; greenish-yellow overlaid with bright red stripes; flesh tender, firm, crisp, juicy, extra good flavor. Tree is a vigorous grower.

Winesap

ONE YEAR OLD APPLE TREES

In order to supply our constantly increasing demand for one-year-old apple trees, we have grown and herewith present to our patrons a list of varieties we can supply in one-year-old trees.

The popularity of the one-year apple trees has grown out of the experience of commercial orchardists who choose them for the following reasons:

"The one-year tree or whip gives the grower a chance to form the head of the tree at any desired height, also to build exactly the kind of a head he may desire. This alone would be sufficient reason in the opinion of many growers for choosing the one-year-old tree.

"The tree which has stood in the nursery row only one year can without doubt be transplanted easier and with more assurance of its living than

one which has grown for two years in the nursery row, as the root system of the one-year-old tree will not be as disturbed as the older tree.

"For this same reason the one-year-old trees will get a better hold on the soil than if it had stood two years and then had its anchor roots disturbed.

"Again, the one-year-old tree will bear fruit just as soon as the older tree on account of its becoming established quicker after transplanting.

"Lastly, they may be bought for less money, this makes a difference with many; however, the price should be the last consideration, quality always first in any tree."

For Prices on One-Year-Old Apple Trees See below.

CRAB APPLES

Crab Apples form a valuable crop, both in home and commercial orchards. They are especially desirable in the colder sections, where only a few varieties of Apples can be successfully grown; but they succeed well in all climates and their fruit is very popular. A few years ago they were thought fit only for cider, preserves and jellies; but there are varieties now that command a good price on the market for dessert purposes, especially in the case of the Whitney Crab Apples; do well on almost all soils. Come into bearing early and bear almost every year.

TRANSCENDENT

This is the largest and best of the Siberian Crabs. The tree is extremely hardy, good grower, and usually very productive. The fruits are about one and a half to two inches in diameter. Bright yellow striped with red, flesh crisp, juicy and sub-acid. August to September.

WHITNEY

The tree is a hardy, thrifty, upright grower, and comes into bearing when young; it is a very productive variety. The flesh is yellowish, crisp, juicy and splendid for eating and cider. August and September.

PEARS THE QUALITY FRUIT

The Pear is closely related to the apple and like the apple thrives on many soils. It is noted for its delicate, mild, sweet and delicious flavor, and the melting, buttery, juicy texture of the flesh, surpassing the apple in these respects.

The Pear is a highly profitable fruit, and especially so in markets that pay for quality as well as looks. It is easily grown, being nearly free from insects and fungous diseases.

Our pear trees are of the finest quality for transplanting for they are well-developed, stocky trees. In the course of five years they will be bearing a fine crop of fruit.

We have both standard and dwarf varieties. For the permanent orchard we recommend the standard varieties, the dwarf being better for a small lot. (See page 38 for dwarf fruit prices.)

LIST OF VARIETIES

ANJOU (Buerre d' Anjou)—Rather large, flesh yellowish-white, fine grained, melting, with a rich, excellent flavor. Good keeping qualities.

BARTLETT—One of the most popular sorts, both for home and market. It is large, handsome waxen yellow, with red blush; flesh buttery, rich and juicy, highly flavored. One of the best varieties for canning. Ripens in August and September.

EVERY
CUSTOMER
MUST BE
SATISFIED

CLAPP'S FAVORITE—Fruit handsome, large, long, yellow, spotted dull red where exposed to the sun; flesh fine-grained, juicy, rich, sweet flavored. It resembles the Bartlett. The tree is a vigorous grower, hardy and productive. Ripens in August.

DUCHESS D'ANGOULENE—This is the largest among our really good pears. The skin is a dull greenish-yellow; flesh white, melting, juicy and well flavored. The tree is a vigorous grower and a reliable bearer. A profitable market variety and fair for home use. Ripens in October and November.

FLEMISH BEAUTY—One of the best varieties of pears for the southwest, on account of its hardiness. The tree is a strong grower, an annual and abundant bearer, and is usually successful over a large range of country. The fruit is large; the skin pale yellow; the flavor is sweet and melting. Ripens in September and October.

KEIFFER—On account of the excellent keeping qualities it is one of the best and most profitable market varieties. Fine for canning or preserving. For commercial orchard it is undoubtedly one of the best. The trees are not troubled with scale and seldom fail to bear a good crop. Trees bear young. October and November.

KOONCE—Exceedingly hardy variety, in fact almost frostproof, will bear heavy crops when other kinds are destroyed by frost, medium size. July and August.

SECKLE—This well known little pear has attained the rank of standard in quality on account of its rich delicious flavor; very popular for dessert. August and September.

SHELDON—A pear of the finest quality; rich and highly aromatic. The fruit is greenish russet with a red cheek; large size and somewhat flattened shape. Ripens in September.

Keiffer Pear

Duchess

Bartlett

CHERRY TREES

A good cherry orchard for commercial purposes is one of the most profitable ventures a farmer can undertake, because there is no other fruit so much in demand at such good prices. The trees are very thrifty and prolific, bearing large crops annually.

The fruit is easily picked and it is always in great demand in its season, brings prices amply sufficient to repay the investment and give fancy profits. No home orchard is complete without some cherry trees.

There is no fruit which makes more delicious preserves and housewives appreciate the value of a good supply of canned cherries for winter pies, puddings and other desserts. Cherry trees are naturally hardy and are infected by fewer diseases than any other fruit tree. The so-called sour varieties are hardy, vigorous and frost resisting and are never troubled with scale, but spraying is of course beneficial to the trees. They are easily grown wherever apples succeed, and are late bloomers.

Few trees will bear such an abundant amount of luscious fruit every year with as little expense. The trees succeed best when planted in sandy or gravelly loam; avoid low or wet ground.

Our cherry stock is the best selected varieties and as fine as can be produced. They are all budded on imported Mahaleb stock, which makes the best and longest lived trees.

GOVERNOR WOOD

The standard of quality among the sweet cherries. The large, light red fruit hangs well on the tree and does not rot easily. The fruit buds are hardy and the tree is a stout, healthy grower, and an abundant bearer. June.

YELLOW SPANISH

Large, handsome, sweet cherry with light red cheek, firm and delicious. Tree vigorous in growth and productive. Late June.

BLACK TARTARIAN

A beautiful, purplish cherry of superb quality, rich and juicy. This remarkable tree makes a beautiful erect growth. A prolific bearer. Late June and July.

DYEHOUSE

Bright, red, prolific bearer. The fruit is mildly subacid, excellent variety for canning, good shipper. Free and vigorous. Last of May.

Early Richmond

Large Montmorency

MAY DUKE

A large, light red cherry of most excellent quality. They are between a sweet and a sour cherry. Fine for canning. The tree is a strong, upright grower.

LARGE MONTMORENCY

Several different strains come under this variety or name; all of them are good, but we consider this particular strain one of the very best of the sour cherries, and it should be largely planted in every orchard. The fruit is large, dark red, and handsome.

EARLY RICHMOND

Unsurpassed for cooking. The tree is a free grower and reliable producer. The fruit is medium, dark, red, juicy and has an acid flavor. June.

FINE PEACHES

The nature and quality of the Peach is so well and universally known that it needs no word of introduction or commendation from us. Its importance as one of the necessary luxuries of the home is keenly felt by every family and was never more emphasized than at the present when the scarcity and high prices put it beyond the reach of everyone, who does not have his own trees.

Though peach growing is fast becoming a great industry and large numbers of trees are being planted, the supply is nothing like equal to the demand. Every one who owns a farm should plant a few peach trees for home use, or a larger number for commercial purposes. If he owns only his home he should plant a few trees in the back yard and produce peaches enough for his own family's use.

BELLE OF GEORGIA

A large freestone peach, a most excellent variety, ripens early and most attractive in color and shape, with a light red cheek. Flesh is white, firm and delicious; in all ways the quality is very fine.

J. H. Hale

earliness it is one of the most profitable ever introduced. The returns from a successful Carmen orchard are almost beyond belief, and the fruit stands shipping so well that it always reaches the market in prime condition, and its handsome appearance causes it to bring the highest prices.

ENGLE'S MAMMOTH—Late yellow freestone, resembles Crawford's Late, but is more productive. September.

READ THIS

New Albany, Ind.
Oct. 24, 1928.

Dear Sir:

Just want to let you know that all of my plants that I wrote to you about in the Spring are all doing fine and not a one failed to grow, even to the Christmas Holly. Will want a few again in the Spring. Send me your catalogue for 1929.

Thanks, Mrs.
Arthur Huckelbery.

Champion

It has become one of the standard varieties in the big commercial orchards, as it stands shipping well and it invariably brings the best prices in the markets. Its popularity is not confined to a single locality, for it grows with equal success in both South and North.

CHAMPION

One of the finest freestone peaches. The fruit is large, creamy white, with a red cheek. The flesh is sweet, juicy, very high quality, and of excellent flavor. It is one of the showiest peaches in the market, is a good shipper and an excellent seller.

CARMEN

A fine market variety, being the first real freestone of the season. Large, yellowish white. Flesh is creamy white, is tender, rich and juicy.

This is a favorite variety with many growers. Because of its

CRAWFORD'S LATE—A very large yellow freestone of the finest quality. Ripens early in September.

Carmen

PEACHES--CONTINUED

ELBERTA

The old reliable peach, of which more are planted and from which more money has been made than from any other variety. The fruit is extra large; golden yellow, with brilliant shades of red; firm, juicy, rich and sweet. In fact it is the most popular of all the freestones. The tree is vigorous, sturdy—and hardy; thrives in widely different localities.

For years the Elberta has been the standard market peach, both in the southern and northern markets, and it has a place in the estimation of commercial growers and the users of peaches which will be very hard to fill with any other variety; the Elberta is the one variety that every fruit stand customer seems to know. No other peach has been introduced which fills all the requirements of a commercial peach with such success as the Elberta. Ripens about the first of August.

FITZGERALD

The Fitzgerald is of Canadian origin and it is one of the hardiest peaches both in tree and bloom. Fruit is a large, yellow, free stone, tinted with red, firm, juicy, of very high quality.

The tree is a good grower and very productive, beginning to bear the second year. It has been a success in nearly all peach sections.

GENERAL FUNSTON

Large, new peach seedling, most excellent quality, white freestone, red cheek. Has been called "Frost Proof Beauty" because of hardiness, producing fruit when all other varieties fail.

The fruit is firm and solid, and stands shipping well, so that it comes on the market in first class condition. It is fine for canning and preserving and commands the best prices on the market.

The tree is a good grower, strong, shapely and symmetrical.

J. H. HALE

This remarkable peach, discovered as a chance seedling, by J. H. Hale, is a wonderfully fine peach, magnificent in appearance and delightful in flavor. The tree is enormously productive and the fruit is of larger size than the Elberta. Color a deep, golden yellow overlaid with bright

Elbertas fill the Basket

Rochester

sweet, juicy and of delicious flavor; keeping and shipping well; skin prettily blushed. Tree is strong growing and hardy, an annual and prolific cropper.

SMOCK—Large, yellow freestone, mottled with red, enormously productive and valuable for market. September.

Belle of Georgia

carmine. Smooth, solid, thick skin, a peach without the fuzz, absolutely distinct in this respect, it stands in a class alone.

HEATH CLING—Very large, a creamy white peach, flesh pure white to stone, juicy and sweet. October.

KALAMAZOO—Freestone of excellent quality. Fruit large; golden yellow with crimson cheek. Flesh yellow, delightful flavor.

LEMON CLING—Large, oblong yellow peach, firm and rich. Tree hardy and productive.

LEMON FREE

This is a splendid peach possessing many very excellent qualities. Large, almost lemon shaped, pointed at the apex. In color it is a lemon yellow brightened with red cheek; the flesh is golden yellow, tender and juicy.

MOUNTAIN ROSE—Large, handsome freestone, yellow skin with red cheek. Flesh white, juicy and most excellent. August.

NEW PROLIFIC—Very popular market sort. Large yellow freestone. Flesh firm, juicy and fine flavor. September.

ROCHESTER

A yellow freestone variety having the exceptional merits of being early (ripening about Aug. 10), extraordinary sweetness and early bearing. Fruit is large, yellow,

Reine Claude Plum

PLUMS

A BEAUTIFUL AND ORNAMENTAL TREE FOR A CITY LOT

Plum trees are often called the poor man's tree because they require so little room to grow and are always such prolific bearers. The market's demand for high grade plums is almost unlimited, and for dessert, cooking and canning no fruit is more delicious.

ABUNDANCE

A beautiful yellow, heavily overspread with purple-carmine; large to very large; the flesh is yellow, very juicy, sweet and quite firm; skin tough. The tree is a strong, thrifty grower, very hardy and prolific. The fruit stands shipping well to distant markets. July.

BRADSHAW

Remarkably good early plum. This variety is a very large dark red. The flesh is yellow, juicy and good. A valuable market variety. The tree is an erect, vigorous grower. Middle of August.

LOMBARD

A favorite for canning and culinary purposes. Of medium size, oval, violet-red. Flesh is yellow, juicy, pleasant and good. Adheres to the stone. Good market variety. The tree is strong and productive, bearing when quite young. Ripens late in August.

MOORE'S ARTIC

Purplish black plum with a thin bloom. Small to medium; flesh juicy, sweet and fine flavored. Healthy, regular and abundant bearer. August.

REINE CLAUDE

Fine variety for canning. Fruit is large, roundish oval greenish yellow, spotted with red; flesh yellow, juicy, rich, and of the finest quality.

SATSUMA

Ripens in early September. Purple red. Flesh is dark red. Tree is a free bearer, but should be planted in a situation which may be slightly protected by buildings or a windbreak.

SHIPPER'S PRIDE

A large, showy plum, frequently reaching a diameter of two inches. It is a dark purple in color of the Damson type. The flesh is sweet and firm. Good shipper. September.

YELLOW EGG

A beautiful yellow egg-shaped plum of the largest size; the flesh is yellow, and is somewhat coarse; always clings to the stone. This is an excellent variety for canning and always brings a good price on the market. The tree is a prolific bearer and a good grower. Late August.

PRICES OF GOOD PLUM TREES

BURBANK

Successful almost anywhere. The fruit is of very large size, the color cherry red, mottled. The flesh is yellow, sweet and firm. It is fine for keeping and shipping. The tree is a vigorous grower, but so straggling that it requires sharp pruning. It ripens in August.

GERMAN PRUNE

One of the oldest varieties. The tree is vigorous in growth and productive. Large, purple fruit that is firm, sweet and delicious. A freestone. September.

Moore's Artic Plum

QUINCES

LIST OF VARIETIES

CHAMPION—A strong, rugged exceedingly productive tree which begins to bear when two years old. The fruit is large, oval, of a rich color and excellent quality. It ripens late and keeps well until January.

APPLE, or ORANGE—Large, round, bright golden yellow; cooks quite tender, and has an excellent flavor. Valuable for preserving and for market. An abundant bearer. One of the finest late varieties.

PRICE OF QUINCE TREES

	Each	10	25
3 to 4 feet	\$0.85	\$8.00	\$19.50
4 to 5 feet	1.00	9.50	22.50

Orange Quince

MULBERRIES

On account of the beautiful, heavy foliage and compact growth of the mulberries, they are frequently classed as ornamental trees. They are very hardy and long lived, in fact one specimen of which we know is more than three hundred years old. Throughout the Western States they are frequently planted for wind-breaks and hedges, and are valuable for posts and because the fruit attracts many birds, they can be planted as a protection to orchards. 3 to 4 feet, 75c each; 8 for \$1.95.

GRAPES

THE FRUIT IN
GREATEST DEMAND

One of the most satisfactory crops that can be grown because it can be depended upon practically every year, and can be grown almost anywhere, but to produce the finest specimens they should be cultivated and pruned.

AGAWAM

Deep red or maroon. The large meaty berries which are borne in extra large, loose-shouldered bunches, are juicy and of a delightful aromatic flavor. Ripens about with Concord or a trifle later. Vine a strong healthy grower, 1 year, each 20c; doz., \$2.15; 2 years, each, 25c; dozen, \$2.50.

BRIGHTON

This variety has been regarded as the highest in quality of all hardy grapes. The berries are wine red, like Caco, but not so large though the bunch, if anything, is larger. Ripens in midseason. 1 year each 20c dozen, \$2.15; 2 year, 25c; dozen, \$2.50.

CONCORD—From sheer merit the Concord has become the most popular grape in the United States. Taking the country as a whole, more Concord is now in bearing than of any other variety. No other grape succeeds over such a wide area or in so many different soils. It is the standby in grapes. New varieties may come, but they have to work hard to reach the Concord standard for market purposes. Matures early, bunches big, berries are juicy, sweet and delicious. Concord overcomes local grape troubles and is safe to plant. Price, 1 year, each 20c; dozen, \$2.25; 100 for \$10.00 2 year, each 25c, dozen, \$2.75.

Worden

keeps well, ships well and sells well. Bunches big, berries are juicy, sweet and delicious. Concord overcomes local grape troubles and is safe to plant. Price, 1 year, each 20c; dozen, \$2.25; 100 for \$10.00 2 year, each 25c, dozen, \$2.75.

CATAWABA—If you asked some of the big Grape growers "Which is the best red variety?" the answer would be "Catawba." There would be good reasons for the answer too. It is last to ripen; the bunch and berries are large; the flesh is juicy, pulpy, and possesses a delightful sugary flavor. Price, 1 year, each 20c; dozen, \$2.15; 2 year, each 25c; dozen \$2.50.

CAMPBELL (Campbell's Early)—Bunch large and compact; berries large, somewhat elliptical in shape; flesh pulpy, tender, yet firm enough to keep and ship well; flavor sugary and aromatic. An excellent table Grape; splendid for jelly and catsup. Price, 1 year old, each, 20c; dozen, \$2.15; 2 year old, each, 25c; dozen, \$2.50.

DELAWARE—An old time red variety. Bunch and berry small, refined high quality. Prolific but a rather weak grower and somewhat subject to mildew. 1 year, each, 20c, dozen, \$2.15; 2 years, each, 25c, dozen, \$2.50.

MOORE'S EARLY—The most reliable very early variety and is proving immensely profitable to commercial growers. Medium bunch, berry large, jet black with purple bloom, ripens fully two weeks earlier than Concord. 1 year, each, 20c; dozen, \$2.25; 2 years, each, 25c; dozen, \$2.75.

NIAGARA—The standard white Grape. Both bunch and berries are large to very large, handsome, and well formed. The flesh is firm, juicy, without much pulp; flavor is of the very best, and does not resemble any other sort. The vine is hardy, vigorous and extremely productive. Frankly speaking, it is hard to describe Niagara, so numerous are its points of superiority. The best way is to try some yourself. Plant the vines anywhere. Do it this year. Price, 1 year, each, 20c, dozen, \$2.25; 2 years, each 25c; dozen, \$2.75.

WORDEN—A black grape that resembles Concord closely but with more tender pulp, higher quality, and ripens a week to ten days earlier. It is also a little larger in both bunch and berry than the Concord. 1 year, each, 20c, dozen, \$2.25; 2 years, each, 25c; dozen, \$2.75.

POCKLINGTON—A very handsome Grape of extra large size. Bunch large and compact; flesh juicy with considerable pulp; flavor sugary, and delicious. Vines are extremely healthy and hardy. Pocklington is perhaps the most beautiful Grape in cultivation. Price, 1 year, each, 20c; dozen, \$2.25; 2 years, each, 25c; dozen, \$2.75.

SALEM—Bunch large and heavy; berries round and an inch thick; flesh tender; flavor sweet, aromatic. For table it is hard to beat. Salem ought to be in every garden and small vineyard. Price, 1 year, each, 20c; dozen, \$2.25; 2 years, each, 25c; dozen, \$2.75.

RASPBERRIES

CARDINAL

One of the most vigorous growers and one of the hardiest of all the raspberries. In fact, it is considered one of the very best purple berries. The best proof of this is that nearly all growers discard the other purple varieties after the Cardinals are once established. They produce a fine quality of dark red or almost purple berries through a long season. Of very fine quality for family use.

CUMBERLAND

The fruit of this variety is largest of all the black caps; firm, a good shipper, and one of the most profitable as a market berry. Very choice black cap.

CUTHBERT

Considered the queen of the market, as they bring a higher price on the market than any other of the red raspberries. The fruit is large, dark, crimson, firm sweet rich, highly flavored and as beautiful as strawberries. This is one of the hardiest of the red raspberries and endures the extreme northern climates or the southern summers with equal vigor and productiveness.

GOLDEN QUEEN

Rich golden yellow; flavor of highest quality; very productive.

GREGG

Known for many years by more people than is any other raspberry on the market. Large, showy, black, firm, and will ship well. Hardy, vigorous grower. Ripens about midseason.

Miller's Red

HAYMAKER

Very large, firm berry, good shipper, and one of the best for home use. A lighter red than the Cardinal. Plants are very hardy and a good crop may be depended upon each year.

KANSAS

Plants are strong, vigorous grower will stand extremes of drought and cold weather and still bear large crops. These will grow with less care than any others of the "tip" varieties.

MILLER'S RED

A very healthy grower that bears a good quality of bright red berries throughout the entire raspberry season. In fact during some seasons, they bear fruit as late as August. An excellent shipper.

ST. REGIS

This new raspberry of recent introduction stands in a class alone. It will produce fruit from June until the berries freeze in the fall or early winter. The fruit begins to ripen very early and continues on the new canes throughout the remainder of the summer and fall months. Berries are a bright crimson, good size, rich, sugary, with excellent raspberry flavor. Flesh firm and meaty, a good shipper. Canes stocky, of strong growth, with an abundance of dark green leathery foliage. St. Regis is a heavy bearer and has proven one of the most profitable of the red varieties, also a producer of fruit during the summer and fall. 10c each; 12 for 75c; 100 for \$4.00.

St. Regis

SELECT BLACKBERRIES

The Blackberry thrives well in almost any soil but to reach perfection demands a strong loam tending towards clay, rather than sand. In many parts of the country, winter protection is a necessity, and often adds greatly to the yield where not considered really essential. The blackberry, as a rule, outyields all other members of this family and is usually one of the most profitable to grow when properly managed, providing the climate conditions are favorable. Planting is best done in the spring. The pruning of the blackberry is not a difficult task, yet success depends upon the proper method. Pinch back canes when 3 or 4 feet high. It is best not to allow more than 3 or 4 canes to a hill.

AGAWAM

Fruit medium size, jet black, sweet and tender to the core; a valuable variety for home use, being sweet as soon as black.

BLOWER

Originated in the celebrated small fruit belt of Chautauqua Co. N. Y. where it has been thoroughly tested for several seasons. Claimed to be the hardiest, most productive, finest quality, and to bring on the market the highest price of all blackberries. Large size, jet black, good shipping properties, best quality, and unexcelled productiveness are main features of this splendid new sort.

EARLY HARVEST

Best easily grown blackberry in cultivation. Fruit firm, good quality; excellent shipper, good market variety. Needs some protection in winter.

ELDORADO

This is a comparatively new variety, and has proven itself to be the best of all blackberries under cultivation. After once fruiting, Eldorado berry growers discard almost all other varieties which they have. It is very hardy, claimed to have no equal in this respect. Fruit very large, jet black, good shipper, good quality, and a great producer.

SNYDER

Very hardy, great producer, medium size, one of best known varieties, succeeding wherever planted. Over-production is its greatest fault.

TAYLOR

Berries of fine flavor, larger than Snyder, canes of vigorous growth, iron-clad hardness, and wonderfully prolific. Ripens late.

Early Harvest

\$20.00. Plant
spring or fall, 5
to 7 feet apart.

Blowers Blackberries

LUCRETIA DEWBERRIES

The fruit is very large and always at a premium with the commission men or the open market. If they are planted where they can be cultivated, they should be plowed, and in the winter a coarse litter of mulch thrown over them. The vines will grow up through this and keep the fruit from the ground. We are only offering one variety which is considered the best of all Dewberries now in cultivation. Fruit of high quality and very large, often one or two inches long and one inch in diameter. Perfectly hardy and a great bearer. 10 plants for 50c; 100 plants \$3.00; 500 for \$12.00.

RHUBARB

Plants 10c each; 10 for 75c; 100 for \$5.00.

LINNAEUS—Leaf-stalks long, large, tender, juicy, produced quite early. Cellar-grown rhubarb with beautifully pink, tender stalks may be enjoyed in March by anyone who will devote a little time to it. In the fall a number of roots are packed together with rich soil in some cool, dark cellar. After the crop has been cut, the roots are replanted in the garden to regain their vigor for the next year's forcing.

ASPARAGUS PLANTS

Price 25 for 75c; 100 for \$2.50; 1000 for \$10.00.

It is not necessary to tell the good qualities of the asparagus, as it is known to everybody. Dig up the ground deep, put on plenty of well-rotted manure, thoroughly mixed in the soil, throw out a bed about four to five inches deep, lay the plants in by spreading the roots out well, and scatter the dirt over the plants about four inches, or the depth of the ground thrown out, press the dirt well around the plant by patting it down with a spade or shovel. Keep the crown of the asparagus cut regularly so it will not get too large and woody.

CONOVER'S COLOSSAL—Really colossal. Deep green shoots from one to two inches in diameter are sent up thickly from the crowns.

PALMETTO—In large markets this asparagus brings the highest prices on account of the size, and beautiful appearance of its stalks. Some years it is on the market several days before other varieties.

Lucretia Dewberry

Palmetto Asparagus

STRAW- BERRIES

Strawberries are so well known and generally grown that it is hardly necessary to give much space to descriptions. If interested in knowing about the culture of strawberries, we will be pleased to send our booklet, "What, Where, When and How to Plant," which tells about preparing bed, cultivation, etc. We will only give here a few notes of general importance.

Ground must be well drained. Ground must be well prepared. Plant in spring—always the best time. Generous supply of well-rotted manure is a great benefit. Protect plants when received from nursery; never allow roots to be exposed to the sun or wind. Plant in rows four feet apart and eighteen to twenty-four inches apart in row. Crown of plant should never be below surface of ground.

NOTE—All varieties marked Imp. should be planted with other varieties marked Per. to fertilize the blossoms. Good crops of those marked Per. can be grown when planted alone.

LIST OF VARIETIES

AROMA (Per.)—One of the finest for long-distance shipping. The large berries are bright red to the center. Of conical shape, with prominent yellow seeds that help to make them very attractive on the market. The quality is such that it is a leader with many growers.

BRANDYWINE (Per.)—A well-known variety that has proven very successful wherever planted. Produces immense quantities of large, very fine deep red berries that have a delightful flavor. The bright yellow seeds make a fine color contrast with the beautiful red fruit. This is one variety that has been a favorite in most all of the states east of the Rocky Mountains and also on the Pacific coast. The foliage of this variety is very large; the fruit stems strong and erect, holding the large berries well off the ground. We can freely recommend this as being one of the very best berries.

Brandywine

**WE HELP PAY EXPRESS
SEE ORDER BLANK**

BUBACH (Imp.)—This variety has never failed to win a reputation wherever planted. It is famous for its beautifully colored, large berries and mammoth crops. It is a leader among the money makers, an old, well tested variety that has never failed.

GANDY (Per.)—Another old favorite. Its popularity, instead of decreasing, is steadily increasing. The fruit is dark red with dark red seeds. A very late berry that does best on a heavy clay soil. Considered one of the best by shippers.

HAVERLAND (Imp.)—On account of the hardness, wonderful productiveness of the plants, and the general appearance, good shipping qualities, and excellent flavor, this berry continues to grow in popularity. It has always proven to be one of the best varieties planted, thrives best with the Senator Dunlap as fertilizer.

UNCLE JIM (Per.)—Is a strong grower that bears large fruit of a rich color. One of the best for canning; a good market variety and a good shipper. Heavy producer. Every strawberry patch should contain some of this variety.

SENATOR DUNLAP (Per.)—The demand for this variety has been increasing steadily, as it has an unusually long fruiting season. It bears immense quantities of large, handsome, rich, fine-flavored, dark red berries, which are uniform in size and shape and very attractive in appearance. The demand for this variety among fruit growers shows that it is coming to the front as one of the best.

Senator Dunlap

Aroma

PRICES

Sold Only in bunches of 25 or Over. Price per 100, \$1.50; Per 500, \$6.00; 1,000, \$8.50. Plant 1 to 1 3/4 feet in rows 4 feet wide.

EVERBEARING SORTS

PROGRESSIVE—The first successful Everbearing variety to be introduced and is grown more extensively than any other Everbearing variety. It is a sure cropper from spring until snow flies. The plants are large, long rooted, and great drought resisters. The foliage is spreading, healthy, and vigorous. The berries are medium large, uniformly conical in shape, and a beautiful dark red clear to the center. 25 plants for \$1.00; \$3.00 per 100.

CHAMPION—A new Everbearing variety which very closely resembles Progressive. In manner of growth it is identical with the Progressive except that the fruit stems are more erect and less hidden by the foliage. It also makes more runners than the Progressive. 25 plants for \$1.00; \$3.00 per 100.

VEGETABLE SEED DEPARTMENT

GREEN POD AND WAX BEANS

Ball Head Cabbage

BURPEE'S BUSH LIMA—This is the earliest of the bush Limas. It is a tremendous yielder, grows only 18 inches high. Excellent quality. Big packet, 10c; ½ lb., 30c; 1 lb., 50c; 5 lbs., \$2.25, postpaid.

BURPEE'S STRINGLESS GREEN POD—This is the best stringless green pod variety in existence. It is well flavored, a great yielder. Big packet, 10c; ½ lb., 25c; 1 lb., 40c; 5 lbs., \$1.85, postpaid.

BOUNTIFUL—One of the best all-around bush beans in cultivation. Very hardy. The flat green pods are strictly stringless. Pkt., 10c; ½ lb., 25c; 1 lb., 45c; 5 lbs., \$1.80 ppd.

FORDHOOK BUSH LIMA—This new dwarf form of the Potato Lima grows stiffly erect, bearing the pods well above the ground. The pods measure 4 to 5 inches and are juicy and sweet in flavor when cooked. Pkt., 15c; ½ lb., 30c; 1 lb., 55c, postpaid.

GIANT STRINGLESS—The pods are nearly round and in color a light green. Pkt., 10c; ½ lb., 25c; 1 lb., 45c; 5 lbs., \$1.80, postpaid.

KING OF THE GARDEN—Best of the Lima pole varieties. A strong grower and large podded. Pkt., 10c; ½ lb., 25c; 1 lb., 45c, postpaid.

PENCIL POD BLACK WAX—A very fine wax bean of true bush growth, bearing an enormous crop of pods, the beans measure 6 to 7 inches in length. Early maturing of a bright golden yellow color. Pkt., 10c; ½ lb., 25c; 1 lb., 40c; 5 lbs., \$1.60, postpaid.

OLD HOMESTEAD OR KENTUCKY WONDER—It is an enormous producer, the long pods hanging in great clusters along the entire vine. Seed dark brown. Price: Big packet, 10c; ½ lb., 25c; 1 lb., 40c; 5 lbs., \$1.85 postpaid.

IMPROVED GOLDEN WAX (40 days)—One of the earliest wax beans. It is stringless, thick and pods are of good length. Price: Big packet, 10c; ½ lb., 25c; 1 lb., 40c; 5 lbs., \$1.85, postpaid.

BEETS

CROSEY'S EGYPTIAN—One of the most popular varieties with gardeners because of its fine shape and beautiful color. This variety matures before any other. Packet, 5c; 1 ounce

dark red, almost black color. Packet, 5c; 1 ounce, 15c; ½ lb., 50c, postpaid.

DETROIT DARK RED—An ideal beet for home use. Is a heavy yielder and fine keeper. Grows to uniform size. Is ideal for pickling. Price: Packet, 10c; 1 ounce, 15c; ½ lb., 45c postpaid.

EARLY BLOOD—A globe-shaped beet, fine for early spring crop, flesh tender, rich and crisp. This variety has coarse tops and is one of the best. Packet, 5c; 1 ounce, 15c; ½ lb., 50c, postpaid.

CARROTS

CHANTENAY—Rich orange color; flesh crisp, tender and of an extra delicious flavor. Packet, 5c; 1 oz., 20c; ¼ lb., 60c, postpaid.

DANVERS HALF LONG—An excellent table carrot of uniform size, about 6 inches long. The flesh is a rich orange color throughout. Pkt., 10c; 1 oz., 20c, postpaid.

GUERANDE OR OX HEART (75 days)—Short, chunky variety; flesh is a bright orange color, fine grained and of good flavor, a favorite. Packet, 5c; 1 oz., 15c; ½ lb., 55c, postpaid.

CAULIFLOWER

EARLY SNOWBALL (90 days)—Earliest, sure to head; if seed is sown in March, large heads produced early in June. Good variety for forcing. Pkt., 10c; ¼ oz., 80c; ½ oz., \$1.50, postpaid.

DRY WEATHER OR DANISH GIANT (100 days)—Late variety, drought resister, sure heads, best for pickling. This variety withstands dry weather better than any other sort; heads large, very solid, snow-white, and of the most delicate flavor. Pkt., 10c; ¼ oz., 80c; 3-4 oz., \$1.50 postpaid.

CABBAGE

HOLLANDER OR BALLHEAD—The heads are of medium size and very solid, they average in weight nearly 8 pounds. They are just as solid in the spring as when put away in the fall. Pkt., 5c; 1 oz., 35c; ¼ lb., 95c, postpaid.

EARLY JERSEY WAKEFIELD—This is the earliest and hardiest heading of the early varieties and should be depended upon for the first crop. Our seed is selected, choice stock. Pkt., 5c; 1 oz., 30c; ¼ lb., 85c, postpaid.

PREMIUM LATE FLAT DUTCH—This is considered to be the best of the late standard varieties. It is a sure header, good keeper. Pkt., 5c; 1 oz., 35c; ¼ lb., 85c, postpaid.

CELERY

WHITE PLUME—One of the earliest and quickest growing varieties and the most crisp of all. It has white feather-like plumage making it a great table ornament. Price: Packet, 5c; ½ oz., 40c; 1 oz., 75c, postpaid.

GOLDEN SELF-BLANCHING—This is finest quality seed and as its name implies it is entirely self blanching. The stocks are a rich golden color, stringless and of the finest flavor. Price: Packet, 10c; ½ oz., 60c; 1 oz., \$1.00, postpaid.

Chicago Pickling Cucumber

Golden Wax Bean

SWEET CORN

GOLDEN BANTAM—This variety for the last twenty years has been considered the standard variety of all sweet corn in cultivation, the flavor is exceptionally sweet. Big packet, 10c; ½ lb., 20c; 1 lb., 35c; 5 lbs., \$1.50 postpaid.

STOWELL'S EVERGREEN—This is an old popular variety, hardy, productive, tender and sugary. Big packet, 10c; ½ lb., 20c; 1 lb., 35c; 5 lbs., \$1.50, postpaid.

COUNTRY GENTLEMAN—This is sometimes known as shoe-peg from the small peg-like kernels, irregularly placed on the cob giving great depth to the kernels. Big packet, 10c; ½ lb., 20c; 1 lb., 35c; 5 lbs., \$1.50 ppd.

VEGETABLE SEEDS CONTINUED

ONIONS

Danvers Yellow Globe

SOUTHPORT WHITE GLOBE—This variety gets highest market price. Good shaped with clear white skin. Price, big pkt., 5c; 1 oz., 20c; ¼ lb., 85c, postpaid.
DANVERS YELLOW GLOBE—A well known and standard variety, heavy cropper and excellent keeper. Will ripen early and very firm and solid. Big pkt., 5c; 1 oz., 20c; ¼ lb., 85c, postpaid.

PRIZETAKER (100 days)—The largest but also latest maturing. A yellow, American onion, globular in shape with light yellow color. Big pkt., 5c; 1 oz., 20c; ¼ lb., 85c, postpaid.

LETTUCE

BLACK SEEDED SIMPSON—The best known and perhaps the most used of any other variety of leaf lettuce. It is very early and hardy with thick curly and very tender leaves. Pkt., 5c; 1 oz., 15c; ¼ lb., \$1.00, postpaid.

GRAND RAPIDS—One of the best forcing varieties, but will do equally well outdoors. Similar to the Black Seeded Simpson only the leaves are more crimp and curled. Price, pkt., 5c; 1 oz., 15c; ¼ lb., 90c, postpaid.

BIG BOSTON—The most popular variety of head lettuce both North and South. Heads are large and compact, light green with slightly ruffled edges. Pkt., 10c; 1 oz., 20c; ¼ lb., \$1.20, postpaid.

PRIZE HEAD—Color bright green, is tinged with brownish red. It is of superb flavor, tender and hardy. Pkt., 5c; 1 oz., 15c; ¼ lb., 90c, postpaid.

PEAS

LITTLE GEM—This is an extra early, wrinkled pea, grows about 15 inches high and is a prolific bearer. Big pkt., 10c; ½ lb., 25c; 1 lb., 40c; 5 lbs., \$1.85, postpaid.

FIRST AND BEST—The pods of this variety are filled with round, smooth peas of excellent flavor. Grows to the height of 2½ ft. Big pkt., 10c; ½ lb., 25c; 1 lb., 40c; 5 lbs., \$1.85, postpaid.

MAMMOTH MELTING SUGAR—This is the best known edible podded pea. The vines reach a height of 6 to 7 feet. They are broken in pieces the same as stringless beans and make a delicious dish. Pkt., 10c; ½ lb., 35c; 1 lb., 50c, postpaid.

AMERICAN WONDER—Early wrinkled pea, growing up to 12 inches high, and producing well filled pods of the finest flavor. Big packet, 10c; ½ lb., 30c; 1 lb., 55c; 5 lbs., \$2.50, postpaid.

TELEPHONE—Pods are 4 to 5 inches long with a fine quality of peas. Grows to a height of about four feet. Price: Big pkt., 10c; ½ lb., 25c; 1 lb., 40c; 5 lbs., \$1.85, postpaid.

EGG PLANT

BLACK BEAUTY—This is a very handsome early and prolific variety. The fruit matures very early and is very beautiful. Pkt., 10c; 1 oz., 45c; ¼ lb., \$1.25, postpaid.

NEW YORK IMPROVED PURPLE—The fruit of this variety is remarkably large, often weighing from 5 to 6 lbs. The skin is deep purple. Pkt., 5c; ½ oz., 40c; 1 oz., 70c, postpaid.

KOHL RABI

EARLY WHITE VIENNA—A useful cousin of the cabbage, in flavor very much like a turnip. Pkt., 5c; 1 oz., 30c; ¼ lb., \$1.00, postpaid.

ENDIVE

LARGE GREEN CURLED—Endive is very useful as a salad late in the year. Leaves are also eaten boiled and are very good. Price: Pkt., 5c; 1 oz., 15c, postpaid.

PARSNIPS

HOLLOW CROWN (85 days)—The roots are very long and end abruptly with a tapered root. Pkt., 5c; 1 oz., 15c; ¼ lb., 50c, postpaid.

MUSKMELLON

BENDERS SURPRISE—The Bender melon ripens medium early. Flesh deep orange color, very thick, deliciously sweet and of high flavor. These melons will keep a week after picking and will stand shipping better than any other variety of melon. Pkt., 10c; 1 oz., 25c; ¼ lb., 70c.

OSAGE—Perhaps the most popular salmon fleshed variety grown; very thick and meaty, excellent sweet flavor. Pkt., 5c; 1 oz., 15c; ¼ lb., 55c, postpaid.

HONEY DEW—New melon; has become very popular. About 10 inches long, 8 inches diameter; very sweet. Pkt., 5c; 1 oz., 15c; ¼ lb., 50c, postpaid.

TIP TOP—Very productive melon, medium to large size, nearly round. Pkt., 5c; 1 oz., 15c; ¼ lb., 50c, postpaid.

CUCUMBER

IMPROVED LONG GREEN—One of the long varieties used for slicing. Its dark color makes it desirable for marketing. When mature will measure 12 inches in length. Pkt., 10c; 1 oz., 25c; ¼ lb., 50c, postpaid.

CHICAGO PICKLER—Best known pickling variety and is generally used by all big pickling factories. Pkt., 5c; 1 oz., 15c; ¼ lb., 40c, postpaid.

IMPROVED WHITE SPINE (55 days)—Rich green, very productive, continuous bearer. Pkt., 5c; 1 oz., 15c; ½ lb., 45c, postpaid.

EARLY FORTUNE—Probably best and finest introduced. Mature fruit averages 8 ins. in length. Seed cavities very small; vines very generous and disease resisting. Pkt., 5c; 1 oz., 20c; ½ lb., 60c, postpaid.

Pea, Little Gem

Black Beauty
Egg Plant

Muskmelon Osage

VEGETABLE SEEDS CONTINUED

PEPPERS

MAMMOTH RUBY KING—The blocky almost scarlet fruits aver-
4½ inches in length. Pkt., 5c; ½ oz., 35c, postpaid.

CHINESE GIANT—The largest of all the peppers. Grows from
four to five inches across. Fruits are of a thick, chunky form. Fine
for stuffing. Pkt., 5c; ½ oz., 35c, postpaid.

WATERMELONS

HALBERT HONEY—A medium early melon and can be success-
fully raised in the northern states. One of the best for home use.
Pkt., 5c; oz., 10c; ¼ lb., 25c, postpaid.

KLECKLEY'S SWEET—Skin is rich dark green and the flesh
is a bright scarlet and ripens very close to the rind. Pkt., 5c; 1
oz., 15c; ¼ lb., 45c, postpaid.

COLE'S EARLY—The flesh is bright red, crisp, sweet and of fine flavor,
but solid. Pkt., 5c; 1 oz., 15c; ¼ lb., 50c, postpaid.

SQUASH

HUBBARD—This is a favorite because of its many good qualities. Bakes or
boils dry and is very sweet. An excellent market variety. Pkt., 5c; 1 oz., 15c;
¼ lb., 65c, postpaid.

RADISH

CINCINNATI MARKET—Very fine extra early variety
bright red and transparent. Has long smooth root.
Packet, 5c; 1 oz., 15c; ¼ lb., 45c, postpaid.

WHITE ICICLE—This radish grows about 4 inches long,
transparent white with short leaves. Packet, 5c; 1
oz., 15c; ¼ lb., 45c, postpaid.

SCARLET GLOBE—This is the most quickly matured
variety. Packet, 5c; 1 oz., 15c; ¼ lb., 50c, postpaid.

SCARLET TURNIP WHITE TIP—An early variety.
The best of the round varieties. Pkt., 5c; 1 oz., 15c;
¼ lb., 50c, postpaid.

CHINA ROSE OR SCARLET CHINA—Of medium
size, 4 to 5 inches long. Free from any hard fiber or
strings. Easily stored for winter. Pkt., 10c; oz., 20c;
4 oz., 45c.

FRENCH BREAKFAST—Extremely early, olive shap-
ed, scarlet with white tip. Crisp when young. Pkt., 5c;
oz., 10c; ¼ lb., 25c; lb., 85c; 5 lbs., at 75c.

SALSIFY OR VEGETABLE OYSTER

SANDWICH ISLAND—Often called the oyster plant
and is one of the most delicious and nutritious of vege-
tables. Look something like parsnips. Pkt., 5c; 1 oz.,
35c, postpaid.

PUMPKINS

SUGAR OR PIE—This is a handsome and very prolific
variety, good keeper, sweet in taste. Pkt., 5c; oz., 15c;
¼ lb., 35c, postpaid.

JAPANESE PIE—A crook-necked variety, deep green
with darker stripes, which turn to a rich golden yellow.
Pkt., 10c; oz., 20c; ¼ lb., 50c.

SPINACH

BLOOMSDALE—Leaves are crumpled and very hardy.
Pkt., 5c; oz., 15c, postpaid.

Early Snowball Turnip

TOMATOES

JOHN BAER—Grows to a very large size, free from
core and is an attractive bright red. Pkt., 10c; oz., 40c;
¼ lb., \$1.25, postpaid.

PONDEROSA—In addition to its enormous size this to-
mato is very solid as it has but few seeds. Pkt., 10c; oz.,
60c; ¼ lb., \$2.00, postpaid.

SPARK'S EARLIANA—Remarkable for its earliness,
large size. Leading early market variety. Pkt., 10c; oz.,
40c; ¼ lb., \$1.25, postpaid.

STONE—Fine tomato for main crop, for market or can-
ning. Fruit perfectly smooth, of a beautiful red color
and very large. Pkt., 10c; oz., 40c; ¼ lb., \$1.25, ppd.

TURNIPS

PURPLE TOP STRAP LEAVED—One of the most
popular sorts. It is purple or dark red on top with a
white base. Pkt., 5c; 1 oz., 15c; ¼ lb., 40c, postpaid.

EARLY SNOWBALL—This pure white variety that
is very popular, is considered one of the best white early
turnips grown. Pkt., 5c; 1 oz., 15c; ¼ lb., 40c, postpaid.

PURPLE TOP WHITE GLOBE—This is the most
popular turnip grown. Of globular shape. It is early,
of rapid growth and an excellent keeper. Pkt., 5c; 1 oz.,
15c; ¼ lb., 40c, postpaid.

PARSLEY

DWARF MOSS CURLED—A compact growing and
beautifully curled variety, to be used for either outdoors
or greenhouse culture. Pkt., 5c; oz., 15c; ¼ lb., 60c, ppd.

POP CORN

PERFECTION—A new variety of the Rice Pop Corn;
matures very early, medium rice size; kernels deep flesh
white; very prolific and of excellent quality. Pkt., 5c;
½ lb., 15c; 1 lb., 25c.

FLOWER SEEDS

Everybody loves flowers and we honestly believe that in no other way can you procure as much flower pleasure and satisfaction, and at such a trifling cost as you can by ordering seeds from this department.

ANTIRRHINUM

(Snapdragon)

An exquisite showy hardy perennial, that is living for a second and third year, blooming in July if sown early and then on until killed by frost. Among the most showy and brilliant border plants; succeeds in any good garden soil. By cutting off most of the flowering stems and giving a slight protection over Winter, plants will bloom second Summer for four months. Try a few this way. For cut flowers with stems kept in water, Snapdragons retain their fresh appearance for ten days, and in this particular they are very valuable as table decorations. Very easy to grow. Postpaid.

Snapdragon

CALLIOPSIS OR COREOPSIS

(Large Flowered Mixed)—One of the easiest grown of the garden annuals. These new sorts form perfect little bushes about 10 inches high by 1 foot across and are a perfect mass of bloom from early summer until cut down by frost. Flowers range in color through yellow, golden and crimson colors, price, Pkt., 5c; 3 pkts., for 10c, postpaid.

BALSAM

CAMELLA OR LADY SLIPPER—Not only one of the most beautiful flowers, but also one of the easiest to grow. The branches make perfect pyramids of bloom and under good conditions carry as many as 500 blooms to the plant. They are strained and are of the most gorgeous colors and a bed of these is truly a remarkable sight. Price: 5c; 3 pkts., 10c, postpaid.

COCKSCOMB

A very attractive annual. The crested heads of flowers resemble a cock's comb. The plumed heads are like great feathers. Sow the seed directly in the garden or start early and transplant. Price: Pkt 10c; 3 pkts., 25c, postpaid.

American Beauty, White

Alyssum

SWEET ALYSSUM

A fine old fashioned flower appreciated by everyone, especially by those requiring a good pure white edge to their garden or a good plant for rock work or hanging baskets. Price, pkt., 5c; 3 pkts., 10c, ppd.

Calliopsis

Cockscomb

QUEEN OF THE MARKET

These asters are the first of all asters to bloom and are excellent for cutting. Mixed colors, Pkt., 10c, 3 for 25c.

NOTE

Seeds loose their vitality and germination rapidly. Therefore we use only fresh seeds each year. Without good seeds you cannot have good flowers. Be safe. Order from this catalog.

EVERLASTING FLOWERS**STRAW FLOWER**

—One of the best of the "everlastings." They succeed in any good garden soil. The large, double flowers of rich, glittering colors make a fine display in beds or borders, but are especially grown to dry for winter use in baskets, vases, etc. Large pkt., 10c; 3 pkts., 25c postpaid.

LARKSPUR

DWARF ROCKET—One of the easiest flowers to grow and certainly one of the prettiest. It is the Annual Delphinium, grows 1½ to 2 feet high. It is especially fine for cut flowers and produces blue, rose, white, pink, carmine and purple flowers. Do not miss the real pleasure to be derived from these beautiful plants. Price: Pkt. 5c; 3 pkts., 10c, postpaid.

FLOWER SEEDS—CONTINUED**BACHELOR'S BUTTON**

They bear their artistic flowers on long stems and will last a long time after being cut making it an ideal plant for cut flowers. Price: Pkt., 5c; 3 pkts., 10c, postpaid.

COSMOS

NEW DOUBLE FLOWERING—The best variety of the cosmos and blooming early. The flowers are full double and crested. Mixed colors. Pkt., 20c; 3 for 50c.

CHRYSANTHEMUMS

Of all the annuals these pretty flowers perhaps hold the leading position. They are beautiful in beds and borders and good for window boxes or cutting. They also make useful pot plants and when used for this purpose they should be sown under glass or indoors. They grow to a height of 1 to 1½ feet. Pkt., 5c; 3 pkts., 10c, postpaid.

CANDYTUFT

WHITE ROCKET—One of the oldest annuals in existence and more popular than ever. It grows from 4 to 5 inches high, which makes it an exceptionally fine border plant. It is perfectly hardy, easily grown, extremely fragrant. Is splendid for cut flowers which the plants produce in wonderful profusion throughout the whole season. Pkt., 5c; 3 pkts., 10c, postpaid.

HELIOTROPE

Both the flowers and foliage of this plant are deliciously fragrant. They are easily raised from seed and spring planting will give you fine summer blooming plants. Are very good for cut flowers. Price: Pkt., 10c; 3 pkts., 25c, postpaid.

KOCHIA

CYPRESS or MEXICAN FIRE BUSH—This splendid annual plant grows very quickly from seed sown in the open ground, as soon as weather permits in the spring. These plants also make attractive globe-shaped bushes as large sometimes as 3 ft. high and 2 ft. across. Leaves are slender and are a light pea green color until September, when they become carmine or blood red in color. At the same time the ends of branches are thickly set with small bright scarlet flowers and produces a very striking effect. Price: Pkt., 5c; 3 pkts., 10c, postpaid.

Larkspur

Chrysanthemum

Giant Ruffled Petunia. See page 59

HOLLYHOCKS**DOUBLE FLOWERING**

— This is comparatively a new variety and flowers very quickly from seed. Plants from seed sown in May will bloom in July and will flower profusely until frost. They are very beautifully formed and there is a great variety of colors, including maroon, pink, rose, crimson, white and scarlet of daintly and exquisite blending. Pkt. 10c; 3 pkt., 25c, postpaid.

Hollyhocks

FLOWER SEEDS—CONTINUED

LOVE IN A MIST

NIGELLA—This beautiful annual is very pretty, interesting and easy to grow. The foliage is fine and feathery and the a border resembling green lace. They are very good for cut flowers are most in shades of blue and are surrounded by flower purposes. Price: Packet, 5c; 3 pkts., 10c, postpaid.

MOON FLOWER

MOON VINE—This is a splendid annual climber of most rapid growth. It has beautiful flowers of various colors. Often grows 30 feet in a year. It blooms on cloudy days and at evenings. Good for terraces, verandas and for covering unsightly objects. The seed should be soaked in water 34 hours and a notch cut in the end of the seed before planting. Price, 10c; 3 pkts., 25c, postpaid.

AFRICAN MARIGOLD

The old fashioned favorites are annuals of the easiest cultivation. This type is the enormous flowered one, blooming very large in showy orange or lemon shades. The flowers are

as regular and perfect as the Dahlia. For a garden display during the summer and fall nothing can surpass it. Orange—Large, very double flowers. Lemon—Large, very double flowers. Price, Pkt., 10c; 2 for 15c.

Marigold African

MORNING GLORY

JAP GIANT FLOWERING—The flowers of this variety are of enormous size with beautiful colorings and markings that are quite beyond description. They include every shade and color from snow white to deep purple. Price, pkt., 5c; 3 pkts., 10c, postpaid.

MIGNONETTE

Our Mammoth Flowering Mignonette is much superior to the common variety so often bought in the stores. Flowers are magnificent bright red, extremely showy, enormous size, foliage beautiful rich green. Splendid for cutting; will remain fresh and fragrant 10 to 12 days in the house. Price, pkt., 5c; 3 pkts., 10c, postpaid.

NASTURTIUMS

GIANT FLOWERING TALL—This fine strain contains a wealth of color, from crimson and rose to yellow, orange, white, spotted, etc. Very fine for bedding. Pkt., 5c; 1 oz., 15c; ¼ lb., 40c, ppd.

GIANT FLOWERING TOM THUMB—Very best dwarf nasturtium and are among the easiest plants to grow. They reach a height of 10 inches to 1 foot, are completely covered with mammoth flowers measuring from 2 to 3 ins. across. Pkt., 5c; 1 oz., 15c; ¼ lb., 40c, postpaid.

SCABIOSA OR MOURNING BRIDE

An old-fashioned but most attractive flower. Its

great abundance and long succession of richly colored, fragrant blossoms on long stems make it one of the most useful decorative plants of the garden. Desirable for cutting as well as for beds and borders. Flower heads about two ins. across; florets double, surrounding the thimble-shaped cone, giving a fancied resemblance to a pin cushion.

DOUBLE MIXED—Colors include deep and light purple, scarlet, pure white and dark mulberry. Pkt. 10c; 3 for 25c.

Mignonette

MARVEL OF PERU

FOUR O'CLOCK—This old time free flowering garden favorite does well in any soil and under almost all conditions. Produces large flowers of many brilliant colors which are at their best during the afternoon when the flowers are fully expanded. Height 2 feet. Pkt., 5c; 3 pkts., 10c, postpaid.

Mourning Bride

Nasturtiums

Morning Glory

FLOWER SEEDS—CONTINUED

PHLOX

PHLOX DRUMMONDI—An improved giant flowering mixture of Phlox Drummondii. Contains every shade of color and is without doubt the best mixture that can be bought. Be sure to include some of these old favorites in your order. Pkt. 5c; 3 pkts., 10c, postpaid.

PORTULACA

MOSS ROSE—This charming little hardy annual is unrivaled for brilliancy. Nothing is prettier for beds, edging and rock-work, and it is frequently used to sow broadcast over sunny banks, etc., as an undergrowth for taller plants is also valuable. The flowers are of the richest colors and will bloom from July until frost. Stands dry weather. Price: Packet, 5c; 3 pkts., 10c, postpaid.

Phlox Drummondii -

EVENING PRIMROSE

OENOTHERA—This delightful little plant is getting to be better known in the garden and few people who have grown it would make their garden without at least a small bed or short border of it. The place to grow it is in a sunny spot where it will bear its large saucer shaped white and yellow flowers the greater part of the summer. These open at dusk and are very fragrant. Pkt., 10c, 3 pkts., for 25c.

Evening Primrose

SALPIGLOSSIS

—Annual, about 18 inches high, bearing throughout the season large flowers of many beautiful colors all exquisitely veined and laced; mixed. Pkt., 5c; 3 for 10c.

PETUNIAS MODEL MIXED

No other annual requires as little care as the Petunia, and yet rewards the gardener with such an enormous mass of gay blooms from June until November. Petunias are easily grown from seed sown early in the spring when the trees are starting out in leaf. For extra-early blooming the seed should be started indoors in boxes or pots early in March. Pkt., 10c; 3 for 25c.

RUFFLED—It is well known that seed saved from the most carefully hybridized flowers produces but a small percentage of double flowers, the balance being singles of unusually fine quality. The weaker seedlings should be carefully saved, as these invariably produce the finest double flowers. One of the finest strains in existence. The double flowers are very large, full and beautifully formed, with the edges of the petals elegantly fringed. Price, pkt. 10c; 3 pkts., 25c.

RICINUS

(Caster Oil Plant)—Rapid growing plants with palm-like foliage and showy fruits. Used with decorative effect, planted singly on the lawn or in the center of a Canna or Caladium bed. 6 to 15 feet. Mixed, all the plain and fancy sorts; tender annual. Pkt., 5c; 3 pkts., 10c.

POPPIES

SHIRLEY OR GHOST POPPIES—It is impossible to do these flowers full justice in a description. This is a wonderful strain of single poppies which often attain a size of four to five inches across. Individual flowers are exquisitely colored, ranging from pure white to deep blood red. Packet, 5c; 3 packets, 10c, postpaid.

Pansy

PANSY

GIANT BUTTERFLY — This is the largest flowering Pansy in the world and is a superb mixture of the best types in every known class. Will produce enormous blooms. These flowers thrive best in cool, moist soil, which should be enriched by well-decayed manure or ground bone meal. Where extra large blooms are desired, pinch off all but one or two to the plant. Pkt. 15c; 3 pkts. 35c, ppd.

Shirley Poppies

Salvia

Spencer Sweet Pea

FLOWER SEEDS—CONTINUED

SPENCER SWEET PEAS

The Spencer Type is without doubt the most wonderful class of Sweet Peas in existence. The flowers freely and continuously produced throughout the season are also correspondingly large, measuring 2 to 2½ inches across. The wings are large and gracefully posed, while the giant standards round and upright are frilled. The undulation diminishing fanlike into dainty waves at the margin. The effect of which is high lights and shadings, giving a harmony of varied color tones. Three and often four of these queenly blossoms are borne on a strong stem nearly a foot in length, rendering them unsurpassable when cut and vased. They are also ideal for bouquets. This is the grandest type of Sweet Peas grown and we are anxious to place them within the reach of all our customers. We have therefore decided to offer them in collection form at a special low price; usually they are sold at 10c to 15c per small packet; our price is 60c for a collection of 9 of the best known and most beautiful of the Spencer type. You can't beat this offer anywhere.

Price any of varieties below: 10c per pkt.; oz., 40c; ¼ lb., \$1.25.

BLANCHE FERRY—The best bi-color. The standard is a real rose-pink while the wings are white, occasionally flushed with delicate pink. A big waved type of the old popular Blanche Ferry.

CRIMSON KING—A true rich crimson. Flowers are large, beautifully waved and carried on long strong stems. One of the finest crimson.

KING WHITE—A mammoth glistening white of perfect form. Not as free a bloomer as Constance Hinton, but a purer white and larger flowered.

ROYAL PURPLE—Beautiful flowers of a rich warm purple. A free grower and profuse bloomer.

MRS. TOM JONES—A bright delphinium-blue that is considered one of the best light blues. Large flowers on vigorous free-blooming vines.

MAJESTIC CREAM—A wonderful flower of rich cream color.

PRESIDENT HARDING—Flowers are a peach red color. Very distinctive.

THE SULTAN—A black velvety maroon color, very fine.

SENSATION—Rich orange scarlet, really a sensation.

SPECIAL OFFER—One each of the 9 above for 60c, postpaid.

Sweet Williams

SWEET WILLIAM

DIANTHUS—Positively one of the loveliest of flowers and there is probably no better known flower than this one. They are unequalled for color and fragrance and produce an immense wealth of bloom. A bed of these beautiful flowers will attract the attention of all who see them; for cut flowers they cannot be surpassed. Price: Pkt., 5c; 3 pkts., 10c, postpaid.

SALVIA

SCARLET SAGE—A bed or border of Scarlet Sage always attracts attention and this variety has long been a leading favorite. We know of nothing that can equal the effect of a bed of these scarlet flowers when in full bloom. We offer only the large flowered variety which produces flowers twice the size and as numerous as the old varieties. They grow to a height of about 3 feet with flowering stems from base to tip of plant. Pkt., 10c; 3 pkts., 25c, postpaid.

VERBENA

This well known annual is very desirable for massing in beds and suitable also for borders and window boxes. Large clusters of showy flowers are borne in succession throughout a long season, until frost. Valuable for bouquets and table decorations. Wide range of colors: Red, White, Purple with White Eye, Pink, Blue, Italian Striped, Mixed. All Mammoths are very beautiful.

LAWN GRASS SEED

EVERGREEN MIXTURE FOR A GOOD, CLEAN QUICK LAWN

This mixture is composed of the choicest grasses for lawn purposes, and is especially made to produce a crop of grass very quickly.

We have had, where conditions were extremely favorable, a good stand ready for the mower in 3 weeks. This mixture contains no trash and is adapted to either clay, sandy or loam soil, and should be applied at the rate of 1 pound to 300 square feet, or in the case of renovating old lawn 1 pound to 600 square feet, depending upon how thin the grass is. Price, per pound, 45c, postpaid; 4 pounds for \$1.60, postpaid by freight or express; 10 pounds at \$3.75; 20 pounds at \$7.00.

SHADY NOOK MIXTURE

Have you a lawn that is shaded by trees. If so try a few pounds of our Shady Nook Grass Mixture which is just what you need in order to raise a patch of fine, compact, velvety grass under such conditions. Shaded ground often becomes sour and in this case it would be necessary to give it an application of Crushed Limestone before seeding, applied at the rate of 25 pounds for 500 square feet. Seed at the rate of 1 pound to about 250 square feet. Price per pound, 50c; 4 pounds for \$1.80, postpaid.

WHITE DUTCH CLOVER

This is very good seed to use in renovating old lawns, especially on sandy soil, as this plant roots deeper than any other variety of grass and is not affected so much by drought. Price per pound, 75c; 3 pounds, \$2.00, postpaid.

KENTUCKY BLUE GRASS

One of the most fancy grasses that we have today. Is largely used in lawn making and starts growing early in the spring, continuing until the ground freezes late in the fall. Price per pound, 50c; 4 pounds, \$1.80, postpaid.

FANCY RED TOP

Red Top is of a quicker growth than Kentucky Blue Grass and is very desirable for Lawns. It can be used with other grasses in seeding a lawn or can be used separately. Per lb., 60c; 5 lbs., \$2.50, postpaid.

CREEPING BENT

This seed is used on Putting Greens and on private grounds where a beautiful growth is desired. It takes a long time to get established but once established fully repays the cost of seeding. Lb., \$1.75; 2 lbs., \$3.25; 5 lbs., \$7.50, postpaid.

King Humbert Canna

Candidum or Madonna Lily

says of it: "One of the most beautiful of all known lilies, the exquisite blending of tints and colors forming a charming contrast with the rich, deep-green foliage. Highly recommended for general culture both for the open ground and for pots." Our prices on Regal Lily are unusually low, one to the fact that we now have a large stock of plants for the first time since its introduction. Blooming size bulbs, 35c each; 3 for \$1.00; 12 for \$3.50.

TUBEROSES

FRAGRANT DOUBLE—The flower spikes attain a height of about 2 feet, and are compactly filled for two-thirds of their length with very large, perfectly double flowers. 1½ to 2 inches across. The flowers have the wax-like substance of a Camellia, are glistening white and deliciously fragrant. Price, 10c each; 3 for 25c; 6 for 50c; 12 for 96c; 100 for \$7.75 (25 at 100 rate).

ELEPHANT'S EAR

MAMMOTH LEAVES (Caladium Esculentum)—Very effective. The growth is very rapid, and the ground must be made rich. Watering will help develop large leaves. Bulbs can be stored in dry sand in winter and kept from year to year. A very widely grown lawn plant. Price, large bulbs, 20c each; 3 for 50c. Mammoth bulbs, 30c each; 3 for 75c.

The Cannas with their large, various-colored leaves, easily hold first place for producing a tropical effect on the lawn. Excellent effects may be secured by planting them singly or by planting in small clumps in the hardy shrubbery border. Against a heavy background of green, the bright colored, variously-marked leaves show to their best and are very attractive and interesting.

LIST OF THE BEST VARIETIES

THE PRESIDENT—Height four feet. In color, a rich, glowing scarlet and the immense firm, rounded flowers, 7 inches across when open, are produced on strong, erect stalks well above the large, rich green foliage. The "President" is superior to any other red variety in the quantity and also the quality of bloom, and the firm flowers resist drought and heat to a remarkable degree. 25c each; 6 for \$1.20.

AUSTRIA—Pure yellow with crimson markings in throat. A beautiful shade; the color of light. Four and one-half feet. 10c each; 12 for \$1.00; 100 for \$7.50.

INDIANA—Glistening golden orange flowers, with silky texture. Very attractive. 10c each; 12 for \$1.00; 100 for \$7.50.

KING HUMBERT—In this grand Italian Canna we have a combination of the highest type of flower with the finest bronze foliage. Its flowers which under ordinary cultivation will measure six inches in diameter, and which are produced in heavy trusses of gigantic size, are of a brilliant orange-scarlet, with bright red markings, while the foliage is broad and massive and of a rich coppery bronze with brownish-green markings. Five feet. 15c each; 12 for \$1.40; 100 for \$12.00.

MRS. ALFRED CONARD—Grandest flesh-pink, most striking and beautiful; height four feet. 15c each; 12 for \$1.40; 100 for \$12.00.

RICHARD WALLACE—A light shade of canary-yellow, almost an ecru, with delicate flecks of red; a lovely Canna. Four feet. 15c each; 12 for \$1.40; 100 for \$12.00.

SOUV. DE A. CROZY—Scarlet crimson bordered yellow. 15c each; 12 for \$1.40; 100 for \$12.00.

UNCLE SAM—The most stately of all Cannas; bears three or four enormous bunches of brilliant orange-scarlet flowers on each stalk. Received an award of merit from the Royal Horticultural Society of England. Six feet. 15c each; 12 for \$1.40.

JAPANESE LILIES

AURATUM (Gold Banded Japan Lily)—This variety has ever been a great favorite. The flower heads are large, with broad petals gracefully recurved. White, thickly studded crimson-maroon, with a wide gold band down the center of each petal. Improves with age, and produces a vast amount of bloom.

SPECIOSUM ALBUM—Pure white with a green band traversing the center of each petal.

SPECIOSUM RUBRUM—This is one of the joys of August; ruby spots distributed over a broad expanse of white.

TIGRINUM SPLENDENS—The dear old single "Tiger Lily."

LILIUM CANDIDUM (Madonna Lily)—This well known and much sought for lily is considered one of the choicest of the lily tribe and one of the easiest to grow. Trumpet-shaped blooms are pure white and borne in spikes on tall, rigid, leafy stems. Bulbs should be planted as early as possible in the autumn.

All Lilies, blooming size bulbs, 35c each; 3 for \$1.00.

REGAL LILY

The Sensation of the year. Charming and delicate. Regal Lily, being a native of northwestern China, is hardy. Bailey's Cyclopedia of Horticulture

Tuberoses

Caladium or Elephant's Ear

FINE DAHLIAS

We are offering our customers a special treat this year in our Dahlias. The varieties below include some very rare sorts and are really worth more than the price we are asking.

NOTICE: D. Decorative; S. Show, C. Cactus. **BIRD OF PARADISE**—S. White overlaid lavender, 20c each, 3 for 50c.

BLUE OBAN—D. Bluish lavender, 25c each, 3 for 60c.

DEE LIGHTED—S. Large white, 25c each, 3 for 60c.

DIBS—C. Pink and old gold, 20c each; 3 for 50c.

F. L. BASSETT—D. Deep lavender or purple, 25c each, 3 for 60c.

JEANNE CHARMET—D. Pale lilac, 30c each, 3 for 80c.

J. H. JACKSON—C. Velvety maroon, 30c each; 3 for 80c.

JERSEYS BEAUTY—D. Mammoth pink, \$1.00 each, 3 for \$2.00.

MAUDE ADAMS—S. White suffused pink, 25c each; 3 for 60c.

MRS. GEO. WALTERS—C. Yellow and rose, 50c each; 3 for \$1.25.

MRS. I DE VER WARNER—D. Mauve, 75c each; 3 for \$2.00.

PRIDE OF CALIFORNIA—D. Largest of the reds, 30c each; 3 for 80c.

A REAL DAHLIA BARGAIN

An assortment of Dahlias comprising a wonderful range of color and types. These tubers are not labelled by name, but are named varieties and we have arranged our stock so that we will pack no two alike in an order of 12 or less; 5 for 75c; 12 for \$1.25, prepaid.

THE BEST IN GLADIOLUS

The gladiolus adapts itself to all climates, and almost any kind of soil. It thrives beautifully among the perennials and shrubbery, but is grown to best advantage in masses or rows in the garden.

ALICE TIPLADY—Beautiful large flower, of brilliant orange-saffron. Each 10c; 12, 50c; 100, \$6.50.

AMERICA—Soft lavender pink with lighter throat. Each 5c; 12, 50c; 100, \$3.50.

AUTUMN QUEEN—Creamy yellow, suffused peach blossom pink. Each 10c; 12, \$1.00; 100, \$6.50.

CINCINNATUS HEINE—Blush white with soft creamy yellow throat. Each 10c; 12, \$1.00; 100, \$6.50.

HALLEY—Light salmon pink, throat cream striped with red. Ea. 5c; 12, 50c; 100, \$3.50.

LE MARECHAL FOCH—LaFrance pink, very large, showy. Ea. 5c; 12, 50c; 100, \$3.50.

MAIDENS BLUSH—Delicate pink, shading lighter at throat. Each 5c; 12, 50c; 100, \$3.50.

MARY FENNEL—Deep lilac shading lighter, primrose throat. Each 10c; 12, \$1.00; 100, \$6.50.

MARY PICKFORD—Delicate creamy white. Each 10c; 12, \$1.00; 100, \$6.50.

MYRA—Yellow, salmon suffusion. Each 5c; 12, 50c; 100, \$3.50.

SPLENDORRA—Rich dark wine red. Each 15c; 12, \$1.40; 100, \$7.50.

MIXED—(Large) 12, 35c; 100, \$2.25.

MIXED—(Small)—12, 15c; 100, \$1.50.

MIXED—(Medium). 12, 25c; 100, \$2.00.

OUR SELECTION OF NAMED VARIETIES

We have several thousand of these small size bulbs we have decided to offer to our customers at a remarkably low price in lots of 100 of a kind. Each package contains one hundred bulbs with complete cultural instructions. Order as many bulbs as you like and we will make up an assortment containing no two packages the same. The varieties used are not discards, but kinds that will grace any garden. Blooming size bulbs. Price: 75c per 100.

GLADIOLUS BULBLETS

Our selection of named varieties.

This offer is unusual. Gladiolus bulblets are seldom offered for sale because the grower retains them to increase his own stock. We have put them up in packages of 100 of a variety, labelled with name and complete cultural directions. Order as many packages as you want, and we will make selections, using no two packages alike. We also offer bulblets in a mixture. Price, 100 for 25c; 500 for 90c; 1000 for \$1.50.

THE BEST FERTILIZERS

FERTILIZE WITH VIGORO THE COMPLETE PLANT FOOD

Science now shows the way to grow what you have always wanted—velvety lawns, crisp vegetables, beautiful flowers, luxuriant shrubs and trees. For such results plants must be properly fed. Vigoro, scientifically prepared, is a complete plantfood. It contains all the plantfood elements needed to produce early, vigorous growth and bring fruit, flowers, and foliage to full development.

Vigoro is inexpensive—only 10c to 20c for every 100 square feet. It is clean, odorless, and easy to apply. You simply sow Vigoro by hand, like grass seed.

Hundreds of professional gardeners and thousands of home owners have come to rely on Vigoro and to recommend it enthusiastically. A product of Swift & Company, you can depend upon Vigoro's high quality.

Full instructions for applying Vigoro are contained in every bag. Prices not prepaid: 100-lb. bag, \$5.00; 50-lb. bag, \$3.00; 25-lb. bag, \$1.75; 5-lb. bag, 50c.

WATCH EM GROW PLANT FOOD

Don't Worry About Sickly House Plants and Ferns.

"Watch-Em-Grow" will make them strong and healthy.

IT IS ODORLESS "Watch-em-Grow" is made of the purest chemicals and so deodorized that it is not unpleasant to work with.

IT IS CONCENTRATED "Watch-em-Grow" is so highly concentrated that a little goes a long way and therefore is very inexpensive.

IT IS SOLUBLE "Watch-em-Grow" is quickly soluble in water, so you can mix as little or as much as you need at a time and do not have to keep an unsightly jar or can of solution sitting around.

LARGE 3 OZ. CAN ONLY 50c
Will make 200 ½ pint applications.

20 YEARS EXPERIENCE

Making Homes More Beautiful

BY

**Iva Bohlender Athey, Landscape Architect
OF THE**

Spring Hill Nurseries, Tippecanoe City, O.

*Her Work Has Taken Her From The Most Humble Homes To
Estates Of Many Acres.*

PROPER PLANTING

You no doubt have asked yourself many a time, "What Should I Plant" and "How Should I Plant," especially if you have recently built a new home or have wanted to make the old home and its garden more attractive.

If you are considering building a new home or changing your old home, you go to an experienced and trusted architect for his advice and plans. Also if you are sick you go to your special doctor for his advice because you have confidence in him.

Then why not place your confidence in a NURSERY and LANDSCAPE DEPARTMENT that is backed by years of experience, when you have planting problems to solve?

ROCK GARDENS AND POOLS ADD INTEREST TO YOUR GARDEN

They need not be expensive nor yet be extensive, so they may be included in the smaller gardens as well as in the larger estates.

Let us solve these problems for you.

THE PLANTING OF SCHOOL GROUNDS

Has been a specialty with us since the idea first originated years ago.

Our method of planting SCHOOL GROUNDS and PARKS will save you many dollars.

We make it easy for you to obtain either a large or small park for your city.

A STORE ROOM FULL OF INFORMATION

That is what you will find our LANDSCAPE DEPARTMENT to be. Backed by years of experience and situated as it is, within the SPRING HILL NURSERIES which has been doing business for over seventy-five years, places our Landscape Department in a position to give you as good a service as it is possible to obtain.

We want you to feel perfectly free to write us at all times.

The Farmland Lumber Co.,
Farmland, Indiana.
Dec. 10, 1928.

Dear Sirs: Answering your very kind letter of the 8th, inst., it surely would be very delightful to have some one from your nursery call in person and go over the work that I want to do. I quite agree that the correspondence method is in a way unsatisfactory.

I assure you that you will be welcomed on this visit as I have always had a warm spot in my heart for your firm, especially since your Miss Bohlender's visit to our home, there in Parker, about 1911, and the excellent job she made of that. Cordially yours, L. C. Warner.

The Town of Remington
Remington, Indiana
Dec. 14, 1928

Dear Madam: Enclosed find check for five hundred three dollars and ten cents, (\$503.10) as per your invoice. Every one is very much pleased with the shrubs. Yours truly, Paul Barnes, Clerk of town of Remington.

Greenfield, Ohio.
Dec. 10, 1928.

Dear Madam: We are delighted with the blue print and the work you did in laying out our grounds. We plan coming to Tippecanoe City in the Spring for our plants. Very truly yours, Paul Wilson.

**Your Landscape Problems Can be Solved By: Iva Bohlender Athey, of
Spring Hill Nurseries, Tippecanoe City, Ohio.**

Christmas Trees

**PLANT ONE ON YOUR LAWN FOR AN
OUTSIDE CHRISTMAS TREE
IT IS A BEAUTIFUL CUSTOM**

Trees and plants can be planted for various purposes. For shade, for screens, for windbreaks, for beauty and for many other purposes. But of all the reasons for growing a tree on your grounds planting one to be used as an outside Christmas Tree would probably give you most pleasure, would have most sentiment, and would give most cheer to everyone who passes by your home at Christmas time.

It should be planted where it could be seen by everyone, where it will have plenty of room to grow, and in rich soil so it will develop rapidly.

Lighting and trimming an outside tree for Christmas is becoming very popular, but the popularity of the custom is hindered because of the lack of these trees, growing in good locations on the home grounds.

So prepare ahead to have a tree of Christmas cheer on your own lawn. Plant one this spring and enjoy the happiness derived from bringing the spirit of Christmas to others.

SPECIALLY SELECTED TREES 18 to 24 in. \$1.50; 2 to 3 ft., \$2.50.

Big Profits in Raising Christmas Trees

It is estimated that five million Christmas trees are used in the United States every year. The use of Christmas Trees is a well established custom in every section of the country and their use is being continued in ever greater numbers years after year.

A recent government bulletin (No. 1453) says, "In 1924 Spruce and Fir trees commonly sold for \$1 to \$3 and more on the streets of the larger eastern cities. Retail prices have increased several hundred per cent in the last 15 or 20 years. High prices appear likely to prevail in the future, and, in consequence, growing Christmas Trees in plantations near the large consuming centers is beginning to look like an attractive business proposition. This is particularly true for centers in the Eastern and Middle Western States which are rather distant from a natural source of supply. Several such plantations are already in existence from which trees have been sold at prices ranging from 50 cents to \$1.50 each. In a plantation adjacent to a good public road, it seems probable that all trees could be sold right on the ground to people passing in automobiles."

PREFERENCE FOR HOME GROWN TREES

There is a growing preference for Christmas Trees which have been produced locally. There are several reasons for this. One reason, probably the most important, is the fact that the trees retain their foliage throughout the holiday season. They are usually cut a week or so before Christmas, and if kept in a cool place, will not shed their needles even though brought into a warm house and left for a week or ten days.

On the other hand, the wild trees from the swamps are cut during October, tied tight together in bundles and stacked up ready for shipment. They are usually cut two months before being used and for this reason are many times almost useless when they are set up in the home.

There is also a great advantage with the home grown trees in the general shape and character of the trees. Those produced at home have a thriftier appearance and are apt to be of much better shape. This is a big point because the trade demand a shapely tree and are willing to pay for it.

There is a good market for small trees for table use. Small holders can be sold with the

trees. If the trees are decorated with a little tinsel and displayed in some store window, they will bring \$1.00 to \$1.50 for small trees not more than a foot high.

NORWAY SPRUCE BEST VARIETY

The variety most in demand and which is recommended by authorities on the subject is the Norway Spruce. This is much superior to Balsam Fir or in fact any other variety that we know of. The Norway Spruce grows fast and makes a shapely and compact growth.

PLANTING DURING APRIL

The season for planting is during April in the North Central States. They can also be planted successfully up until the middle of May.

Trees reach you tied in bundles and packed in moss in well ventilated boxes. 11,000 seedlings, 6-8 inches, enough for one acre, would probably weigh in the neighborhood of 500 pounds when packed for shipment. Plant in rows 18 in. apart, rows 3 ft. apart.

PRICE, while our limited stock is unsold. 6 to 10 inch, 3 yr. old, \$8.50 per 100, \$80.00 per 1000, 12 to 18 inch, 5 yr. old, \$20.00 per 100, \$180.00 per 1000.

VARIETIES OF MERIT

At Reasonable Prices

WEIGELA

Of Japanese origin, producing in June and July superb, trumpet-shaped flowers of various colors, from the purest white to the richest red; very ornamental in the fall.
